

Schneider Electric confirms its firm intention to acquire AVEVA

Enabling the vision for One Data Hub and a fast track to the Enterprise Metaverse

September 21, 2022

Disclaimer

All forward-looking statements are Schneider Electric management's present expectations of future events and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. For a detailed description of these factors and uncertainties, please refer to the section "Risk Factors" in our Universal Registration Document (which is available on www.se.com). Schneider Electric undertakes no obligation to publicly update or revise any of these forward-looking statements.

This presentation includes information pertaining to our markets and our competitive positions therein. Such information is based on market data and our actual revenues in those markets for the relevant periods. We obtained this market information from various third-party sources (industry publications, surveys and forecasts) and our own internal estimates. We have not independently verified these third-party sources and cannot guarantee their accuracy or completeness and our internal surveys and estimates have not been verified by independent experts or other independent sources.

Strategic rationale

Creating value

Creation of **Customer Value** through:

- Acceleration of **subscription & SaaS**
- **Energy security and efficiency** to industrial customers
- **One data hub**, converging process and energy data
- One **set of applications** for the Complete **Enterprise Metaverse**
- **One customer experience**, frictionless

Accelerate growth through simplified and coordinated **Agnostic Software**:

- **Operational flexibility** and simplification
- **More technology convergence** through closer cooperation in R&D
- **Coordinated go-to-market** and **greater customer coverage**

Autonomous management within Schneider, with own management and board

Management and employees' compensation aligned with software peers

- Retain specific **software culture**

Continuing our transition to a **hybrid digital company**

Ambition across the cycle

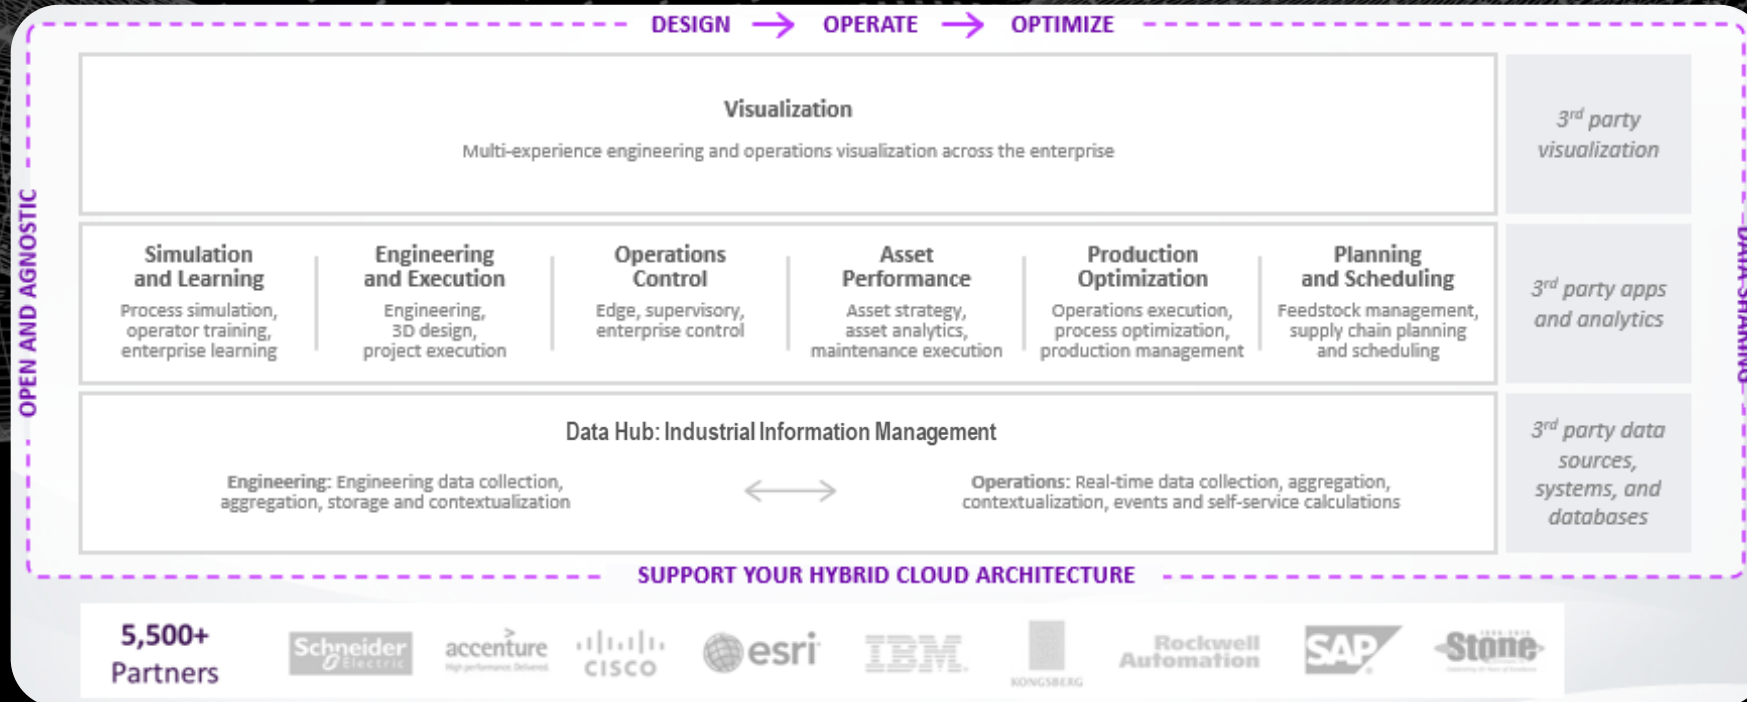

5%+ organic growth, on average

To consistently be a **Company of 25***

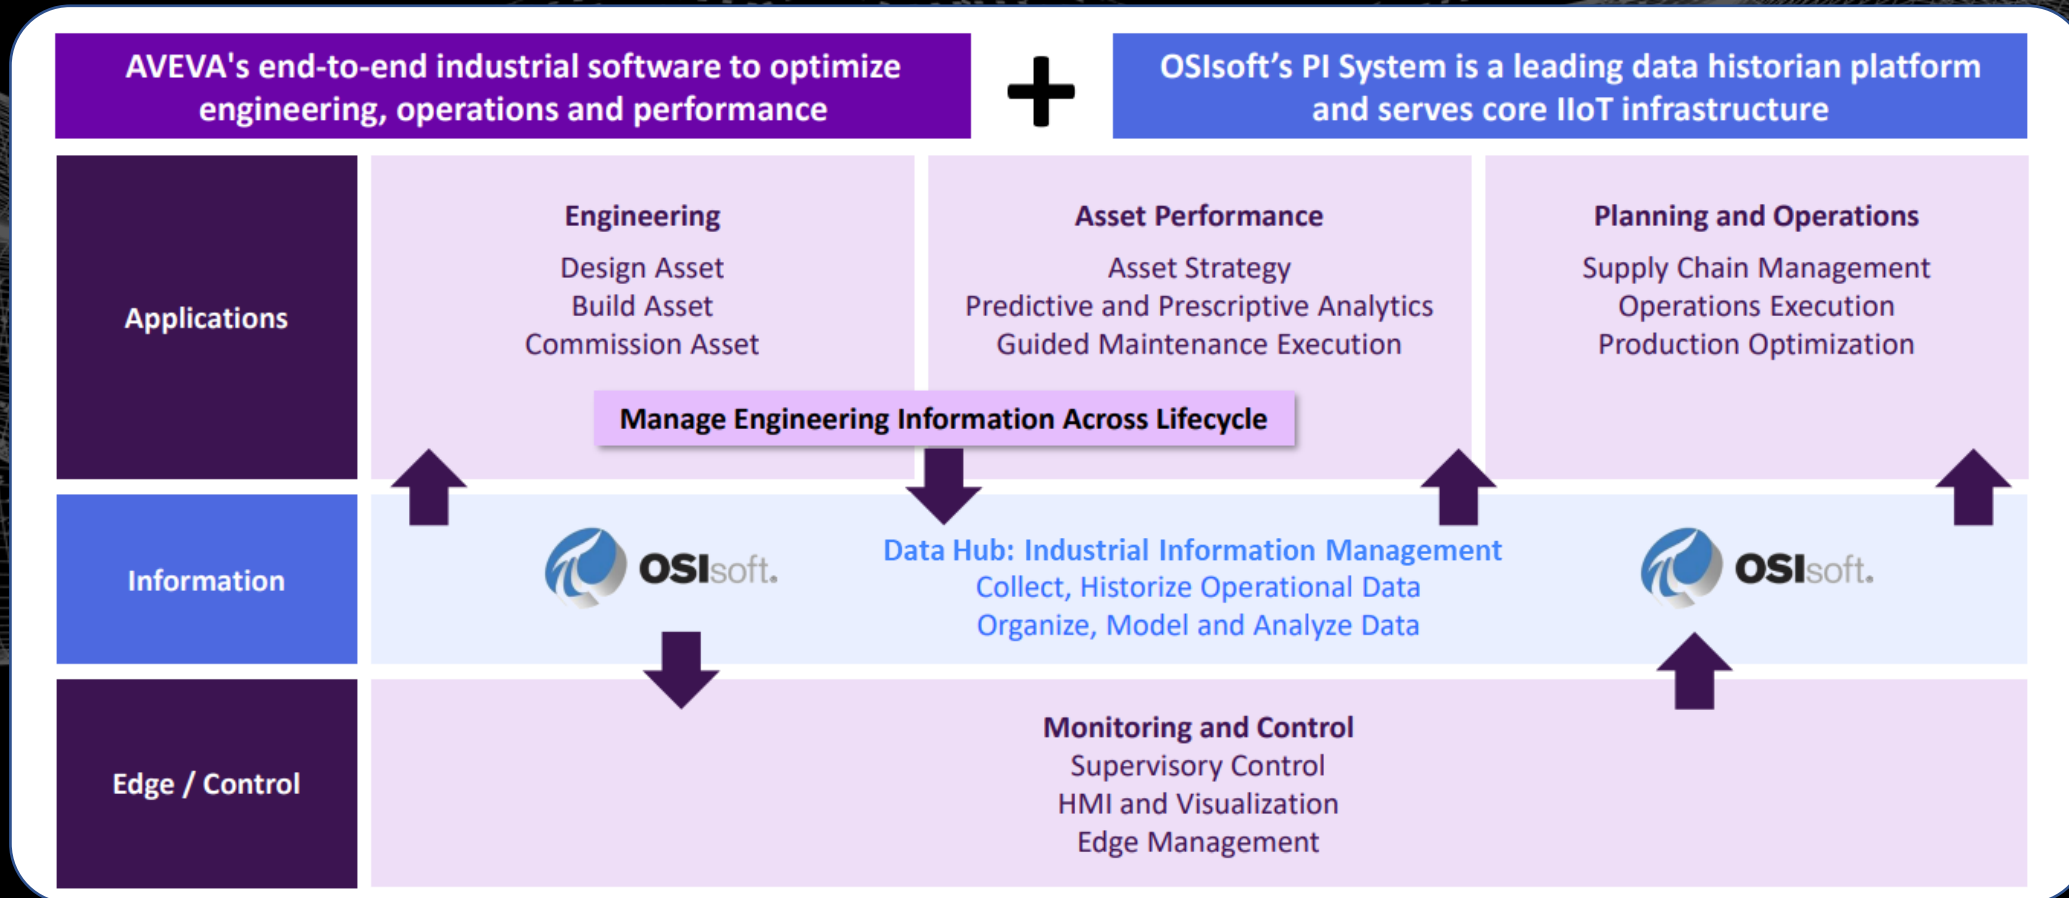

¹ As a function of expected organic revenue growth and impact of previously announced disposal program
 *sum of organic revenue growth % and adj. EBITA margin %

AVEVA has built an unrivaled position in industrial software and data management in recent years

- AVEVA provides industrial software to companies operating in industry and infrastructure
- Digital Twin for the whole asset lifecycle from Engineering through to Operations
- Industry reference Data Hub
- AVEVA's software drives efficiency and reduces costs for over 20,000 customers worldwide

Acquisition of OSIsoft has further propelled AVEVA – as the **reference agnostic data platform** across the industrial world

In parallel, Schneider has built a **portfolio focused on energy**, at a time when energy is a priority for all

Industry Twin AVEVA ALPI IGE+XAO etap RIB Planon	Process + Power + Build	Design and Engineering Deliver from capital projects to operations sustainably, on time and on budget	Project Execution Support digital project delivery	Operations Improve operational efficiency, agility, reliability and sustainability
		Electrical design Collaborative and efficient electrical design and simulation, supporting the energy transition	Electrical engineering and manufacturing Unique suite for engineering, manufacturing, assembling and commissioning electrical equipment	Energy Management Power System Digital Twin including simulation, controls and real time optimization
		Design and Engineering via partnerships	Project management Cloud-based 6D BIM platform redefining the management of building and construction	Operations Sustainability and value for owners, users, facility managers and service providers

across the lifecycle

One Data Hub

One Set of Applications

One User Experience

Many shared customers with our industrial and energy portfolio

Energy	Power	F&B, CPG, Life Sciences	Chemicals	Infrastructure	Mining	Marine	EPC

Benefits of the acquisition

The acquisition will further enable:

- Acceleration of **subscription & SaaS**
- **Combined process and energy efficiency** to industrial and infrastructure customers
- **One data hub**, converging process and energy data
- Complete **Enterprise Metaverse** toolbox
- Frictionless **customer experience**

The acquisition will accelerate growth through:

- Simplified and coordinated **Agnostic Software**
- Operational **flexibility** and **simplification**
- More technology convergence through **closer cooperation in R&D**
- **Coordinated go-to-market** and greater customer coverage

The acquisition will enable the **transition to a subscription and SaaS model** at AVEVA to be accelerated, allowing management to **focus fully on the delivery of solutions** for customers

Electric

Key financial terms of proposed transaction

Transaction Description

- Offer to acquire c.41% of AVEVA not already owned by Schneider Electric

Recommended Offer

- Recommended by the AVEVA Independent Committee

Transaction Consideration

- All cash 3,100 pence offer per share
 - a premium of c.41% to the undisturbed closing price of 2,192 pence¹
 - a premium of c.33% to the 3-month undisturbed VWAP closing price of 2,339 pence¹
 - A premium of c.32% to the 6-month undisturbed VWAP closing price of 2,347 pence¹
 - 8.2x EV / FY22 pro forma revenue²
 - 27.8x EV / FY22 adj. pro forma EBIT²

¹ Per AVEVA share on 23/08/2022, being the last business day before the commencement of the offer period
² As per AVEVA FY22 results

Our capital allocation priorities

- Committed to maintaining a **strong investment grade credit rating**
- Continued **progressive dividend policy** (maintained for the last 12 years)
- Completion of existing **portfolio optimization program** of €1.5 - €2.0 billion of revenues
- Completion of existing **share buyback** program of €1.5 - €2.0 billion
- Primary focus on **organic growth** and successful integration of past acquisitions
- Potential for **smaller and earlier stage bolt-on acquisitions** linked to long-term incremental growth

Next steps with indicative timeline towards closing
