Based on these results we are proposing a dividend of €3.50 per share, representing our 14th consecutive year of dividend progression.

We enter 2024 with a record level of backlog, particularly in relation to our systems business, giving us enhanced visibility for the coming quarters. Backlog and continuing strong demand dynamics across most of our portfolio solidifies setting strong financial targets for 2024. This is the first step of the "Next Frontier" our four-year journey as a leader in Industrial Tech, as set out in our CMD."

I. FOURTH QUARTER REVENUES WERE UP +9% ORGANIC

2023 Q4 revenues were €9,480 million, up +9.1% organic and up +1.7% on a reported basis.

Products (53% of FY 2023 revenues) grew +2% organic in Q4. Product revenues grew mid-single digit in Energy Management with sales into consumer-linked segments having stabilized, coupled with continued strong demand across a range of other segments and end-markets. Growth in Industrial Automation products was down, impacted by weak discrete automation sales primarily in Western Europe, China and East Asia. Across the Group, product volumes were slightly positive, while the carryover impact of price actions taken in 2022 continued to fade, as expected. Product growth was supported by backlog execution throughout the quarter.

Systems (28% of FY 2023 revenues) grew +17% organic in Q4, with strong double-digit organic sales growth in Energy Management supported by continued strong demand, including in Data Center and Infrastructure projects globally. In Industrial Automation, systems sales into Process & Hybrid markets saw solid growth, however weak demand from OEMs impacted systems sales into Discrete automation markets.

Software & Services (19% of FY 2023 revenues) grew +17% organic in Q4.

Software and Digital Services (9% of FY 2023 revenues) grew +28% organic in Q4.

- AVEVA delivered strong growth in Annualized Recurring Revenue (ARR), up +19%³ as of 31 December 2023, driven by strong performance in subscription contract wins, in particular for cloud-based Software as a Service (SaaS). SaaS growth was supported by the growth of the CONNECT platform and the related AVEVA Flex business model. In addition to new customer wins, ARR growth was boosted by successful upsell to the existing customer base on contract renewals while churn remained low. Q4 saw the successful roll-out of AVEVA PI Data Infrastructure, which saw strong traction with customers, supporting the evolution towards a greater proportion of subscription revenues.
- Energy Management agnostic software offers delivered double-digit organic revenue growth in Q4, led by the Group's eCAD offer (ETAP), which saw contract renewals with key accounts and new customer wins. The Group's software offer for the construction market (RIB Software) grew, seeing continued strong growth in recurring revenues.
- The remainder of the Group's digital offers delivered strong double-digit growth, including strong contribution from EcoStruxure offers for Grid digitization and modernization.

Field Services (10% of FY 2023 revenues) grew +9% organic in Q4, with strong contribution from both businesses. Energy Management services grew high-single digit, while Industrial Automation services grew double-digit across both Discrete and Process & Hybrid automation, with the latter linked to strong project execution with attached service contracts.

Sustainability Business: Sustainability consulting and services offers (split between Digital and Field Services) delivered high-single digit sales growth in Q4 against a base of comparison in excess of +20%. The Group's sustainability consulting and managed services led growth, with strong performance in PPA advisory services in Europe, while the Group's consulting services were a catalyst for strong pull-through for other offers. The Group's public sector efficiency business saw good demand towards the end of the quarter, though sales growth remained impacted by higher interest rates. Q4 saw the completion of the acquisition of EcoAct, which is a pivotal addition to the portfolio of the Sustainability Business.

Digital update:

In 2023, the Digital Flywheel represented 56% of Group revenue, showing good progress towards a target range of 60% - 65% by 2027. The growth of the Digital Flywheel outperformed the Group average, led by strong performance in connectable products (which now represent 28% of Group revenues) and Software & Services (which now represent 19% of Group revenues). Within its agnostic software businesses, around 70% of revenues were classified as recurring, showing strong progress towards a target of around 80% by 2027.

The breakdown of revenue by business and geography was as follows:

Q4 2023 PERFORMANCE BY END-MARKET

Schneider Electric sells its integrated portfolio into four end-markets: Buildings, Data Center, Infrastructure and Industry, leveraging the complementary technologies of its Energy Management and Industrial Automation businesses and supported by the focus on electrification, automation and digitization to enable a sustainable future.

- **Buildings** – The majority of the Group's exposure in the Buildings end-market is towards Non-Residential technical buildings where demand remains strong both year-on-year and sequentially. There was strength across many geographies supported by the completeness of the Group's offer from design to execution, including services. In the quarter there was double-digit demand growth in Hotels and Retail, while there was continued good demand in Healthcare. In Residential buildings, both demand and sales growth showed stabilization with some variation by geography.
- **Data Center & Networks** – Demand remained very strong in Q4 driven both by larger data centers (internet giants and co-location providers), which saw strong sales growth helped by Artificial Intelligence developments, and by Enterprise data centers. Demand and sales growth in the more consumer-orientated distributed IT segment was stable.
- **Infrastructure** – The Group sells its unique combination of Energy Management and Industrial Automation offers into the Infrastructure end-market. The Electric Utilities segment represents the largest exposure within this end-market and Q4 saw very strong demand. The Group has comprehensive solutions for operators which enhance grid stability and sustainability with growth in digital offers in the quarter up strong double-digit including pull-through to AVEVA. Demand was strong in Water & Wastewater (WWW), particularly for Energy Management offers helped by EU Green Deal related investments and desalination needs in countries with fresh-water shortages. Demand was also very strong in the Transportation segment.
- **Industry** – The Group sells its unique combination of Energy Management and Industrial Automation offers into the Industry end-market. Similar to Q3, sales growth in Q4 was contrasted between good growth in Process & Hybrid automation markets while sales into Discrete automation markets declined. Discrete automation demand continues to be down after high demand in the prior year associated with supply chain constraints, in particular impacting sales growth in Western Europe, China and East Asia. In Process & Hybrid automation

4. OSIssoft revenues are reported by region from January 1, 2023. 2022 baseline has been adjusted in the organic growth calculation.

there was good demand for both Energy Management and Industrial Automation offers in the Energies & Chemicals (E&C) and Metals, Mining & Minerals (MMM) segments.

Group trends by geography:

North America (34% of FY 2023 revenues) was up +8.8% organic in Q4.

Energy Management grew +10.5% organic against a strong double-digit base of comparison. There was double-digit growth in the U.S., high-single digit growth in Mexico while Canada was down low single-digit. In the U.S., there was strong growth in Systems revenues, as a function of continued strong demand across Data Center and Infrastructure end-markets. Products sales growth in the U.S. was less strong, including in the Residential building market where sales declined due to continued supply constraints and against a very high base of comparison. Mexico saw strong growth across many end-markets. Canada was down against an overall high base of comparison though seeing some recovery in Residential buildings. Across the region, there was double-digit growth in Field Services, with good traction for those associated with the digitization of Non-residential buildings.

In Industrial Automation, which was slightly down -0.3% organic, the U.S. was down low single-digit, while Mexico delivered double-digit growth and Canada also grew. Process & Hybrid automation markets saw solid growth, led by Mexico where there was strong execution on ongoing projects. Sales into discrete automation markets were flat, with Canada and Mexico growing while the U.S. saw a small decline driven by a demand normalization in response to elevated levels of stock held by customers, partly mitigated by backlog execution.

Western Europe (25% of FY 2023 revenues) grew +7.4% organic in Q4 against a double-digit base of comparison for each of the five major economies, in both Energy Management and Industrial Automation.

Energy Management was up +10.6% organic, with growth led by Italy, up strong double-digit, supported by investment in many end-markets and segments including Non-residential buildings, Transportation, Grid and Data Center. The U.K. grew double-digit with strength in Infrastructure, e-mobility, Data Center and Building markets. Germany and France also grew double-digit while Spain was up high-single digit amid strong growth in several other countries. Across the region, Systems revenues grew double-digit on continued strong demand in the Infrastructure and Data Center end-markets. Product sales growth was positive, supported by price carryover and backlog execution. Distributed-IT showed a recovery while there was stabilization in the Residential buildings market in general, though remaining weak in Germany. Field Services grew double-digit across the region notably in France. Sustainability services grew strong double-digit supported by good activity in Power Purchase Agreements (PPA) advisory services. Software grew high-single digit, led by ETAP.

In Industrial Automation, which was down -2.5% organic, the U.K. delivered very strong growth in Process & Hybrid automation markets in part due to a large contract renewal at AVEVA. The U.K. also delivered strong growth in systems for Process industries, while sales into Discrete Automation markets were slightly positive with strength in the Food & Beverage segment. The other major economies of the region, France, Germany, Italy and Spain all declined with the anticipated weakness in Discrete Automation markets confirmed as demand continues to normalize in response to high customer stock levels and reduced lead-times. Each of these countries fared better in Process & Hybrid automation markets, with France and Germany also seeing strong growth in Software at AVEVA, as did the Netherlands.

Asia Pacific (28% of FY 2023 revenues) grew +7.2% organic, with China up mid-single digit and India up strong double-digit.

In Energy Management, which grew +9.9% organic, China was up high-single digit with strength in areas such as transportation and renewable power while Residential buildings growth was stable. India delivered another quarter of strong double-digit growth with strength across end-markets, notably in Infrastructure and Buildings. Australia also grew double-digit benefitting from execution on a large Data Center project. Performance across the rest of the region was mixed, with strong growth in Thailand and good growth in South Korea, while some countries in East Asia saw declines with weakness in construction and semiconductor markets.

In Industrial Automation, which contracted -1.7%, China was down mid-single digit with contrasting performance between strong growth in Process & Hybrid markets and declines in Discrete Automation markets, where the Group has more exposure, with machine builders and industrial OEMs remaining weak. India delivered another quarter of double-digit growth, where sales growth into Discrete Automation markets remained strong, supported by backlog execution. Japan and South Korea each saw declines in Discrete Automation markets though South Korea benefitted from strong performance at AVEVA. Australia delivered double-digit growth, with strong performance at AVEVA and resilient performance in Discrete Automation.

Rest of the World (13% of FY 2023 revenues) grew +17.8% organic, with strong growth supported by price actions in Turkey, Argentina and Egypt as the Group continues to take measures to control its exposure to significant currency devaluations. Each of these three countries consequently delivered strong double-digit growth in both Energy Management and Industrial Automation, and while price was a significant contributor each also saw volume expansion.

In Energy Management, which grew +18.8% organic, Africa grew strong double-digit while the Middle East and South America were both up double-digit, excluding contributions from the above-named countries. Africa saw strong growth across many countries, largely due to execution on infrastructure projects across the region. There were strong growth contributions in the Middle East from Saudi Arabia and countries in the Gulf region where there was continued execution on Data Center projects. In South America, there was strong growth in Brazil supported by execution on several projects, and a recovery in sales to the Buildings end-market. Central & Eastern Europe grew high-single digit.

In Industrial Automation, which grew +14.7% organic, the Middle East and Africa both delivered double-digit growth, while South America delivered high-single digit growth excluding contributions from the above-named countries. The performance was primarily driven by strong growth at AVEVA particularly in the Middle East, and was supported by solid growth in Discrete automation markets particularly in the Gulf region, while Process & Hybrid automation markets were around flat. Central & Eastern Europe was down slightly with Discrete Automation demand following similar trends to Western Europe.

SCOPE⁵ AND FOREIGN EXCHANGE⁶ IMPACTS IN Q4

In Q4, net acquisitions/disposals had an impact of **-€184 million** or **-1.9%** of Group revenues, including the divestments of the Group's industrial sensors business, its transformer plants in Poland and Turkey and Gutor, along with the net impact of some smaller acquisitions and disposals.

Based on transactions completed to-date, the Scope impact on FY 2024 revenues is estimated to be **around -€300 million**. The Scope impact on adjusted EBITA margin for FY 2024 is estimated to be **around flat**.

In Q4, the impact of foreign exchange fluctuations was negative at **-€443 million** or **-4.9%** of Group revenues, mostly driven by the weakening of the U.S. Dollar, Chinese Yuan and Argentinian Peso against the Euro.

Based on current rates, the FX impact on FY 2024 revenues is estimated to be between **-€400 million to -€500 million**. The FX impact at current rates⁷ on adjusted EBITA margin for FY 2024 could be **around -30bps**.

5. Changes in scope of consolidation also include some minor reclassifications of offers among different businesses.

6. For those currencies meeting the criteria to be considered hyperinflationary under IAS 29, such as Argentina and Turkey, an IFRS technical adjustment for hyperinflation impact is reflected as FX and therefore excluded from the organic growth calculation. The effect of operational actions taken in these countries such as increased pricing to mitigate the inflationary impact is reflected as part of the organic growth.

7. Forward exchange rates are volatile and difficult to predict. Consequently, the impact of such movement and possible impacts from hyperinflation technical accounting (IAS29) are not factored at this stage.

ADJUSTED EBITA MARGIN AT 17.9%, UP +180 BPS ORGANIC DUE TO STRONG PRICE CARRYOVER, GOOD VOLUME GROWTH AND IMPROVEMENT IN SYSTEMS MARGIN

Gross profit was up **+18.1%** organic with Gross margin up **+200bps** organic, reaching **41.8%** in 2023. The organic increase in margin percentage was driven by a strong net price impact mainly related to carryover from price actions taken in 2022, an improvement of gross margin in systems business and improved industrial productivity, particularly in H2.

2023 Adjusted EBITA reached **€6,412** million, increasing organically by **+24.5%** and the Adjusted EBITA margin expanded by **+180bps** organic to **17.9%** as a consequence of good volumes and the strong gross margin improvement, combined with control over support function cost growth while investing for the future.

8. See appendix Adjusted Net Income & Adjusted EPS.

The key drivers contributing to the earnings change were the following:

€ million	Adj. EBITA	YoY change	Comments
Adj. EBITA FY 2022	6,017		
Volume impact		1,135	Positive impact from higher sales volumes.
Industrial productivity		148	The Group's industrial productivity level was +€148m with good acceleration in H2 as the supply chain environment returns to a more normalized state.
Net price⁹		1,391	The net price impact was positive at +€1,391m in 2023.
<i>Gross pricing on products</i>		<i>1,179</i>	Gross pricing on products was positive at +€1,179m slowing as expected in H2 as mostly due to carryover from pricing actions taken in 2022. In total, RMI was a tailwind at +€212m.
<i>Raw Material Impact</i>		<i>212</i>	
Cost of Goods Sold inflation		-152	Cost of Goods Sold inflation was -€152m in 2023, of which the production labor cost and other cost inflation was -€127m, and an increase in R&D in Cost of Goods Sold was -€25m. The overall investment in R&D, including in support function costs continued to increase as expected and represented 5.4% of 2023 revenue.
<i>Production labor cost and other cost inflation</i>		<i>-127</i>	
<i>R&D in Cost of Goods Sold</i>		<i>-25</i>	
Support function costs		-1,033	Support Function Costs increased organically by -€1,033m, or +13.7% org. in 2023, deteriorating as a percentage of sales by -20bps org. Despite completing its operational efficiency plan in 2022, the Group delivered a further +€226m of cost savings. Other increases of -€315m include impacts from bonus accruals and some one-time items linked to technical accounting changes on employee share plans and marketing costs.
Mix		192	2023 performance resulted in a positive mix effect of +€192m where strong improvement of Gross Margin in the Systems business was partly offset by impacts from the relatively faster growth of Systems revenues compared to Products.
Foreign currency impact¹⁰		-573	The impact of foreign currency decreased the adjusted EBITA by -€573m in 2023, or around -100bps of margin, of which around -40bps related to impacts from Argentina, Egypt and Turkey which saw significant currency devaluation in the year.
Scope and Others		-713	The impact from scope & others was -€713m in 2023, with net Scope impacts representing a -50bps adj. EBITA margin headwind primarily due to the reincorporation of Solar activities and the exit from Russia. Others represents primarily the positive impact from inventory revaluation in H1 2022.
Adj. EBITA FY 2023	6,412		

By business, the FY 2023 adjusted EBITA for:

9. Price on products and raw material impact

10. For those currencies meeting the criteria to be considered hyperinflationary under IAS 29, such as Argentina and Turkey, an IFRS technical adjustment for hyperinflation impact is reflected as FX and therefore excluded from the organic growth calculation. The effect of operational actions taken in these countries such as increased pricing to mitigate the inflationary impact is reflected as part of the organic growth

- **Energy Management** generated an adjusted EBITA of **€5,967 million**, or **21.1%** of revenues, up c.+220bps organic (up +70bps reported), due mainly to a combination of strong net price impact, good contribution from volumes and an improvement of gross margin in the systems business, more than offsetting investment in SFC and inflationary impacts.
- **Industrial Automation** generated an adjusted EBITA of **€1,304 million**, or **17.0%** of revenues, down c.-110bps organic (down -190bps reported), where strong net price contribution, improved productivity and improvement of gross margin in the systems business were more than offset by impacts from inflation and increased strategic investment within support function costs.
- **Central Functions & Digital Costs** in 2023 amounted to **€859 million** (€833 million in 2022), remaining stable at 2.4% of Group revenues. Investment in the Group's strategic priorities continued, while the Corporate cost element continued to be an area of focus and remained under tight control, remaining at around 0.7% of Group revenues in 2023.

Net financial income/(loss)	(215)	(530)	Net financial expenses were -€530m in 2023, -€315m higher than last year. The cost of debt was -€202m higher, as expected, due to higher interest rates and a higher base following the acquisition of AVEVA minorities. - **FREE CASH FLOW REACHED €4.6 BILLION**

The Group delivered Free Cash Flow of **€4,594 million**, primarily due to the P&L performance driving record operating cash flow of +€5,529 million. This included R&D cash costs of €2,016 million, which increased to 5.6% of 2023 revenue.

Net capital expenditure of -€1,313 million increased slightly to 3.7% of revenue, in line with the Group's plans to make capacity investment to fuel future growth.

Trade working capital unwind boosted the free cash flow in 2023 by +€173 million, with a strong rebound in H2 of +€1,065 million. Inventory days were stable compared to December 2022, having seen an increase in the middle of the year as the Group sought to secure supply and prioritize deliveries to customers. For receivables, DSO also remained broadly stable while in relation to payables DPO increased slightly, helping working capital. Non-trade working capital requirements were primarily impacted by the level of bonus accruals.

- **BALANCE SHEET REMAINS STRONG**

Schneider Electric's net debt at December 31, 2023 amounted to **€9,367 million** (down from €11,225 million at December 2022) after payment of -€1.9 billion to fulfill the 2022 dividend and payment of -€0.7 billion in relation to share buyback, offset by net acquisitions of +€0.6 billion and the strong Free Cash Flow performance of +€4.6 billion.

The Group remains committed to retaining its strong investment grade credit rating.

- **CASH CONVERSION & PROPOSED DIVIDEND**

Cash conversion was 115% in 2023, benefitting from the strong working capital tailwinds experienced in H2 2023 as product backlog was drawn down with a resulting decrease in inventories from highs at the end of H1 2023. This follows a period of lower cash conversion in 2021 and 2022 related to global supply chain challenges which necessitated the holding of higher levels of inventory. The three-year average cash conversion (2021-2023) is 97% (excluding impacts from Russia exit in 2022) in line with the Group's expectation to deliver ~100% cash conversion on average across the cycle.

The proposed dividend¹² is €3.50 per share, up +11% vs. 2022 as the Group maintains its progressive dividend policy for the 14th year.

The target would be achieved through a combination of organic revenue growth and margin improvement, currently expected to be:

- Revenue growth of **+6% to +8% organic**
- Adjusted EBITA margin up **+40bps to +60bps organic**

This implies Adjusted EBITA margin of **around 18.0% to 18.2%** (including scope based on transactions completed to-date and FX based on current estimation).

Peter Herweck, Chief Executive Officer, commented:

"We continue to deliver strong revenue growth in Q3, up +12% organic, with increased focus on execution and prioritization. As expected, we continue to see strong demand dynamics across segments and geographies, notably in Data Centers where AI-related demand is becoming visible and in energy transition related investments. This resulted in further growth of Group backlog in Q3, despite weaker demand trends in discrete automation. Our software, services and systems offers provide added resilience and have been growing very strongly across geographies as we partner with our customers on their electrification, digitization and decarbonization journeys. We reaffirm our FY 2023 financial target.

I'm excited to have the opportunity to engage with you at our upcoming Capital Markets Day, where I will share more on our strategy and outlook."

I. THIRD QUARTER REVENUES WERE UP +12% ORGANIC

2023 Q3 revenues were €8,789 million, up +11.5% organic and up +0.1% on a reported basis.

Products (54% of Q3 revenues) grew +5% organic in Q3. Product revenues grew mid-single digit in Energy Management with good demand across end-markets, while growth in Industrial Automation was around flat, impacted by weaker discrete automation markets, particularly in China. Across the Group, growth was supported by backlog execution throughout the quarter, while the carryover impact of price actions taken in 2022 continued to fade, as expected.

Systems (28% of Q3 revenues) grew +23% organic in Q3, with strong double-digit organic sales growth in Energy Management supported by continued strong demand, including in Data Center and Infrastructure projects globally. In Industrial Automation, Systems revenues grew mid-single digit, with double-digit growth linked to Process & Hybrid industrial segments.

Software & Services (18% of Q3 revenues) grew +17% organic in Q3.

Software and Digital Services grew +17% organic in Q3.

- AVEVA delivered strong growth in Annualized Recurring Revenue (ARR), up +16%¹ as at 30 September 2023, with growth mainly comprising upsell to the existing customer base, combined with net new customer wins across a variety of segments. Adoption of cloud-based Software as a Service (SaaS) continued to grow strongly, while perpetual license revenues declined as expected given the transition to subscription.
- Energy Management agnostic software offers grew low-single digit in Q3, against a base of comparison in excess of +20%. The Group's eCAD offer (ETAP), saw good growth in several geographies, though faced headwinds from a lesser contribution from large projects compared to Q3'22. The Group's software offer for the construction market (RIB Software) grew, seeing continued strong performance in recurring revenue types, while perpetual license sales were down, impacted by the weak construction market in Germany.
- The remainder of the Group's digital offers delivered strong double-digit growth, including strong contribution from EcoStruxure offers for Data Center and Grid.

Field Services grew +17% organic in Q3, with strong contribution from both businesses. Energy Management services grew double-digit, with good traction across end-markets and many segments. Industrial Automation services grew strong double-digit across both Discrete and Process & Hybrid automation.

Sustainability Business: Sustainability consulting and services offers (split between Digital and Field Services) delivered another quarter of double-digit sales growth against a base of comparison in excess of +20%. The Group's sustainability consulting and managed services led growth, with strong acceleration in PPA advisory services in Europe. The Group's digital offers performed well, with strong growth for EcoStruxure Resource Advisor.

Q3 2023 PERFORMANCE BY END-MARKET

Schneider Electric sells its integrated portfolio into four end-markets: Buildings, Data Center, Infrastructure and Industry, leveraging the complementary technologies of its Energy Management and Industrial Automation businesses and supported by the focus on electrification, digitization and sustainability.

- **Buildings** – The majority of the Group’s exposure in the Buildings end-market is towards Non-Residential technical buildings where demand remains good and sequentially stable. There was strength across many geographies and reflective of the completeness of the Group’s offer from design to execution, including services. Demand in Healthcare remains strong as does Hotels. The Group continues to focus on these and other technical building segments with compelling digital offers to drive sustainability and energy efficiency, of particular importance in the retrofit of existing buildings. Residential demand showed signs of stability outside of Western Europe, with sales growth varying by geography.
- **Data Center & Networks** – There was strong sales growth within the Data Center segment, while demand also remained strong from both larger data centers (internet giants and colocation providers), where developments in Artificial Intelligence begin to be a driver, and those in enterprise settings. The Group’s service offer for Data Centers has seen good traction and contributed strongly to the sales growth in the quarter. Distributed IT (primarily sold through channel partners) saw improved demand in Q3, with strong sales growth in India compensating for softer consumer-linked growth in Europe.
- **Infrastructure** – The Group sells its unique combination of Energy Management and Industrial Automation offers into the Infrastructure end-market. The Electric Utilities segment represents the

2. OS/soft revenues are reported by region from January 1, 2023. 2022 baseline has been adjusted in the organic growth calculation.

largest exposure within this end-market and Q3 saw another quarter of strong demand, reflecting the Group's comprehensive grid offers and the focus by operators on grid stability, sustainability and digitization including good demand and sales growth for ADMS offers. Demand for offers from both businesses was strong in Water & Wastewater (WWW) while demand in the Transportation segment was good.

- **Industry** – The Group sells its unique combination of Energy Management and Industrial Automation offers into the Industry end-market. In Industrial Automation, sales growth was contrasted between strong growth in Process & Hybrid automation markets while Discrete automation markets saw positive growth. Sales were supported by backlog execution, particularly in Discrete automation where demand moderated quickly from previously elevated levels. In Process & Hybrid end-markets, there was strong demand in the Consumer Packaged Goods (CPG) segment for the offers of both businesses, while overall solid demand in Energies & Chemicals (E&C) was more weighted towards Energy Management offers. Metals, Mining & Minerals (MMM) demand was down against a high base of comparison, due to project execution in the previous year. OEM demand was weak across segments including construction and material handling, while end-user demand was more robust, with good traction in several segments including EV battery manufacturing.

Group trends by geography:

North America (35% of Q3 revenues) was up +16.9% organic in Q3.

In Energy Management, which grew +17.7% organic, there was double-digit growth in the U.S., strong double-digit growth in Mexico and high-single digit growth in Canada. In the U.S., growth in Systems revenues was particularly strong, as a function of continued strong demand across Data Center and Infrastructure end-markets. Growth from Product sales in the U.S. were strong with good growth in Residential buildings, supported by a combination of continued demand and backlog execution. In Mexico, there was continued strong growth across end-markets. Growth in Canada was good, though remaining relatively more impacted in Residential buildings. Services grew double-digit across the region.

Industrial Automation grew +12.3% organic, with the U.S. delivering double-digit growth, while Canada was around flat and Mexico declined slightly. In the U.S., sales into discrete end-markets remained healthy, seeing strong double-digit growth supported by backlog execution. Process & Hybrid industrial markets in the U.S. also saw growth and there was strong growth in software at AVEVA. Canada saw good growth across both Discrete and Process automation markets but was down in software. The slight decline in Mexico is attributable to execution on a large project last year resulting in a high base of comparison.

Western Europe (23% of Q3 revenues) grew +7.3% organic in Q3.

In Energy Management, which was up +9.0% organic, growth was led by the U.K. which was up strong double-digit, and Germany and Italy which each grew double-digit. France and Spain delivered mid-single digit growth. Systems revenues were up strong double-digit across the region with continued strong growth in the Data Center and Infrastructure end-markets. Product sales were impacted by weak Residential markets, particularly in France and Germany while the U.K. continued to see good growth in Residential. Elsewhere in the region there was strong growth in many countries, including the Netherlands and Norway. Services growth was strong across the region, notably in Infrastructure and Data Center end-markets.

Industrial Automation grew +2.6% organic. The U.K. delivered double-digit growth and France was up high-single digit, with each seeing strong growth in Process automation segments while also up in

Discrete segments supported by backlog execution. Germany also contributed to growth, up mid-single digit despite pressure in Discrete industries. In Southern Europe, both Italy and Spain saw declines, linked with weaker discrete demand. There was strong growth at AVEVA, supported by revenue recognition on a contract with a customer in Switzerland while also seeing good growth in Germany. Services sales grew strong double-digit in industrial segments.

Asia Pacific (29% of Q3 revenues) grew +3.5% organic in Q3.

In Energy Management, which grew +7.0% organic, China was up low-single digit with transportation and renewable power remaining areas of strength. India continued to perform well, up strong double-digit with growth across end-markets, with particular strength in Buildings (both Residential and Non-Residential) and Infrastructure. Australia grew high-single digit, with continued strong growth in Systems revenues while the Residential buildings market saw modest growth. Across the rest of the region, many countries delivered double-digit growth, including Japan, Indonesia and Malaysia, all supported by backlog execution, while Singapore was down against a high base of comparison.

In Industrial Automation, which was down -6.4%, China was down double-digit driven by weakness in discrete automation markets, particularly in OEM segments tied to construction. Growth in Process & Hybrid industrial segments such as E&C and CPG continued to be strong. India delivered double-digit growth with both Discrete and Process & Hybrid industrial segments performing well. Growth was particularly strong in Australia in part due to the renewal of a large contract at AVEVA, supported by good growth across the rest of the automation offer. Japan and Korea each saw declines, driven by weaker discrete demand including in OEM and Semiconductor segments.

Rest of the World (13% of Q3 revenues) grew +27.2% organic in Q3, with the strong growth supported by price actions in countries including Turkey, Argentina and Egypt as the Group continues to take measures to control its exposure to significant currency devaluations.

In Energy Management, which grew +26.8% organic, the Middle East, Africa and South America all delivered double-digit growth. The Middle East led the growth, where Turkey and Saudi Arabia were particularly dynamic, the latter due to execution on large projects, while Turkey saw continued strong growth across end-markets. There was strong growth across Africa, where Egypt performed well, due to a combination of project execution and backlog consumption. The picture in South America was more mixed, with growth in Argentina comprising strong demand ahead of elections, compensating for continued softness in Brazil. Central & Eastern Europe grew high-single digit.

In Industrial Automation, which grew +28.2% organic, the Middle East, Africa and South America all grew strong double-digit. The growth was primarily driven by strength in Discrete automation markets though supported by good growth in Process & Hybrid automation markets. In South America, both Argentina and Brazil saw strong growth. In the Middle East, Turkey saw strong sales in Discrete automation supported by backlog execution, while Africa saw broad-based growth. Central & Eastern Europe was up low-single digit, due to some softness in discrete automation.

SCOPE³ AND FOREIGN EXCHANGE IMPACTS⁴ IN Q3

In Q3, net acquisitions/disposals had an impact of **-€258 million** or **-3.0%** of Group revenues, mainly representing the disposal of Schneider Electric's Russia operations and the net impact of some smaller acquisitions and disposals.

Based on transactions completed to-date, the Scope impact on FY 2023 revenues is estimated to be **around -€850 million**. The Scope impact on adjusted EBITA margin for FY 2023 is estimated to be **around -30bps**, particularly impacted by the exit from Russia.

In Q3, the impact of foreign exchange fluctuations was negative at **-€639 million** or **-7.5%** of Group revenues, mostly driven by the weakening of the U.S. Dollar and Chinese Yuan against the Euro.

Based on current rates, the FX impact on FY 2023 revenues is estimated to be between **-€1.35 billion to -€1.45 billion**. The FX impact at current rates on adjusted EBITA margin for FY 2023 could be **around -80bps**.

II. SCHNEIDER SUSTAINABILITY IMPACT

Schneider Sustainability Impact (SSI) 2021-2025 program drives and measures company-wide progress towards 11 global sustainability targets, supplemented by locally-led initiatives, which collectively support Schneider Electric's six long-term Environmental, Social and Governance (ESG) [commitments](#).

Local highlights during the quarter include:

- Solar power solutions installed at a children's clinic in Kenya gave 20,000 people access to clean electricity and improved the quality of life of the local community.
- In collaboration with Enactus in Mexico, 60,000 students from over 400 universities and colleges engaged in training initiatives to drive social impact in local communities. As a result, Schneider Electric has now crossed the halfway mark in its goal of training 1 million people by 2025.
- Schneider Electric and the Gaia Energy Impact Fund II raised €40 million to support renewable energy projects in Africa. This impact investment partnership funds startups and entrepreneurial projects with a strong environmental and social focus.
- Schneider Electric's unique contribution to Barcelona's district cooling project was rewarded with the Best Energy Innovation Award from *El Periodico de la Energia*.

Additionally this quarter, Schneider Electric received several prestigious global recognitions for its diversity and inclusion policies as well as three global awards for sustainable procurement, upstream decarbonization and people development practices from the Chartered Institute of Procurement and Supply ([CIPS](#)).

At the end of the third quarter of 2023, the SSI score came in at 5.76, on track to reach the 2023 year-end target of 6 out of 10.

3. Changes in scope of consolidation also include some minor reclassifications of offers among different businesses.

4. For those currencies meeting the criteria to be considered hyperinflationary under IAS 29, such as Argentina and Turkey, an IFRS technical adjustment for hyperinflation impact is reflected as FX and therefore excluded from the organic growth calculation. The effect of operational actions taken in these countries such as increased pricing to mitigate the inflationary impact is reflected as part of the organic growth.

Our balanced geographical footprint and end-market exposure gives us confidence to continue to deliver profitable growth. As such we today upgrade our FY 2023 financial target."

I. SECOND QUARTER REVENUES WERE UP +15% ORGANIC

2023 Q2 revenues were €9,140 million, up +14.8% organic and up +7.4% on a reported basis.

Products (56% of Q2 revenues) grew +10% organic in Q2. In Energy Management, product sales grew double-digit, while in Industrial Automation growth was high-single digit. Supply chain shortages showed progressive improvement, allowing good execution against the backlog. There was positive contribution from volume expansion, while price remained a significant component of organic growth for the quarter, though sequentially moderating from Q1 as the carryover impact of actions taken in 2022 progressively fades. The Group continued its focus on expanding its digital footprint through ongoing innovation leading to the growth rate of connectable products being significantly ahead of the overall products growth.

Systems (27% of Q2 revenues) grew +27% organic in Q2, with double-digit organic sales growth in both Energy Management and Industrial Automation. This strong growth was driven across end-markets, supported by a combination of continued strong demand including in Data Center and Infrastructure projects globally, pricing impact and the improving supply chain situation.

Software & Services (17% of Q2 revenues) grew +13% organic in Q2.

Software and Digital Services grew +15% organic in Q2.

- AVEVA delivered strong growth in Annualized Recurring Revenue (ARR), up +15.1%¹ as at 30 June 2023, with growth comprising both upsell to the existing customer base, and the addition of new logos. AVEVA saw good traction with new customer wins across a range of industries, with particular strength in Energies & Chemicals (E&C) and Consumer Packaged Goods (CPG). Adoption of cloud-based Software as a Service (SaaS) continued to be strong. The Group continues to benefit from enhanced co-operation between AVEVA and the other agnostic software businesses for the benefit of customers across end-markets.
- Energy Management agnostic software offers saw strong growth, particularly in relation to the Group's eCAD offer (ETAP), which grew double-digit, where Schneider has a unique capability in electrical design across multiple segments and applications. The Group's software offer for the construction market (RIB Software) continued to see good growth in recurring revenue types, however overall growth was impacted by the construction market in Germany.
- Digital services grew strong double-digit with growth in EcoStruxure Advisors across multiple domains, including Power, Building and IT. Cybersecurity services saw strong double-digit growth in the quarter.

Field Services grew +11% organic in Q2, with strong contribution from both businesses. Industrial Automation services led the growth, up strong double-digit, performing well across both Discrete and Process & Hybrid automation. Energy Management services grew double-digit, with good traction across end-markets and many segments. The continued focus on growing Field Services is strategically linked to the development of the Digital Flywheel and also enhancing recurring revenue for the Group.

Sustainability Business: Sustainability consulting and services offers (split between Digital and Field Services) delivered another quarter of double-digit sales growth against a high base of comparison. Sustainability consulting and private sector efficiency programs drove strong growth in pull-through for the Group's offers. There was continued strong growth from Power Purchase Agreements (PPAs) and Energy Attribute Certificates (EACs) particularly in Europe, while North America saw continued underlying demand, with delivery weighted towards H2. The Group's digital offers performed well, with

1. At constant currency, adjusted for Russia impacts

strong growth for EcoStruxure Resource Advisor, and for its enhanced digital offers through Zeigo which continue to gain traction with customers.

The breakdown of revenue by business and geography was as follows:

Q2 2023 PERFORMANCE BY END-MARKET

Schneider Electric sells its integrated portfolio into four end-markets: Buildings, Data Center, Infrastructure and Industry, leveraging the complementary technologies of its Energy Management and Industrial Automation businesses and supported by the focus on electrification, digitization and sustainability.

- **Buildings** – Across the Buildings end-market, renovation and upgrades to existing building stock is seeing relatively stronger dynamics compared to new build. Non-residential activity remained at a high level in specific segments such as Healthcare. The demand is underpinned by the decarbonization commitments of building asset owners. Activity in Residential was relatively weaker, with sales growth varied by geography, explained in more detail in the Group trends by geography.
- **Data Center** – Sales for the quarter grew double-digit for Data Center and Networks. Demand in the Data Center and Networks end-market also remained strong, reflecting the breadth of the Group's offers, spread of customers and geographic coverage. The Group sees multiple demand drivers in the Data Center market, including enhanced capacity investment linked with developments in Artificial Intelligence. In the Data Center segment the Group's comprehensive offer (MV, LV, Secure Power, Cooling, BMS, Software) is unique and both demand and sales grew strongly, across both hyperscale and smaller data centers. Distributed IT, which is linked to consumer and IT spend, grew low-single digit in Q2 showing sequential improvement compared to Q1.

2. OS/soft revenues are reported by region from January 1, 2023. 2022 baseline has been adjusted in the organic growth calculation.

- **Infrastructure** – Demand in the Electric Utilities segment experienced another strong quarter across both businesses and continues to be driven by the focus on grid stability, sustainability and digitization. The increased electrical requirements from new and existing demand and growth in renewables underpin activity. The Group is uniquely positioned in electrical distribution to serve customers with its complete offerings across the entire electrical value chain (hardware, software and services). Transportation also experienced another quarter of strong demand in ports, airports and rail infrastructure including for digital and automation control offers. Demand in Water & Wastewater (WWW) was impacted by a high base of comparison with investments focused on software and services to cope with climate change and the growing regulation for water and waste management.
- **Industry** – Sales into Discrete end markets grew strongly though varied by geography, explained in more detail in the Group trends by geography, with demand normalizing from a high level. Both businesses saw good growth in packaging, semi-conductor and general machinery segments as supply chains continue to progressively ease. There was strong demand for the Group's offers in Automotive centered on EV battery manufacturing. Demand in Process & Hybrid markets continues to be supported by good activity in E&C and CPG, while remaining stable at a high level in Metals, Mining & Minerals (MMM).

Group trends by geography:

North America (34% of Q2 revenues) was up +21.4% organic in Q2.

In Energy Management, which grew +23.8% organic, there was strong double-digit growth in the U.S. and in Mexico, while Canada grew high-single digit. The U.S. saw strong sales growth across end-markets, including in Buildings, where strong Residential growth was supported by backlog execution and a dynamic rental market, and where Non-residential buildings saw continued strong demand in technical buildings, supported by renovation trends. Sales growth in Infrastructure and Data Center markets also remained strong, though Distributed IT grew more modestly. There was strong growth for Energy Management sold into Industrial OEM segments. Mexico was also strong across end-markets, while Canada was relatively weaker, notably in Residential buildings. Services grew strongly in the quarter across the region, both in respect of traditional services and for the Group's sustainability offers.

Industrial Automation grew +8.3% organic, with the U.S. delivering double-digit growth and Canada up high-single digit, while Mexico declined. In the U.S., automation sales into discrete end-markets remained buoyant, seeing strong double-digit growth, despite ongoing supply constraints. Growth was driven across segments including with OEMs in HVAC and Printing & Packaging, and with end-users, supported by backlog execution. Sales of both automation and software into U.S. process end-markets grew, but less strongly than the performance in discrete automation. Conversely, Canada was stronger in Process end-markets, while the decline in Mexico is attributable to execution on a large project last year resulting in a high base of comparison.

Western Europe (25% of Q2 revenues) grew +11.2% organic in Q2, despite a high base of comparison from Q2'22.

In Energy Management, which grew +9.7% organic, there was double-digit growth in the U.K., Germany and Italy, while Spain grew high-single digit and France mid-single digit, with performance across the region supported by backlog execution. Growth was led by the U.K. which was strong across Infrastructure, Non-residential and Data Center. Germany saw similar end-market growth. Italy and Spain experienced broad end-market strength while France was impacted by a high base of comparison though still seeing solid demand from Data Center and Infrastructure. Across the region, Data Center, Industry and Infrastructure end-markets were well oriented and contributed to growth. Non-residential buildings also saw good growth supported by demand for renovation. Residential buildings markets were mixed with sales growth in Southern Europe strong, while in Northern Europe sales were down. Field Services showed high-single digit growth across the region. Outside the main economies there was double-digit growth in multiple countries including Portugal and Belgium, among others.

Industrial Automation grew +15.6% organic. Germany, the U.K., France and Italy all grew double-digit, while Spain grew high-single digit. There was a good performance across Discrete end-markets, supported by further supply chain easing, while Process markets continued to rebound. AVEVA had a strong quarter particularly in the U.K. and Switzerland. Growth in discrete OEM segments was strong in material handling, packaging & printing, HVAC and pumping equipment. Services grew strong double-digit as the company continues to focus on leveraging its installed base. Outside the main economies there was double-digit growth in multiple countries.

Asia Pacific (29% of Q2 revenues) grew +9.8% organic in Q2.

In Energy Management, which grew +10.6% organic, China was up double-digit against a low base of comparison more than recovering the declines of Q2'22 that were a function of the Shanghai lockdowns. There was strong growth in several areas including electronics, transportation and renewable power, while as anticipated the Buildings end-market, in particular Residential, continued to experience softness in the quarter. India performed strongly, growing mid-single digit against a particularly high base of comparison, with continued strength across end-markets. Australia grew low-single digit, with good momentum in systems sales offset by weaker demand for products, though with a stabilization in sales growth to Residential buildings supported by commercial actions. Across the rest of the region, many countries grew double-digit including Thailand, Indonesia, Malaysia and Japan while Singapore was down, impacted by timing on projects.

In Industrial Automation, which grew +7.3%, China was up mid-single digit against a low base of comparison and with some residual impact from supply shortages. There was strong double-digit growth for sales into Process automation markets, supported by good demand in the E&C segment and project execution. Discrete automation growth was muted with softness in OEM demand, particularly among those tied to export and construction, while areas such as packaging and electronics performed better. India grew strong double-digit against a strong double-digit base of comparison, with growth led by sales into Discrete automation markets, supported by backlog execution. Japan also saw strong double-digit growth led by Discrete automation where there was good backlog execution. Australia delivered strong growth, while Korea declined.

Rest of the World (12% of Q2 revenues) grew +17.5% organic in Q2 with strong growth in systems offers and supported by price actions taken in certain countries in response to currency devaluation.

In Energy Management, which grew +16.3% organic, the Middle East grew strong double-digit, with growth led by Saudi Arabia where projects continue at pace, and Turkey where both price and volume are contributing. Africa also grew strong double-digit supported by project execution in multiple countries including South Africa and Egypt, which also benefitted from price actions. South America was up mid-

single digit with strong performance in Argentina supported by price actions, while Brazil was down having been impacted by ongoing supply chain challenges and some market softness. Central & Eastern Europe was down slightly.

In Industrial Automation, which grew +20.9% organic, the Middle East and Africa were each up strong double-digit. The Middle East saw strong growth coming from Discrete automation markets in Turkey, while there was also strong growth in Process & Hybrid markets in the Gulf region, notably in Saudi Arabia. Africa saw strong growth across both Discrete and Process & Hybrid automation markets. South America grew high-single digit overall, while Central & Eastern Europe was up mid-single digit.

SCOPE³ AND FOREIGN EXCHANGE IMPACTS⁴ IN Q2

In Q2, net acquisitions/disposals had an impact of **-€215 million** or **-2.5%** of Group revenues, mainly representing the disposal of Schneider Electric's Russia operations and the net impact of some smaller acquisitions and disposals.

Based on transactions completed to-date, the Scope impact on FY 2023 revenues is estimated to be **around -€800 million**. The Scope impact on adjusted EBITA margin for FY 2023 is estimated to be **around -30bps**, particularly impacted by the exit from Russia.

In Q2, the impact of foreign exchange fluctuations was negative at **-€333 million** or **-4.0%** of Group revenues, mostly driven by the weakening of the Chinese Yuan, U.S. Dollar and Indian Rupee against the Euro, and with some further devaluation in the Egyptian Pound, Turkish Lira and Argentinian Peso.

Based on current rates, the FX impact on FY 2023 revenues is estimated to be between **-€1.4 billion to -€1.5 billion**. The FX impact at current rates on adjusted EBITA margin for FY 2023 could be **around -80bps**. The estimated currency impacts in part represent a reversal of the tailwinds experienced in 2022 overlaid with the incremental impacts experienced from the sharp devaluation of certain currencies including the Egyptian Pound, Turkish Lira and Argentinian Peso.

3. Changes in scope of consolidation also include some minor reclassifications of offers among different businesses.

4. For those currencies meeting the criteria to be considered hyperinflationary under IAS 29, such as Argentina and Turkey, an IFRS technical adjustment for hyperinflation impact is reflected as FX and therefore excluded from the organic growth calculation. The effect of operational actions taken in these countries such as increased pricing to mitigate the inflationary impact is reflected as part of the organic growth.

ADJUSTED EBITA MARGIN AT 18.0%, UP +190 BPS ORGANIC DUE TO STRONG GROSS MARGIN PERFORMANCE PRIMARILY OFFSETTING INFLATION AND INVESTMENT IN SUPPORT FUNCTION COSTS

Gross profit was up **+21.8%** organic with Gross margin up **+220bps** organic, reaching **42.4%** in H1. The margin expansion was mainly driven by a strong price carryover impact, offsetting inflationary pressures faced over the cycle, and bolstered by positive industrial productivity.

H1 Adjusted EBITA reached **€3,174 million**, increasing organically by **+28.8%** and the Adjusted EBITA margin expanded by **+190bps** organic to **18.0%** as a consequence of the strong pricing impact, despite the continued investment for future growth, and inflation in Support Function Costs which resulted in a -30bps organic deterioration of the SFC/Sales ratio.

5. See appendix Adjusted Net Income & Adjusted EPS.

The key drivers contributing to the earnings change were the following:

€ million	Adj. EBITA	YoY change	Comments
Adj. EBITA H1 2022	2,782		
Volume impact		+482	Positive impact from higher sales volumes.
Industrial productivity		+45	The Group's industrial productivity level was +€45m while still impacted by some inflationary costs including those relating to electronics and energy.
Net price⁶		+1,246	The net price impact was positive at +€1,246m in H1.
<i>Gross pricing on products</i>		<i>+1,135</i>	Gross pricing on products was positive at +€1,135m mostly due to pricing actions taken in 2022. In total, RMI was a tailwind at +€111m.
<i>Raw Material Impact</i>		<i>+111</i>	
Cost of Goods Sold inflation		-67	Cost of Goods Sold inflation was -€67m in H1, of which the production labor cost and other cost inflation was -€57m, and an increase in R&D in Cost of Goods Sold was -€10m. The overall investment in R&D, including in support function costs continued to increase as expected and represented in excess of 5% of H1 revenue.
<i>Production labor cost and other cost inflation</i>		<i>-57</i>	
<i>R&D in Cost of Goods Sold</i>		<i>-10</i>	
Support function costs		-620	Support Function Costs increased organically by -€620m, or +17.0% org. in H1. The Group was impacted by inflation for -€181m and continued to focus on its strategic priorities with investments of -€267m mainly linked to R&D, commercial footprint and digital. Despite completing its operational efficiency plan in 2022, the Group delivered a further +€62m of cost savings. Other increases of -€234m included the impact of bonus accruals, and some one-time items linked to technical accounting changes on employee share plans.
Mix		-54	H1 performance resulted in an adverse mix effect of -€54m where a good improvement of Gross Margin in the Systems business was more than offset by impacts from the relatively faster growth of Systems volumes compared to Products.
Foreign currency impact⁷		-185	The impact of foreign currency decreased the adjusted EBITA by -€185m in H1.
Scope and Others		-455	The impact from scope & others was -€455m in H1, with net Scope impacts representing a -40bps adj. EBITA margin headwind mainly associated with Russia. Others represents primarily the positive impact from inventory revaluation in H1 2022.
Adj. EBITA H1 2023	3,174		

6. Price on products and raw material impact

7. For those currencies meeting the criteria to be considered hyperinflationary under IAS 29, such as Argentina and Turkey, an IFRS technical adjustment for hyperinflation impact is reflected as FX and therefore excluded from the organic growth calculation. The effect of operational actions taken in these countries such as increased pricing to mitigate the inflationary impact is reflected as part of the organic growth

By business, the H1 2023 adjusted EBITA for:

- **Energy Management** generated an adjusted EBITA of **€2,824 million**, or **20.7%** of revenues, up c.+140bps organic (up +30bps reported), due mainly to a combination of strong volumes, strong net price impact and an improvement of gross margin in the systems business, more than offsetting a negative mix impact from the relatively stronger growth of Systems vs. Products, continued investment and inflation in Support Function Costs.
- **Industrial Automation** generated an adjusted EBITA of **€758 million**, or **19.1%** of revenues, up c.+180bps organic (up +90bps reported), due mainly to a combination of good volumes, strong net price impact, an improvement of gross margin related to systems revenues and a positive mix contribution from AVEVA, more than offsetting a negative mix impact from the relatively stronger growth of Systems vs. Products, continued investment and inflation in Support Function Costs.
- **Central Functions & Digital Costs** in H1 2023 amounted to **€408 million** (€409 million in H1 2022), reducing slightly as a proportion of revenue to 2.3%. Investment in the Group's strategic priorities continued, while the Corporate cost element continued to be an area of focus and remained under tight control, at around 0.8% of Group revenues in H1.

▪ **ADJUSTED NET INCOME UP +13%**

€ million	2022 H1	2023 H1	Comments
Adj. EBITA	2,782	3,174	
Other operating income and expenses	(304)	15	Other operating income and expenses had an impact of +€15m in H1, consisting mainly of a gain on the disposal of VinZero offset by -€59m M&A and integration costs. H1 2022 included impairment charges associated with Russia exit.
Restructuring costs	(85)	(41)	Restructuring costs were -€41m in H1, €44m less than last year following completion of the Group's operational efficiency program. Costs are in-line with the Group's expectation for restructuring costs to move towards a target of around €100m per year.
Amortization and impairment of purchase accounting intangibles	(206)	(196)	Amortization and impairment of intangibles linked to acquisitions was -€196m in H1 2023, €10m less than last year.
Net financial income/(loss)	(103)	(207)	Net financial expenses were -€207m in H1, €104m higher than last year. The increase primarily relates to the additional debt associated with acquiring the AVEVA minorities, and the rising cost of debt.
Income tax expense	(565)	(687)	Income tax amounted to -€687m, higher than last year by €122m as a consequence of the higher pre-tax profit. The Effective Tax Rate was 25.0%, in line with the expected range of 23-25% for FY2023, and consistent with H1 2022 when excluding impacts of Russia exit.
Profit/(loss) of associates and non-controlling interests	-	(35)	Share of profit on associates increased to +€39m, up +€6m compared to H1 last year. The net income from Delixi was broadly stable year-on-year. Amounts attributable to non-controlling interests increased to -€74m compared to -€33m in H1 last year.
Net Income (Group share)	1,519	2,023	Net Income (Group share) was €2,023m in H1, up +33% on last year, which included impairment charges associated with Russia exit.
Adjusted Net Income (Group share)⁸	1,803	2,042	Adjusted Net Income was €2,042m in H1, up +13% vs. last year.

⁸. See appendix Adjusted Net Income & Adjusted EPS.

- **FREE CASH FLOW OF €820 MILLION**

The Group delivered Free Cash Flow of **€820 million**, primarily due to the P&L performance driving record operating cash flow of €2,681 million. This included R&D cash costs of €997 million, which increased to 5.7% of H1 2023 revenue.

Net capital expenditure of €630 million increased slightly to 3.6% of revenue.

Trade working capital requirements impacted the free cash flow in H1, primarily in relation to inventories, as the Group prioritized securing supply and delivery to customers. For receivables there was a slight year-on-year improvement in DSO, while in relation to payables DPO remained stable. Non-trade working capital requirements were impacted by the level of bonus accruals and employee share plan expense.

The cash conversion ratio (Free Cash Flow as a percentage of Net Income Group Share) was 41% in H1 2023, up from 29% in the first half of last year. As was the case in 2022, the Group expects a higher cash conversion ratio in H2.

- **BALANCE SHEET REMAINS STRONG**

Schneider Electric's net debt at June 30, 2023 amounted to **€12,987 million** after payment of -€1.8 billion to fulfill the 2022 dividend, offset by the Free Cash Flow performance of +€0.8 billion.

The Group remains committed to retaining its strong investment grade credit rating.

III. SCHNEIDER SUSTAINABILITY IMPACT

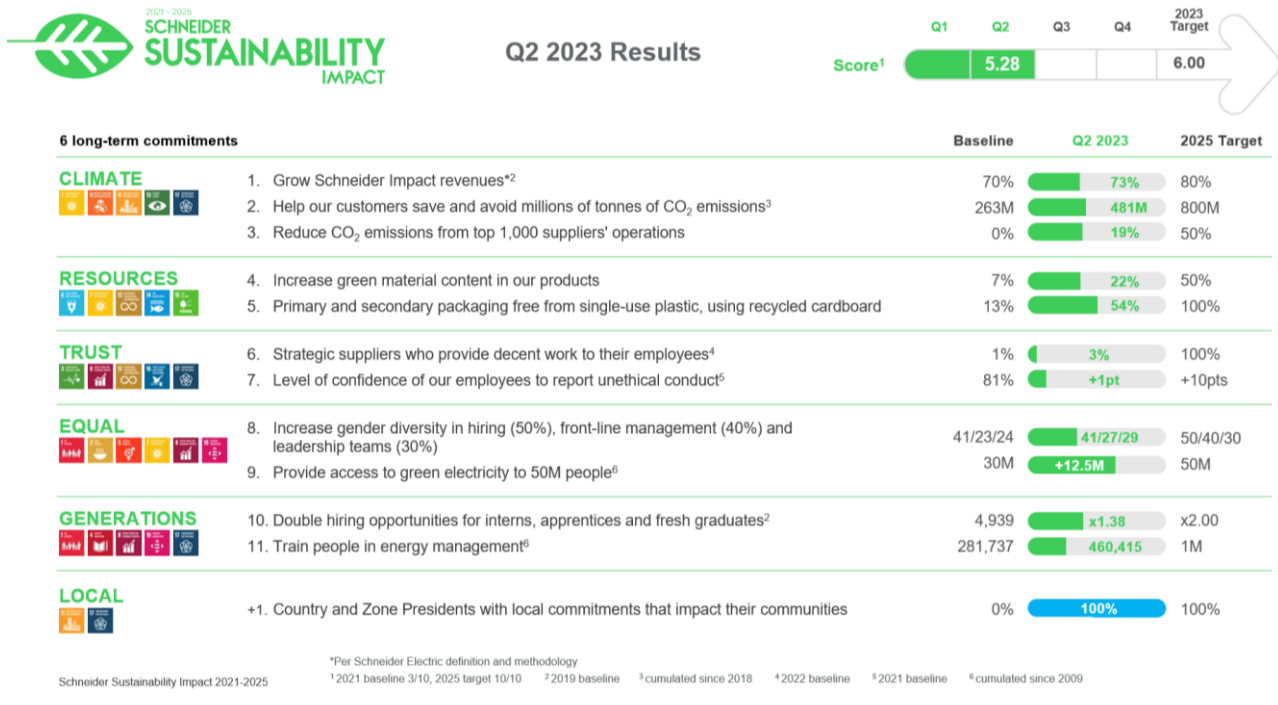

At the end of Q2 2023, Schneider Electric is halfway through its Sustainability Impact program spanning 2021-2025. The first two and a half years of the program were marked by notable progress across Environmental, Social and Governance (ESG) commitments, thanks to climate solutions, circularity initiatives and Access to Energy programs. Following the structuring and deployment of tracks related to supply chain engagement, significant results are starting to show on sustainable packaging and materials and the reduction of top suppliers' emissions. With the addition of its decent work initiative, Schneider Electric expects to accelerate its comprehensive sustainable value chain efforts from here on in.

“Our sustainability impact initiatives are transformative, not quick wins. While some require longer to ramp up, we expect them to deliver significant results in the second half of the program,” said Gwenaelle Avice-Huet, Schneider Electric's Chief Strategy & Sustainability Officer. *“With only two and a half years left to reach our climate and social ambitions, we need to stay focused and mobilized to live up to our impact company principles: doing well to do good, and vice versa, and bringing everyone along on this journey too.”*

Here are some specific sustainability impact highlights from Q2:

- 11 iF Design Awards received for product circularity and innovation,
- Ranked #1 on the Gartner Supply Chain Top 25 for 2023 after eight consecutive years on the list,
- Partnering with governments and CEOs on the Versailles 10x10 action plan to double the rate of energy efficiency improvements by 2030 at the International Energy Agency's (IEA) annual global conference,
- 97.67% of shareholders supported Schneider Electric's decarbonization plan in the first Say on Climate motion,
- Recognized by the 2023 Transparency Awards, with a special prize for high-quality ESG information,
- Certified by the Fair Wage Network for ensuring all employees are valued and compensated fairly for their work.

At the end of the quarter, the overall Schneider Electric Sustainability Impact (SSI) score came in at 5.28, vs. the 2023 end-year target of 6 out of 10.

IV. PORTFOLIO UPDATES

Acquisitions

- EcoAct

On July 3, 2023 it was announced that Schneider Electric had entered exclusive negotiations with Atos Group to acquire European-headquartered EcoAct to expand and enhance the company's global sustainability consulting and carbon market capabilities. EcoAct's portfolio of services would complement and deepen Schneider's Sustainability Business market-leading offers. Upon successful completion of the transaction, EcoAct would be consolidated within Energy Management.

Disposals

- VinZero

On May 31, 2023, Schneider Electric closed the transaction for the previously announced disposal of RIB Software's VinZero business (an IT infrastructure solutions group and software partner for architecture, engineering, construction, owner-operator, and manufacturing organizations). Until closing, the business was reported as part of Energy Management. The financial impact of the transaction on 2023 revenues and adj. EBITA margin is incorporated in the additional notes on Scope effects given in the appendix.

V. DIVIDEND

The dividend payment of €3.15 per share for Fiscal Year 2022 was paid on May 11, 2023.

The dividend payment for Fiscal Year 2023 will be on May 30, 2024.

Since the beginning of the program in 2019, Schneider Electric has bought back 8.3 million shares for €905 million, at an average price of €109 per share.

Schneider Electric remains committed to the completion of the existing share buyback program.

VII. EXPECTED TRENDS IN COMING MONTHS

- A continuation of strong and dynamic market demand, supported by secular trends of electrification, digitization and sustainability
- Strong demand for Systems offers across end-markets notably driven by trends in Data Centers, Grid Infrastructure investment, and increased investments across Process industries served by both businesses
- Continued pressure on demand in residential buildings, and a moderation from elevated levels in discrete manufacturing (particularly in China and Western Europe)
- U.S. expected to contribute strongly to growth through a combination of strong demand, industrial reshoring and backlog execution
- China to continue to rebound from slow start to the year, with progressive recovery in market demand
- Middle East and India to lead the growth dynamic in emerging markets
- Government incentives across the world centered around digitization, energy transition, decarbonization and improved energy efficiency to support growth
- Backlog execution to support growth
- The improved supply environment should support stronger industrial productivity in H2

VIII. 2023 TARGET UPGRADED

The Group upgrades its 2023 financial target as follows:

2023 Adjusted EBITA growth of between +18% and +23% organic (previously between +16% and +21% organic).

The target would be achieved through a combination of organic revenue growth and margin improvement, currently expected to be:

- Revenue growth of **+11% to +13% organic** (previously +10% to +13% organic)
- Adjusted EBITA margin up **+120bps to +150bps organic** (previously +100bps to +130bps organic)

This implies Adjusted EBITA margin of **around 17.7% to 18.0%** (including scope based on transactions completed to-date and FX based on current estimation).

Jean-Pascal Tricoire, Chairman and CEO, commented:

"Q1 is my last full quarter as CEO and I am pleased to confirm a strong start to the year 2023, with organic revenue growth of +16% in the first quarter in a continuation of the strong momentum seen over the past two years.

Both of our businesses are performing strongly, generating double-digit organic growth in each, highlighting the broad-based demand for software and digitization, as well as sustainability and electrification, and reflecting the unique integration and synergies of our portfolio. All four regions that constitute our balanced global footprint are growing strongly, up double-digit in North America, Western Europe and Rest of the World. In Asia Pacific, China had a slow start as expected, with the rest of the region up double-digit.

Our growth engines are delivering. Field Services is growing at +14% organic in the quarter. We are also accelerating in our suite of agnostic software offers, with double-digit revenue growth in software and digital services, and a noticeable acceleration in ARR, up +16% at AVEVA as the transition to a

subscription model continues to gather momentum. Our sustainability business as well as our digital flywheel are growing double-digit. The digital flywheel now represents well in excess of 50% of our turnover and is positioned uniquely to serve the double priority agenda of digitization and sustainability of enterprises in the short, medium and long-term.

Looking forward, I am excited about the role Schneider will play for a smarter and greener future across all geographies. Our purpose, now more than ever, is to provide our customers with digital technologies for greater efficiency and decarbonization, and the need for those solutions keeps increasing, to drive positive outcomes both economically and for society. At Schneider, we are also proud to drive our own efforts to achieve the ambitious targets showcased in our Schneider Sustainability Impact dashboard, which reaches a score of 5.25 at the end of Q1.

Finally, we upgrade our 2023 financial target, as the global supply chain environment continues to ease, supporting the execution of our order backlog, while demand remains at high levels with a record backlog at the end of Q1, despite deceleration in consumer-linked segments. It has been a great privilege to build Schneider to a new dimension and capability with you over the past 20 years. I am thankful for the support of all, and I look forward to supporting our teams and Peter through the next steps of the journey.”

I. FIRST QUARTER REVENUES WERE UP +16% ORGANIC

2023 Q1 revenues were €8,493 million, up +15.8% organic and up +12.3% on a reported basis.

Products (56% of Q1 revenues) grew +11% organic in Q1. In Energy Management, product sales grew double-digit, while in Industrial Automation growth was high-single digit. Both businesses were impacted by the slow start to the year in China. Supply chain shortages, while remaining a factor, showed some progressive improvement as expected, allowing good execution against the backlog. There was positive contribution from volume expansion, with price as the significant driver of organic growth for the quarter, mainly in relation to the carryover impact from actions taken in 2022. The Group continued its focus on expanding its digital footprint through ongoing innovation leading to the growth rate of connectable products being significantly ahead of the overall products growth.

Systems (26% of Q1 revenues) grew +32% organic in Q1, with sales growing in excess of +20% organic in both Energy Management and Industrial Automation. This strong growth was driven across end-markets, supported by a combination of continued strong demand, pricing impact, the improving supply chain situation and prioritization in the quarter to specific segments.

Software & Services (18% of Q1 revenues) grew +12% organic in Q1.

Software and Digital Services grew +10% organic in Q1.

- AVEVA continues on track in its transition to a subscription model, supported by net new customer wins driving a strong acceleration in Annualized Recurring Revenue (ARR), which was up +16.0%¹ as at 31 March 2023. Cloud-based Software as a Service (SaaS) grew strongly, while overall organic revenue growth was up low-single digit, as expected, due to the accounting implications of the transition. The Group continues to benefit from enhanced co-operation between AVEVA and the other agnostic software businesses for the benefit of customers across end-markets.
- Energy Management agnostic software offers grew double-digit organic, with strong performance in the Group's eCAD offer where Schneider has a unique capability in electrical design across multiple segments and applications. The Group's offer for the construction market saw strong growth in recurring revenues, including for subscription, while perpetual license sales declined.
- Digital services grew strong double-digit with growth in EcoStruxure Advisors across multiple domains, including Power, Building and IT. Cybersecurity services also delivered good growth.

1. At constant currency, adjusted for Russia impacts

Field Services grew +14% organic in Q1 with both businesses contributing similar rates of growth. Industrial Automation saw good recovery in services related to large projects, which had been impacted in 2022 by the lag effect from COVID-19. Services relating to OEMs and end-users continued on a strong trend. In Energy Management, the growth was strong across segments, with the investments made in 2022 starting to generate a strong contribution to results. The continued focus on growing Field Services is strategically linked to the development of the Digital Flywheel and also enhancing recurring revenue for the Group.

Sustainability Business: Sustainability consulting and services offers (split between Digital and Field Services) delivered another quarter of double-digit growth against a high base of comparison, with the consulting business in particular continuing to lead the growth. North America was the major contributor to sales, with traction for efficiency programs in both the public and private sectors leading to pull-through of core offers of the Group. Western Europe saw strong growth with contract wins in multiple countries. Sustainability consulting continues to be a driver for engagement at customer C-Suite level, to the benefit of the full portfolio.

The breakdown of revenue by business and geography was as follows:

Q1 2023 PERFORMANCE BY END-MARKET

Schneider Electric sells its integrated portfolio into four end-markets: Buildings, Data Center, Infrastructure and Industry, leveraging the complementary technologies of its Energy Management and Industrial Automation businesses and supported by the focus on electrification, digitization and sustainability. In Q1, sales growth across all four of these end-markets remained strong. Consumer-linked segments such as Residential buildings and Distributed IT were relatively weaker in certain countries, in a continuation of trends seen in previous quarters, as demand moderates from previously elevated levels.

- **Buildings** – There was continued strength in Non-residential, as the Group continues to see good dynamics among its broad spread of customers including in technical buildings, warehousing, hotels, retail and commercial with renovation trends and decarbonization commitments continuing to underpin this end-market. In Residential markets, the very strong demand of recent years is moderating from high levels, as expected, while sales growth was supported by supply chain easing, resulting in backlog execution. Sales growth in Residential varied by geography, explained in more detail in the Group trends by geography.
- **Data Center** – Sales grew double-digit in the quarter for Data Center and Networks. The performance was led with strong double-digit growth in the Data Center segment (enterprise, hyperscale, colocation providers, edge computing) with all elements of the Group's offers (MV, LV, Secure Power, Cooling, BMS, Software) contributing. The Distributed IT segment, linked to consumer and IT spend, was slightly down in the quarter. Demand in the Data Center and Networks end-market continued to be good overall, reflecting the breadth of the Group's offers, spread of customers and its geographic coverage. The demand in Data Center remains strong and broad-based including from large data center operators, while the Distributed IT channel remained under pressure.
- **Infrastructure** – Demand in the Electric Utilities segment continued to be strong. Grid investment remains a priority in many countries with the increasing focus on grid stability, sustainability and digitization and the Group is uniquely positioned to serve customers with its complete offerings across the entire electrical value chain (hardware, software and services). The Transportation segment experienced another quarter of strong demand including in ports, airports and rail infrastructure. Within the Water & Wastewater (WWW) segment, the increased focus on sustainability and circularity continues to drive strong demand for the Group's offers.
- **Industry** – Both businesses saw good activity in material handling, packaging and new energies related segments. End-market demand remains strong with a sequential improvement quarter-over-quarter as supply chains continue to progressively ease. Demand in Process & Hybrid for offers of both businesses continues to be supported by good activity in Metals, Mining & Minerals (MMM) and Consumer Packaged Goods (CPG), while Energies & Chemicals (E&C) remained stable at a high level, with demand for automation offers increasing.

Group trends by geography:

North America (34% of Q1 revenues) was up +25.2% organic.

In Energy Management, which grew +28.5% organic, there was strong double-digit growth from each of the U.S., Canada and Mexico. The U.S. saw strong sales growth across end-markets, including in Residential buildings which was supported by backlog execution, while demand in Residential moderated from elevated levels. Sales growth in Non-residential buildings, Infrastructure and Data Center markets remained strong, though the consumer-facing element of Distributed IT continued to come under pressure. Canada also saw strength across end-markets, though grew less strongly than the U.S. in Residential. The strong growth in Mexico was across end-markets, with both product and systems sales seeing strong growth.

Industrial Automation grew +10.3% organic, with double-digit growth in the U.S. and Mexico, while Canada was down slightly. In the U.S., software grew high-single digit and there was double-digit growth in sales into both Discrete (with strength in Warehousing and Logistics) and Process & Hybrid end-markets, which saw strong traction across segments including E&C, WWW and Power. Growth in

Mexico was led by software. In Canada, sales into Discrete automation markets were around flat, while software was down year-on-year.

Western Europe (26% of Q1 revenues) grew +15.9% organic in Q1.

Energy Management grew +17.9% organic. There was double-digit growth in the five major economies of the region: France, the U.K., Germany, Italy and Spain. Growth was led by Italy which was strong across end-markets. France continues to benefit from major infrastructure investments, where there is a strong pipeline for projects. Across the region, Data Center, Industry and Infrastructure end-markets remained well oriented and contributed to growth. Non-residential buildings also saw good growth supported by demand for renovation. Growth in the Residential buildings market is well supported by backlog execution and varied by country with France and Italy continuing to contribute strongly while Germany was flat and parts of the Nordics were impacted by consumer weakness. Field Services showed strong growth across the region. Outside the main economies there was double-digit growth in multiple countries, including Belgium, the Netherlands, Ireland and Portugal.

Industrial Automation grew +10.9% organic. Germany, Spain, and Italy each delivered strong double-digit growth, with good performance across both Discrete and Process & Hybrid automation markets, supported by supply chain easing. France was up mid-single digit impacted by timing in industrial software, while underlying growth trends were similarly strong. The U.K. grew low-single digit. Across the region, Discrete automation markets continue to be supported by demand in material handling and packaging segments, with Process & Hybrid markets seeing strong demand in E&C, WWW and Paper & Pulp segments. Services also grew well across the region while Software was impacted by the transition to subscription. There was strong growth in multiple other countries across the region.

Asia Pacific (28% of Q1 revenues) grew +5.2% organic in Q1, with a slow start to the year in China, as anticipated. Outside of China, Asia Pacific delivered double-digit organic growth.

In Energy Management, which grew +5.4% organic, China was down slightly, as anticipated, with the resurgence of COVID-19 impacting the start of the year. Growth remained strong in multiple segments, including in transportation, renewable power generation, electronics and healthcare, while the Buildings end-market continued to experience softness, mainly impacting Residential. India was up double-digit, with strong sales growth across end-markets including across all aspects of the Buildings end-market, and with good growth in consumer-led Distributed IT. There was double-digit growth in many countries across the region with South Korea, Malaysia, Japan and Indonesia all contributing strongly to growth. Australia was around flat against a double-digit base of comparison, impacted by continued weakness in Residential buildings.

In Industrial Automation, which grew +4.5% organic, China was down mid-single digit with the resurgence of COVID-19 impacting the start of the year. Supply chain constraints, while improving, continued to impact sales growth. Outside of China, the region delivered double-digit growth. India performed strongly with organic growth in excess of +20%, despite a strong double-digit base of comparison, led by Discrete automation and with strong growth in software. Both Japan and South Korea delivered strong double-digit growth in Discrete automation supported by supply chain easing and backlog execution and also delivered double-digit growth in software. Australia was impacted by timing on software contract renewals. Across the rest of the region, there was double-digit growth in many countries.

Rest of the World (12% of Q1 revenues) grew +18.9% organic in Q1, despite a high base of comparison having grown at +16% in Q1 2022.

In Energy Management, which grew +19.3% organic, each of Middle East, South America, Africa and Central & Eastern Europe grew double-digit, with strong market demand combined with a positive impact from price, notably in countries with significant rates of inflation. The Middle East saw strong growth in Turkey, where both price and volume are contributing, and in Saudi Arabia which saw strong project execution, while the U.A.E was impacted by pressure in consumer-linked segments. The growth in South America was led by Argentina which benefited from price actions, while Brazil remained impacted by ongoing supply chain challenges and weaker Residential markets. Africa saw strong project execution in multiple countries, notably on an E&C project in Nigeria.

In Industrial Automation, which grew +17.7% organic, the Middle East, Africa, South America and Central & Eastern Europe were all up double-digit. The Middle East saw strong growth coming from Discrete automation markets particularly in Turkey, while there was also strong growth in Process & Hybrid markets in the Gulf region. Africa saw strong growth in both Discrete automation and Process & Hybrid markets. There was strong growth in Discrete automation markets in South America, particularly in Argentina, supported by price actions.

II. Consolidation³ and foreign exchange impacts

In Q1, net acquisitions/disposals had an impact of **-€215 million** or **-2.8%** of Group revenues, mainly representing the disposal of Schneider Electric's Russia operations and the net impact of several small acquisitions and disposals.

Based on transactions completed to-date, the Scope impact on FY 2023 revenues is estimated to be **around -€750 million**. The Scope impact on adjusted EBITA margin for FY 2023 is estimated to be around **-30bps**, particularly impacted by the exit from Russia.

In Q1, the impact of foreign exchange fluctuations was negative at **-€17 million** or **-0.2%** of Group revenues, where a positive impact from the strengthening of the U.S. Dollar against the Euro was more than offset by the weakening of several currencies against the Euro, including the Egyptian Pound, Turkish Lira and Argentinian Peso all of which saw significant devaluation.

Based on current rates, the FX impact on FY 2023 revenues is estimated to be between **-€1.25 billion** to **-€1.35 billion**. The FX impact at current rates on adjusted EBITA margin for FY 2023 could be **around -70bps**. The estimated currency impacts in part represent a reversal of the tailwinds experienced in 2022 overlaid with the incremental impacts experienced from the sharp devaluation of currencies mentioned above.

III. SCHNEIDER SUSTAINABILITY IMPACT

Schneider Electric today announced the 2023 [first quarter results](#) of its Schneider Sustainability Impact (SSI) program.

Coming just one month after the Intergovernmental Panel on Climate Change (IPCC) published its latest synthesis report outlining the dramatic cost of global inaction on climate change, Gwenaelle Avice-Huet, Schneider Electric's Chief Strategy and Sustainability Officer, commented that *"This report reminds us that there is still a very short window of time to act. The good news is that solutions to reduce emissions are already available. Every day, every week, and every quarter matter, and we're doing everything to accelerate our efforts methodically, systematically, and collaboratively."*

This quarter, Schneider Electric showed good progress in terms of:

- **Climate and Resources** by continually helping its customers to reduce their carbon footprint thanks to solutions that save or avoid carbon emissions. The company also made significant headway on the [Zero Carbon Project](#), which is part of ongoing efforts to reach Net-Zero across Schneider's value chain by 2050, per a roadmap validated by the Science Based Targets initiative (SBTi).
- **Equal and Generations** initiatives by crossing the threshold of 40 million people gaining [access to clean and reliable electricity](#), and with over 430,000 people now trained in energy management. Schneider Electric's unique approach addresses the energy paradox by balancing the need to reduce energy-related carbon emissions globally while also empowering communities to grow the necessary skills base to support their future energy needs and close the energy access gap.

3. Changes in scope of consolidation also include some minor reclassifications of offers among different businesses.

The consolidated SSI score for the first quarter of 2023 is 5.25 out of 10, which is an encouraging step towards meeting the full-year target of 6 out of 10.

IV. EXPECTED TRENDS IN COMING MONTHS

- A continuation of strong and dynamic market demand, supported by secular trends of electrification, digitization and sustainability
- Continued demand moderation from elevated levels in consumer-linked segments (Residential buildings, Distributed IT)
- U.S. expected to contribute strongly to growth through a combination of strong demand, industrial reshoring and backlog execution. China to rebound from slow start to the year with progressive recovery in market demand and lower base of comparison in Q2.
- Government incentives across the world centered around digitization, energy transition, decarbonization and improved energy efficiency to support growth
- Backlog execution to support growth
- Supply constraints expected to progressively ease; improving supply environment should support stronger underlying industrial productivity in 2023
- Some deceleration of inflationary pressure, though pockets of inflation expected to remain

V. 2023 TARGET UPGRADED

The Group upgrades its 2023 financial target as follows:

2023 Adjusted EBITA growth of between +16% and +21% organic (previously between +12% and +16% organic).

The target would be achieved through a combination of organic revenue growth and margin improvement, currently expected to be:

- Revenue growth of **+10% to +13% organic** (previously +9% to +11% organic)
- Adjusted EBITA margin up **+100bps to +130bps organic** (previously +50bps to +80bps organic)

This implies Adjusted EBITA margin of **around 17.6% to 17.9%** (including scope based on transactions completed to-date and FX based on current estimation).

This First Prospectus Supplement has been approved on 12 May 2023 by the AMF, in its capacity as competent authority under Regulation (EU) 2017/1129.

The AMF has approved this First Prospectus Supplement after having verified that the information it contains is complete, coherent and comprehensible within the meaning of Regulation (EU) 2017/1129.

This approval is not a favourable opinion on the Issuer.

This First Prospectus Supplement has received approval number 23-153.

SCHNEIDER ELECTRIC SE

Euro Medium Term Note Programme

Under the Euro Medium Term Note Programme (the “Programme”) described in this base prospectus (the “Base Prospectus”), Schneider Electric SE (the “Company” or the “Issuer”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue Euro medium term notes (the “Notes”).

This Base Prospectus has been approved by the Autorité des marchés financiers (the “AMF”) in France in its capacity as competent authority under Regulation (EU) 2017/1129, as amended (the “Prospectus Regulation”). The AMF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or of the quality of the Notes that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the Notes. This Base Prospectus shall be in force for a period of 12 months as of the date set out hereunder. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Application may be made to Euronext Paris for Notes issued under the Programme during a period of 12 months from the date of this Base Prospectus to be admitted to trading on Euronext Paris. Euronext Paris is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU, as amended (a “Regulated Market”). Application may also be made to the competent authority of any other Member State of the European Economic Area (“EEA”) for Notes issued under the Programme to be admitted to trading on any other Regulated Market in such Member State. However, Notes may be issued pursuant to the Programme which are not admitted to trading on a Regulated Market. The relevant final terms (the “Final Terms”) (a form of which is contained herein) in respect of the issue of any Notes will specify whether or not such Notes will be admitted to trading, and, if so, the relevant Regulated Market in the EEA on which they would be admitted to trading. Notes issued under the Programme will be governed by French law and may be issued either in dematerialised form (“Dematerialised Notes”) or in materialised form (“Materialised Notes”) as more fully described herein. Dematerialised Notes will at all times be in book-entry form in compliance with Articles L.211-3 and R.211-1 of the French Code monétaire et financier. No physical documents of title will be issued in respect of the Dematerialised Notes.

The Notes will be issued in such denomination(s) as may be agreed between the Issuer and the relevant Dealer and as specified in the relevant Final Terms save that the minimum denomination of each Note listed and admitted to trading on a Regulated Market in a Member State of the EEA in circumstances which require the publication of a base prospectus under the Prospectus Regulation (given that any exemption regime, as set out in the Prospectus Regulation, could apply in contemplation of the relevant issue) will be at least €100,000 (or the equivalent amount in any other currency at the issue date).

Dematerialised Notes may, at the option of the Issuer, be (a) in bearer form (au porteur) inscribed as from the issue date in the books of Euroclear France (“Euroclear France”) (acting as central depository) which shall credit the accounts of Account Holders (as defined in “Terms and Conditions of the Notes - Form, Denomination and Title”) including Euroclear Bank SA/NV (“Euroclear”) and the depository bank for Clearstream Banking, S.A. (“Clearstream”) or (b) in registered form (au nominatif) and, in such latter case, at the option of the relevant Noteholder (as defined in Condition 1(c)(iv)), in either fully registered form (au nominatif pur), in which case they will be inscribed with the registration agent (designated in the relevant Final Terms) for the Issuer, or in administered registered form (au nominatif administré) in which case they will be inscribed in the accounts of the Account Holders designated by the relevant Noteholders.

Materialised Notes will be in bearer form only and may only be issued outside France. A temporary global certificate in bearer form without interest coupons attached (a “Temporary Global Certificate”) will initially be issued in connection with Materialised Notes. Such Temporary Global Certificate will be exchanged for definitive Materialised Notes in bearer form with, where applicable, coupons for interest attached on or after a date expected to be on or about the 40th day after the issue date of the Notes (subject to postponement as described in “Temporary Global Certificates issued in respect of Materialised Notes”) upon certification as to non-US beneficial ownership as more fully described herein.

Temporary Global Certificates will (a) in the case of a Tranche (as defined in “General Description of the Programme” below) intended to be cleared through Euroclear and/or Clearstream, be deposited on the issue date with a common depository on behalf of Euroclear and Clearstream and (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear and/or Clearstream or delivered outside a clearing system, be deposited as agreed between the Issuer and the relevant Dealer(s) (as defined below).

The terms and conditions of the Notes contain a substitution provision (as described in Condition 15) allowing Schneider Electric SE at any time, at its discretion and without consulting the Noteholders, (subject to certain conditions) to substitute for itself as principal debtor under any Notes, a Substituted Issuer (as defined below) provided that, in all cases, the relevant Series of Notes are unconditionally and irrevocably guaranteed on first demand (garantie autonome à première demande) by Schneider Electric SE.

The final terms of the relevant Notes will be determined at the time of the offering of each Tranche and will be set out in the relevant Final Terms.

As of the date of this Base Prospectus, the long-term corporate rating of the Issuer by S&P Global Ratings Europe Limited (“S&P”) is A- (stable outlook). Tranches of Notes issued under the Programme may be rated or unrated. S&P is established in the European Union and registered under Regulation (EC) No. 1060/2009 on credit rating agencies, as amended (the “CRA Regulation”). S&P is included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>) as of the date of this Base Prospectus. The relevant Final Terms will specify whether or not credit ratings are issued by a credit rating agency. S&P is not established in the United Kingdom (the “UK”) and is not registered in accordance with Regulation (EU) No 1060/2009 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the “UK CRA Regulation”). The rating of S&P has been endorsed by S&P Global Ratings UK Limited in accordance with the UK CRA Regulation and has not been withdrawn. As such, the ratings issued by and S&P may be used for regulatory purposes in the UK in accordance with the UK CRA Regulation.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change, reduction or withdrawal at any time by the assigning rating agency.

Prospective investors should have regard to the risk factors described under the section headed “Risk Factors” in this Base Prospectus, before deciding to invest in the Notes issued under the Programme.

IMPORTANT NOTICE

This document constitutes a Base Prospectus for the purposes of the Prospectus Regulation and for the purpose of giving information with regard to the Issuer, the Issuer and its subsidiaries taken as a whole (the “**Group**”) and the Notes which, according to the particular nature of the Issuer and the Notes, contains the necessary information which is material to investors for making an informed assessment of the assets and liabilities, profits and losses, financial position and prospects of the Issuer and the rights attaching to the Notes.

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any of the Dealers or the Arranger (each as defined in “General Description of the Programme”). Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change in the financial position of the Issuer and the Group since the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

None of the Issuer, the Dealer(s) or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

In considering whether to invest in Notes denominated in Renminbi (“**RMB Notes**”), investors should consult their individual tax advisers with regard to the application of People’s Republic of China (“**PRC**”) tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdictions.

In relation to green, social or sustainability Notes, neither the Arranger nor any Dealer makes any representation as to the suitability of such Notes to fulfil green, social or sustainability criteria required by prospective investors. The Arranger and the Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria for eligible green projects, eligible social projects or eligible sustainable projects, any verification of whether such Notes meet the eligibility criteria, the monitoring of the use of proceeds of any Notes, or the allocation of the proceeds (or amount equal or equivalent thereto) by the Issuer to particular eligible green projects, eligible social projects or eligible sustainable projects. Each prospective investor of the Notes should determine for itself the relevance of the information contained in this Base Prospectus and the relevant Final Terms regarding the use of proceeds and its purchase of the Notes should be based upon such investigation as it deems necessary. Investors should refer to the Issuer's website, the Issuer’s relevant framework to be published on the Issuer’s website on or before the issue of any green, social or sustainability Notes, the second-party opinion delivered in respect thereof, if any, and any public reporting by or on behalf of the Issuer in respect of the application of the proceeds of any issue of green, social or sustainability Notes for further information. Any such framework and/or second party opinion and/or public reporting will not form part of, nor be incorporated by reference in this Base Prospectus. No assurance or representation is given by any of the Dealers or the Arranger as to the content, suitability or reliability for any purpose whatsoever in respect of (i) any opinion or certification of any third party (whether or not solicited by the Issuer) on the Issuer’s relevant framework, (ii) any framework to be published on the Issuer’s website on or before the issue of any green, social or sustainability Notes (iii) any public reporting or (iv) any green, social or sustainability Notes. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Dealers or the Arranger, to buy, sell or hold any such Notes. As at the date of the Base Prospectus, the providers of

opinions and certifications are not subject to any specific regulatory or other regime or oversight. In addition, payments of principal and interest (as the case may be) on green, social or sustainability Notes shall not depend on the performance of the relevant Eligible Projects (as defined in the “Reasons for the offer” paragraph in the relevant Final Terms), nor on the achievement of any green, social or sustainable objectives. None of the Arranger or the Dealers will verify or monitor the proposed use of proceeds of the Notes issued under the Programme.

The distribution of this Base Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Dealers and the Arranger to inform themselves about and to observe any such restriction. The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or with any securities commission or regulatory authority of any state or other jurisdiction of the United States and include Materialised Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or, in the case of Materialised Notes in bearer form, delivered within the United States or its possessions or to U.S. persons. For a description of certain restrictions on offers and sales of Notes and on distribution of this Base Prospectus, see “Subscription and Sale”.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS - If the Final Terms in respect of any Notes include a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (“**MiFID II**”); (ii) a customer within the meaning of Directive 2016/97/EU, as amended (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No. 1286/2014, as amended (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No. 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (“**FSMA**”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No. 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA. Consequently, no key information document required by the PRIIPs Regulation as it forms part of UK domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 18 of the

Guidelines published by the European Securities and Markets Authority (“ESMA”) on 5 February 2018¹ and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor” as defined in MiFID II) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID II Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer as defined in MiFID II in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules. For the avoidance of doubt, the Issuer is not a MiFID II regulated entity and does not qualify as a distributor or a manufacturer under MiFID II Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET – The Final Terms in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018¹ (in accordance with the FCA’s policy statement entitled “Brexit our approach to EU non-legislative materials”), and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor” as defined in UK MiFIR) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

SINGAPORE SFA PRODUCT CLASSIFICATION – In connection with Section 309B of the Securities and Futures Act 2001 of Singapore (the “SFA”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “**CMP Regulations 2018**”), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are ‘prescribed capital markets products’ (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments such as the Notes. In particular, potential investors are warned that the tax laws of the investor’s jurisdiction or of France (the Issuer’s country of incorporation) might have an impact on the income received from the Notes. Potential investors are advised to ask for their own tax adviser’s advice on their individual taxation

¹ Or item 19 of the Guidelines published by ESMA on 27 March 2023 as from their application date, which is expected to be in October 2023

with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor.

A number of Member States of the European Union are currently negotiating to introduce a financial transactions tax (“FTT”) in the scope of which transactions in the Notes may fall. The scope of any such tax is still uncertain as well as any potential timing of implementation. If the currently discussed text or any similar tax is adopted, transactions in the Notes could be subject to higher costs, and the liquidity of the market for the Notes may be diminished. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

A rating assigned to the Notes by any rating agency is based on the Issuer’s financial situation, but takes into account other relevant structural features of the transaction, including, *inter alia*, the terms of the Notes, and reflects only the views of the rating agency. The rating may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this paragraph, and other factors that may affect the value of the Notes. The rating addresses the likelihood of full and timely payment to the Noteholders of all payments of interest on each interest payment date and repayment of principal on the final payment date. There is no assurance that any such rating will continue for any period of time or that they will not be reviewed, revised, suspended or withdrawn entirely by the rating agency as a result of changes in or unavailability of information or if, in the rating agency’s judgement, circumstances so warrant. A credit rating and/or a corporate rating are not a recommendation to buy, sell or hold securities.

This Base Prospectus does not constitute an offer of, an offer to sell, or an invitation by or on behalf of the Issuer or the Dealers to subscribe for, or purchase, any Notes.

The Arranger and the Dealers have not separately verified the information contained or incorporated by reference in this Base Prospectus. None of the Dealers or the Arranger makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in this Base Prospectus. Neither this Base Prospectus nor any other financial statements are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Arranger or the Dealers that any recipient of this Base Prospectus or any other financial statements should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers or the Arranger undertakes to review the financial condition or affairs of the Issuer or the Group during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

Redemption:	The relevant Final Terms will specify the basis for calculating the redemption amounts payable. Unless permitted by then current laws and regulations, Notes (including Notes denominated in Sterling) having a maturity of less than one year from the date of issue and in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom or whose issue otherwise constitutes a contravention of section 19 of the FSMA must have a minimum redemption amount of £100,000 (or its equivalent in other currencies).

Optional Redemption:	The Final Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed (either in whole or in part) prior to their stated maturity at the option of the Issuer and/or the Noteholders and, if so, the terms applicable to such redemption.
Early Redemption:	Except as provided in “Optional Redemption” above and “Make-Whole Redemption by the Issuer”, “Residual Maturity Call Option”, “Clean-Up Call Option” and “Acquisition Event Call Option” below, Notes will be redeemable at the option of the Issuer prior to maturity only for tax reasons as set out in Condition 6. See “Terms and Conditions of the Notes - Redemption, Purchase and Options”.
Redemption at the option of Noteholders following a Change of Control:	If Change of Control Put Option is specified in the relevant Final Terms, following the occurrence of a Change of Control of Schneider Electric SE and within the Change of Control Period a Rating Downgrade occurs as a result of that Change of Control or of a Potential Change of Control, the Noteholders will be entitled to request the Issuer to redeem the Notes, or, at the Issuer’s option, procure the purchase of their Notes as set out in Condition 6. See “Terms and Conditions of the Notes - Redemption, Purchase and Options”.
Make-Whole Redemption by the Issuer:	If so specified in the relevant Final Terms, in respect of any issue of Notes, the Issuer will have the option to redeem the Notes, in whole or in part, at any time or from time to time, prior to their Maturity Date at their Optional Redemption Amount multiplied by the relevant Specified Redemption Portion. The Optional Redemption Amount will be calculated by the Make-Whole Calculation Agent specified in the Final Terms and will be an amount rounded to the nearest cent (half a cent being rounded upwards) being the greater of (x) 100 per cent. of the nominal amount of the Notes so redeemed and, (y) the sum of the then present values of the remaining scheduled payments of principal and interest on the Notes from the Optional Redemption Date to the Maturity Date (or, as the case may be, the Residual Maturity Call Option Date) (not including any interest accrued on the Notes to, but excluding, the relevant Optional Redemption Date) discounted to the relevant Optional Redemption Date on an annual basis at the Redemption Rate plus a Redemption Margin (as specified in the relevant Final Terms), plus in each case (x) or (y) above, any interest accrued on the Notes to, but excluding, the Optional Redemption Date.
Residual Maturity Call Option:	If so specified in the relevant Final Terms, in respect of any issue of Notes, the Issuer will have the option to redeem the Notes, in whole or in part, at par, at any time as from the call option date, which shall be no earlier than (i) three months before the Maturity Date in respect of Notes having a maturity of not more than seven years or (ii) six months before the Maturity Date in respect of Notes having a maturity of more than seven years.

Clean-Up Call Option:

If so specified in the relevant Final Terms and if 75 per cent. or any other percentage above as specified in the relevant Final Terms (the “**Clean-Up Percentage**”) of the initial aggregate nominal amount of Notes of the same Series have been redeemed or purchased and, in each case, cancelled, the Issuer may, at its option, redeem the Notes in whole but not in part at their Early Redemption Amount together with any interest accrued to the date set for redemption (as specified in the relevant Final Terms).

Acquisition Event Call Option:

If specified in the relevant Final Terms and if an Acquisition Event occurs, the Issuer may redeem the Notes, in whole or in part or, if so specified in the relevant Final Terms, in whole only, as described in Condition 6(j) (*Redemption on Acquisition Event*).

An “**Acquisition Event**” shall have occurred if:

- (i) on or prior to the Acquisition Event Limit Date specified in the relevant Final Terms, the Issuer has not completed and closed the acquisition of the Targeted Company (as defined in the relevant Final Terms); or
- (ii) the Issuer has publicly stated that it no longer intends to pursue the acquisition of the Targeted Company (as defined in the relevant Final Terms).

Taxation:

All payments of principal, interest, and other revenues by or on behalf of the Issuer in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

If such a withholding or deduction is required, the Issuer will have to gross-up its payments to the fullest extent then permitted by law and subject to certain exceptions.

See section “Terms and Conditions of the Notes-Taxation”.

Interest Periods and Interest Rates:

The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms.

Fixed Rate Notes:

Fixed interest will be payable in arrear on the date or dates in each year specified in the relevant Final Terms.

Floating Rate Notes:

Floating Rate Notes will bear interest determined separately for each Series as follows:

- (i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc.; or

- (ii) by reference to €STR, EURIBOR, SOFR Benchmark or SONIA,
- (iii) in each case as adjusted for any applicable margin. Interest periods will be specified in the relevant Final Terms.

Where Linear Interpolation is specified in the relevant Final Terms in respect of an Interest Accrual Period, the Rate of Interest for such Interest Accrual Period shall be calculated by straight line linear interpolation by reference to two rates based on the relevant Reference Rate or the relevant Floating Rate Option, as the case may be.

Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both.

In no event shall the amount of interest payable (including, for the sake of clarity, any applicable margin) be less than zero.

In the event where the benchmark used to calculate the interest payable is discontinued, the Terms and Conditions of the Notes provide a methodology to determine the successor or alternative rates.

Fixed/Floating Rate Notes:

Fixed/Floating Rate Notes may bear interest at a rate that will automatically change from a fixed rate to a floating rate or from a floating rate to a fixed rate on the date set out in the Final Terms.

Zero Coupon Notes:

Zero Coupon Notes may be issued at their nominal amount or at a discount and will not bear interest.

Redenomination:

Notes issued in the currency of any Member State of the EU which will participate in the single currency of the European Economic and Monetary Union may be redenominated into Euro, all as more fully provided in Condition 1. See “Terms and Conditions of the Notes - Form, Denomination and Title” below.

Consolidation:

Notes of one Series may be consolidated with Notes of another Series as more fully provided in Condition 13. See “Terms and Conditions of the Notes - Further Issues and Consolidation”.

Form of Notes:

Notes may be issued in either dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”).

Dematerialised Notes may, at the option of the Issuer, be issued in bearer form (*au porteur*) or in registered form (*au nominatif*) and, in such latter case, at the option of the relevant Noteholder, in either fully registered (*au nominatif pur*) or administrated registered (*au nominatif administré*) form.

No physical documents of title will be issued in respect of Dematerialised Notes. See “Terms and Conditions of the Notes – Form, Denomination and Title”.

The relevant Final Terms will specify whether Dematerialised Notes are to be issued in bearer form only or in registered (including both fully registered (*nominatif pur*) and administrated registered (*nominatif administré*)) form only.

	<p>Materialised Notes will be issued in bearer form (“Materialised Bearer Notes”). A Temporary Global Certificate will be issued initially in respect of each Tranche of Materialised Bearer Notes. Materialised Notes may only be issued outside France.</p>
Substitution of the Issuer:	<p>The terms and conditions of the Notes contain a substitution provision as described in Condition 15 allowing Schneider Electric SE at any time, at its discretion and without consulting the Noteholders, (subject to certain conditions) to substitute for itself as principal debtor under any Notes, a Substituted Issuer provided that, in all cases, the relevant Series of Notes are unconditionally and irrevocably guaranteed on first demand (<i>garantie autonome à première demande</i>) by Schneider Electric SE.</p>
Guarantee:	<p>If there is a substitution of the Issuer pursuant to Condition 15, Schneider Electric SE as the Guarantor will unconditionally and irrevocably guarantee on first demand (<i>garantie autonome à première demande</i>) the due payment of all sums expressed to be due and payable by the Substituted Issuer under the Notes and in accordance with the applicable Conditions. The obligations of the Guarantor in this respect will arise pursuant to a Guarantee which will be substantially in the form of the Form of Guarantee, to be executed by the Guarantor in respect of each Series of Notes so guaranteed (the “Guarantee”).</p> <p>See “Form of Guarantee” below.</p>

This Base Prospectus, any supplement to this Base Prospectus and the Final Terms related to the Notes listed and admitted to trading on any Regulated Market in the EEA will be published on the website of the Issuer (<https://www.se.com>). The Final Terms will indicate where the Base Prospectus may be obtained.

Representation of the Noteholders:

Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a masse (in each case, the “*Masse*”).

The *Masse* will be governed by the provisions of the French *Code de commerce*, with the exception of Articles L.228-48, L.228-59, L.228-65 I, 1°, 4° and 6°, the second sentence of Article L.228-65 II, L.228-71, R.228-63 and R.228-69 of the French *Code de Commerce* and subject to the provisions set out in the Conditions of the Notes.

The *Masse* will act in part through a representative (the “**Representative**”) and in part through collective decisions of the Noteholders. The names and addresses of the Representative will be set out in the relevant Final Terms.

The Representative appointed in respect of the first Tranche of any Series of the Notes will be the representative of the single *Masse* of all Tranches in such Series.

Selling Restrictions:

There are restrictions on the sale of Notes and the distribution of offering material in various jurisdictions. See “Subscription and Sale”.

The Notes to be issued qualify under Category 2 for the purposes of Regulation S under the Securities Act.

Materialised Notes will be issued (i) in compliance with US Treas. Reg. §1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended) (the “**D Rules**”) unless the relevant Final Terms states that such Materialised Notes are issued in compliance with US Treas. Reg. §1.163-5(c)(2)(i)(C) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended) (the “**C Rules**”), or (ii) other than in compliance with the D Rules or the C Rules but in circumstances in which the Notes will not constitute “registration required obligations” under the United States Tax Equity and Fiscal Responsibility Act of 1982 (“**TEFRA**”), which circumstance will be referred to in the relevant Final Terms as a transaction to which TEFRA is not applicable.

The TEFRA rules do not apply to any Dematerialised Notes.

Rating:

The long term corporate rating of the Issuer by S&P Global Ratings Europe Limited (“**S&P**”) is currently A- (stable outlook). S&P is established in the European Union and is registered under Regulation (EC) No. 1060/2009 on credit rating agencies (as amended) (the “**CRA Regulation**”). S&P is

included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the European Securities and Markets Authority's website (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>) as of the date of this Base Prospectus. S&P is not established in the United Kingdom (the "UK") and is not registered in accordance with Regulation (EU) No 1060/2009 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK CRA Regulation**"). The rating of S&P has been endorsed by S&P Global Ratings UK Limited in accordance with the UK CRA Regulation and has not been withdrawn. As such, the ratings issued by S&P may be used for regulatory purposes in the UK in accordance with the UK CRA Regulation. Notes issued under the Programme may be rated or unrated. The rating, if any, will be specified in the relevant Final Terms. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating assigned to the Issuer. The relevant Final Terms will specify whether or not such credit ratings are issued by a credit rating agency established in the European Union and registered under the CRA Regulation. Credit ratings are subject to revision, suspension or withdrawal at any time by the relevant rating organisation. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. The risk factors may relate to the Issuer or to any of its subsidiaries.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuer believes that the factors (although not exhaustive) described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. The risks described below are not the only risks the Issuer faces. Additional risks and uncertainties not currently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. In particular, investors should make their own assessment as to the risks associated with the Notes prior to investing in Notes issued under the Programme.

Words and expressions defined in the section “Terms and Conditions of the Notes” shall have the same meaning in this section.

RISK FACTORS RELATING TO THE ISSUER

Risk factors relating to the Issuer are described on pages 304 to 318 of the 2022 Universal Registration Document, as defined and further described in the section “Documents Incorporated by Reference” in this Base Prospectus and include the following:

- Event triggered risks;
- Trend driven risks; and
- Management practice risks.

RISK FACTORS RELATING TO THE NOTES

1 Risk Factors Relating to all Series of Notes

1.1 Substitution of Schneider Electric SE

Schneider Electric SE may at any time, at its discretion and without consulting the Noteholders, substitute for itself as principal debtor under any Notes, any of its Subsidiaries (the “**Substituted Issuer**”), pursuant to Condition 15. Such Condition provides for certain conditions to be met before the substitution can take place, including, but not limited to, an unconditional and irrevocable first demand guarantee (*garantie autonome à première demande*) from Schneider Electric SE to the Noteholders and the absence of any payment obligation for the Noteholders which would arise from the substitution. While the ultimate credit risk under the Notes will remain with Schneider Electric SE as Guarantor, the identity or the creditworthiness of any Substituted Issuer may not be anticipated and neither Schneider Electric SE nor the Substituted Issuer will be required to take into consideration any interests arising from the circumstances particular to any holder of such Notes with regard to or arising from any such substitution.

As a result of such substitution, the Notes may become illiquid and this could have a material adverse effect on the Noteholders and, thus, increase the risk of losing all or part of their investment in the Notes.

1.2 French insolvency law

The Issuer is a *société européenne* with its registered office in France. In the event that the Issuer becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of France to the extent that, where applicable, the “centre of main interests” (as construed under Regulation (EU) 2015/848, as amended) of the Issuer is located in France.

Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132, has been transposed into French law by *Ordonnance* n°2021-1193 dated 15 September 2021. Such *Ordonnance*, applicable since 1st October 2021, amends French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this *Ordonnance*, “affected parties” (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria.

Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

The commencement of insolvency proceedings against the Issuer would have a material adverse effect on the market value of Notes. As a consequence, any decision taken by a class of affected parties could materially and negatively impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Issuer.

1.3 Credit Risk

As contemplated in Condition 3, the Notes and, where applicable, the Coupons relating to these constitute direct, unconditional, unsubordinated and (subject to the provisions of Condition 4) unsecured obligations of the Issuer. However, an investment in the Notes involves taking credit risk on the Issuer. If the credit worthiness of the Issuer deteriorates, it may not be able to fulfil all or part of its payment obligations under the Notes which could materially and negatively impact the Noteholders, and investors may lose all or part of their investment.

1.4 Modifications and waivers

Condition 11 of the Terms and Conditions of the Notes contains provisions for calling General Meetings of Noteholders or consulting them by way of Consultation in Writing to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not participate at the relevant General Meeting or Consultation in Writing and Noteholders who voted in a manner contrary to the majority. General Meetings or Consultations in Writing may deliberate on any proposal relating to the modification of the Terms and Conditions of the Notes subject to the limitation provided by French law. If a decision is adopted by a majority of Noteholders and such modifications were to impair or limit the rights of the Noteholders, this may have a negative impact on the market value of the Notes and hence investors may lose all or part of their investment.

In addition, Condition 11 of the Terms and Conditions of the Notes provides that the provisions of Article L.228-65 I. 1°, 4° and 6° of the French *Code de commerce*, respectively providing for a prior approval by the General Meeting of the Noteholders (i) of any proposal to change in corporate purpose or form of the Issuer, (ii) of any proposal to issue bonds benefiting from a security interest (*sûreté réelle*) which does not benefit to the Masse or (iii) of any proposal to transfer the registered office of a *societas europaea* to another Member State of the European Union shall not apply to the Notes. As a result of these exclusions, no General Meeting shall be held nor a Consultation in Writing shall be submitted. This may adversely affect the liquidity of the Notes and Noteholders may not be able to sell their Notes on the market.

1.5 Potential conflict of interests with the Dealers and/or the Calculation Agent

All or some of the Dealers and, as the case may be, the Calculation Agent, and their affiliates have and/or may in the future engage, in lending, in investment banking, commercial banking and other financial advisory and commercial dealings with the Issuer and its affiliates and in relation to securities issued by any entity of the Group (as defined in the “Important Notice” section). They have or may (i) engage in investment banking, trading or hedging activities including activities that may include prime brokerage business, financing transactions or entry into derivative transactions, (ii) act as underwriters in connection with offering of shares or other securities issued by any entity of the Group. In the context of these transactions, certain of such Dealers have or may hold shares or other securities issued by entities of the Group. Where applicable, they have or will receive customary fees and commissions for these transactions.

Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The Issuer may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Potential conflicts of interest may arise between the Calculation Agent, if any, for a Tranche of Notes and the Noteholders (including where a Dealer acts as calculation agent), including with respect to certain discretionary determinations and judgements that such Calculation Agent may make pursuant to the Terms and Conditions that may influence the amount receivable upon redemption of the Notes. In particular, whilst a Calculation Agent will, as the case may be, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders

during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

2 Risk Factors Relating to the structure and feature of a particular issue of Notes

2.1 Risk Factors Relating to the Interest payable on the Notes

2.1.1 Fixed Rate Notes

As contemplated by Condition 5(a), the Issuer may issue Fixed Rate Notes bearing interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrears on each Interest Payment Date.

Investment in Notes which bear interest at a fixed rate involves risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes and Noteholders may lose all or part of their investment in the Notes and therefore their interests may be negatively altered.

While the nominal interest rate of a Fixed Rate Note is determined during the term of such Note or within a given period of time, the market interest rate (the “**Market Interest Rate**”) typically varies on a daily basis. As the Market Interest Rate changes, the price of the Note varies in the opposite direction. If the Market Interest Rate increases, the price of the Note typically decreases, until the yield of the Note equals approximately the Market Interest Rate. If the Market Interest Rate decreases, the price of a Fixed Rate Note typically increases, until the yield of the Note equals approximately the Market Interest Rate.

Therefore, the price of the Notes at any particular time may be lower than the purchase price of the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost on any transfer of the Notes, so that the Noteholder in such case would not receive the total amount of the capital invested.

2.1.2 Floating Rate Notes

As contemplated in Condition 5(b), investment in Notes which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short-term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate. As a result, Noteholders may lose all or part of their investments in the Notes and therefore their interests may be negatively altered.

2.1.3 Investors will not be able to calculate in advance their rate of return on Floating Rate Notes

As contemplated in Condition 5(b), a key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the Terms and Conditions of the Notes provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing.

Furthermore, should the reference rate in respect of a Floating Rate Note be at any time negative, this could result in the rate of interest payable to Noteholders being lower than the applicable margin. For the avoidance of doubt, if the resulting rate of interest is less than zero, the applicable rate of interest shall be deemed to be zero and the Noteholders will not have to pay the negative fraction of such interest to the Issuer.

As a result, Noteholders may lose all or part of their investments in the Notes and therefore their interests may be negatively altered.

2.1.4 Fixed/Floating Rate Notes

As contemplated in Condition 5(c), Fixed/Floating Rate Notes may bear interest at a rate that will automatically change from a Fixed Rate to a Floating Rate, or from a Floating Rate to a Fixed Rate on the date set out in the Final Terms. The conversion of the interest rate may affect the secondary market and the market value of the Notes since the conversion may produce a lower overall cost of borrowing. If a Fixed Rate is converted to a Floating Rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new Floating Rate at any time may be lower than the rates on other Notes. If the rate is automatically converted from a Floating Rate to a Fixed Rate, the Fixed Rate may be lower than then prevailing rates on its Notes and any such volatility may have an adverse effect on the market value of the Notes.

Investors should refer to risk factors set out in the risk factors entitled “Fixed Rate Notes” and “Floating Rate Notes”.

2.1.5 Zero Coupon Notes are subject to higher price fluctuations than non-discounted bonds

As contemplated by Condition 5(d), the Issuer may issue Zero Coupon Notes. Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk and Noteholders may, as a result, lose all or part of their investment in the Notes.

2.1.6 Reform and regulation of "benchmarks"

Pursuant to Condition 5(b) and where the applicable Final Terms for a Series of Floating Rate Notes identifies that the Rate of Interest for such Notes will be determined by reference to the Euro Interbank Offered Rate (“EURIBOR”) or other indices which are deemed to be “benchmarks”, investors should be aware that EURIBOR or other indices are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequences could have a material adverse effect on the liquidity and value of and return on any Notes linked to such a “benchmark”.

Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds, as amended (the "**Benchmarks Regulation**") was published in the European official journal on 29 June 2016 and most of the provisions of the Benchmarks Regulation have applied since 1 January 2018.

The Benchmarks Regulation applies to the provision of “benchmarks” in the EU, the contribution of input data to a “benchmark” and the use of a “benchmark” within the EU. It will, among other things, (i) require benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with

extensive requirements in relation to the administration of “benchmarks” (or, if non-EU based, to be subject to equivalent requirements) and (ii) prevent certain uses by EU supervised entities of “benchmarks” of administrators that are not authorised/registered (or, if non-EU based, deemed equivalent or recognised or endorsed).

The Benchmarks Regulation could have an adverse impact on any Notes linked to a rate or index deemed to be a “benchmark”, in particular if the methodology or other terms of the “benchmark” are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or otherwise participating in the setting of a “benchmark” and complying with any such regulations or requirements.

Such factors may have the following effects on certain “benchmarks”: (i) discourage market participants from continuing to administer or contribute to certain “benchmarks”, (ii) trigger changes in the rules or methodologies used in certain “benchmarks” or (iii) lead to the disappearance of certain “benchmarks”.

Any of the above changes or any other consequential changes as a result of international, national or other proposals for reform or other initiatives or investigations, could have an adverse effect on the value of and return on any Notes linked to a “benchmark”.

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021. The existing provisions of the Benchmarks Regulation were further amended by Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 which applies since 13 February 2021 (the “**Amending Regulation**”).

The Amending Regulation introduced a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring on the European Commission the power to designate a statutory replacement for certain benchmarks, resulting in such benchmarks being replaced in contracts and financial instruments that have not been renegotiated before the date of cessation of the relevant benchmarks and contain either no contractual replacement (or so-called “fallback provision”) or a fallback provision which is deemed unsuitable by the European Commission or competent national authorities (Article 23b of the Benchmarks Regulation). These provisions could have a negative impact on the value or liquidity of, and return on, certain Notes issued under the Programme linked to or referencing such benchmark in the event that the fallback provisions in the Terms and Conditions of the Notes are deemed unsuitable. However, there are still uncertainties about the exact implementation of this provision pending the implementing acts of the European Commission. In addition, the Amending Regulation extended the transitional provisions applicable to third-country benchmarks until the end of 2023 and empowered the European Commission to further extend this transitional period until the end of 2025, if necessary. Such developments may create uncertainty regarding any future legislative or regulatory requirements arising from the implementation of delegated regulations.

2.1.7 Floating Rate Notes – benchmark discontinuation

Where Screen Rate Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, and EURIBOR or another Reference Rate (other than €STR, SOFR Benchmark or SONIA) has been selected as the Reference Rate, Condition 5(b)(iii)(B) of the Notes provides that the Rate of Interest shall be determined by reference to the

Relevant Screen Page (or its successor or replacement). In circumstances where the Original Reference Rate is discontinued, neither the Relevant Screen Page, nor any successor or replacement may be available.

Where the Relevant Screen Page is not available, and no successor or replacement for the Relevant Screen Page is available, Condition 5(b)(iii)(B) of the Notes provides for the Rate of Interest to be determined by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) by reference to quotations from banks communicated to the Calculation Agent.

Where such quotations are not available (as may be the case if the relevant banks are not submitting rates for the determination of such Original Reference Rate), the Rate of Interest may ultimately revert to the Rate of Interest applicable as at the last preceding Interest Determination Date before the Original Reference Rate was unavailable. Uncertainty as to the continuation of such Original Reference Rate, the availability of quotes from reference banks, and the rate that would be applicable if such Original Reference Rate is unavailable may adversely affect the value of, and return on, the Floating Rate Notes.

If a Benchmark Event (as defined in Condition 5(i)) (which, amongst other events, includes the permanent discontinuation of an Original Reference Rate) occurs (other than with respect to €STR, SOFR Benchmark or SONIA), the Issuer shall use its reasonable endeavours to appoint an Independent Adviser. The Independent Adviser shall endeavour to determine a Successor Rate or Alternative Rate to be used in place of the Original Reference Rate. The use of any such Successor Rate or Alternative Rate to determine the Rate of Interest is likely to result in Notes initially linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

Furthermore, if a Successor Rate or Alternative Rate for the Original Reference Rate is determined by the Independent Adviser and the Independent Adviser determines that amendments to the Terms and Conditions of the Notes are necessary to ensure the proper operation of such Successor Rate or Alternative Rate, then the Issuer may vary these Terms and Conditions to give effect to such amendments without any requirement for consent or approval of the Noteholders.

If a Successor Rate or Alternative Rate is determined by the Independent Adviser, the Terms and Conditions of the Notes also provide that an Adjustment Spread may be determined by the Independent Adviser and applied to such Successor Rate or Alternative Rate. The aim of the Adjustment Spread is to reduce or eliminate, to the extent reasonably practicable, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate. However, it may not be possible to determine or apply an Adjustment Spread and even if an Adjustment Spread is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Noteholders and Couponholders. If no Adjustment Spread can be determined, a Successor Rate or Alternative Rate may nonetheless be used to determine the Rate of Interest. The use of any Successor Rate or Alternative Rate (including with the application of an Adjustment Spread) may still result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

The Issuer may be unable to appoint an Independent Adviser or the Independent Adviser may not be able to determine a Successor Rate or Alternative Rate in accordance with the Terms and Conditions of the Notes.

Where the Issuer is unable to appoint an Independent Adviser in a timely manner, or the Independent Adviser is unable, to determine a Successor Rate or Alternative Rate before the next Interest Determination Date, the Rate of Interest for the next succeeding Interest Period will be the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, or, where the Benchmark Event occurs before the first Interest Determination Date, the Rate of Interest will be the initial Rate of Interest.

Where the Issuer has been unable to appoint an Independent Adviser or, the Independent Adviser has failed, to determine a Successor Rate or Alternative Rate in respect of any given Interest Period, it will continue to attempt to appoint an Independent Adviser in a timely manner before the next succeeding Interest Determination Date and/or to determine a Successor Rate or Alternative Rate to apply the next succeeding and any subsequent Interest Periods, as necessary.

Applying the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event is likely to result in Notes linked to or referencing the relevant benchmark performing differently (which may include payment of a lower Rate of Interest) than they would do if the relevant benchmark were to continue to apply, or if a Successor Rate or Alternative Rate could be determined.

If the Issuer is unable to appoint an Independent Adviser or, the Independent Adviser fails to determine a Successor Rate or Alternative Rate for the life of the relevant Notes, the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will continue to apply to maturity. This will result in the floating rate Notes, in effect, becoming fixed rate Notes. Noteholders may, in such circumstances, be materially affected and receive a lower interest as they would have expected if an Independent Adviser had been determined or if such Independent Adviser did not fail to determine such Successor or Alternative Rate.

2.1.8 The market continues to develop in relation to risk-free rates (including overnight rates) which are possible reference rates for Floating Rate Notes

Condition 5(b) allows Notes referencing risk-free rates to be issued. The market continues to develop in relation to risk-free rates, such as the Sterling Overnight Index Average (“**SONIA**”), the Secured Overnight Financing Rates (“**SOFR**”) and the Daily Euro Short-term Rate (“**€STR**”), as reference rates in the capital markets for sterling, U.S. dollar and euro bonds, as applicable, and their adoption as alternatives to the relevant interbank offered rates.

Such risk-free rates have a limited performance history and the future performance of such risk-free rates is impossible to predict. As a consequence, no future performance of the relevant risk-free rate or Notes referencing such risk-free rate may be inferred from any of the hypothetical or actual historical performance data. In addition, investors should be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates. For example, since publication of SOFR began, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Interest is calculated on the basis of the compounded risk-free rate or an arithmetic average of the risk-free rate, using the relevant specific formula set out in the Terms and Conditions of the Notes. In addition, market conventions for calculating the interest rate for notes referencing risk-free rates continue to develop and market participants and relevant working groups are exploring alternative reference rates based on risk-free rates. Accordingly, the specific formula for calculating the rate used in the Notes issued under the Base Prospectus may not be widely adopted by other market participants, if at all.

The Issuer may in the future also issue Notes referencing risk-free rates that materially differ in terms of interest determination when compared with any previous Notes referencing risk-free rates

issued by it. If the market adopts a different calculation method, that could adversely affect the market value of Notes issued under the Programme.

Interest on Notes which reference a risk-free rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference risk-free rates to reliably estimate the amount of interest which will be payable on such Notes.

Each risk-free rate is published and calculated by third parties based on data received from other sources and the Issuer has no control over their respective determinations, calculations or publications. There is a risk that the relevant risk-free rate (or the Compounded SOFR Index or SONIA Compounded Index) will be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in Notes linked to or which reference a such risk-free rate (or that any applicable benchmark fallback provisions provided for in the Terms and Conditions of the Notes will provide a rate which is not economically equivalent for Noteholders). If the manner in which the relevant risk-free rate is calculated is changed, that change may result in a reduction of the amount of interest payable on such Notes and the trading prices of such Notes.

The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Terms and Conditions of the Notes and used in relation to Notes that reference a risk-free rate issued under the Base Prospectus.

Any mismatch between the adoption of such risk-free rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which investors may put in place in connection with any acquisition, holding or disposal of any Notes.

2.2 Risk Factors Relating to the Redemption of the Notes

2.2.1 The Notes may be subject to optional redemption by the Issuer

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the jurisdiction of the Issuer or a political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with Condition 6(c)(i).

The Issuer has also the option, if so provided in the relevant Final Terms, to redeem the Notes under a make-whole call option as provided in Condition 6(d), a call option as provided in Condition 6(e), a residual maturity call option as provided in Condition 6(g), a clean-up call option as provided in Condition 6(i) and an acquisition event call option as provided in Condition 6(j). In particular, in case of a clean-up call option there is no obligation for the Issuer to inform investors if and when the percentage of 75 per cent. or the Clean-Up Percentage (as defined in the relevant Final Terms) has been reached or is about to be reached, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of this option, the Notes may have been traded significantly above par, thus potentially resulting in a loss of capital invested.

If (i) an Acquisition Event Call Option is specified in the relevant Final Terms and (ii) the Issuer publicly announces that the consummation of the acquisition of the Targeted Company, as defined in the relevant Final Terms, is not pursued or the completion of the acquisition has not occurred on or prior to the Acquisition Event Limit Date, the Issuer will have the option to redeem the Notes, in whole or in part or, if so specified in the relevant Final Terms, in whole only, at the Optional Redemption Amount together with any interest accrued on the Notes as provided in Condition 6(j).

The Final Terms for a particular issue of Notes may provide for early redemption at the option of the Issuer. Such right of termination is often provided for bonds or notes in periods of high interest rates. If the market interest rates decrease, the risk to Noteholders that the Issuer will exercise its right of termination increases. As a consequence, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost, so that the Noteholder in such case would not receive the total amount of the capital invested. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Notes.

All of the above may reduce the profits potential investors in the Notes may have expected in subscribing the Notes and could have significant impact on the Noteholders.

2.2.2 Exercise of the Change of Control Put Option, the Put Option, the Residual Maturity Call Option, the Call Option or the Make-Whole Redemption by the Issuer in respect of certain Notes may affect the liquidity of the Notes of the same Series in respect of which such option is not exercised

Depending on the number of Notes of the same Series in respect of which the Change of Control Put Option, as provided in Condition 6(h), the Put Option, as provided in Condition 6(f), the Residual Maturity Call Option, as provided in Condition 6(g), the Call Option, as provided in Condition 6(e), or the Make-Whole Redemption, as provided in Condition 6(d), provided, if any, in the relevant Final Terms is exercised, any trading market in respect of those Notes in respect of which such option is not exercised may become illiquid. In addition, investors may only be able to reinvest the moneys they receive upon such early redemption in securities with a lower yield than the redeemed Notes and Noteholders may lose part of their investment.

2.3 Risk Factors relating to Notes denominated in Renminbi

The relevant Final Terms in relation to any Series of Notes may specify that the Notes are denominated in Renminbi (“**RMB Notes**”). RMB Notes contain particular risks for potential investors.

Renminbi is not freely convertible and may adversely affect the liquidity of the RMB Notes

Renminbi is not freely convertible at present. The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the U.S. dollar, despite the significant reduction over the years by the PRC government of its control over routine foreign exchange transactions under current accounts.

Remittance of Renminbi by foreign investors into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

Although Renminbi was added to the Special Drawing Rights basket created by the International Monetary Fund in 2016 and policies further improving accessibility to Renminbi to settle cross-border transactions in foreign currencies have been implemented by the People’s Bank of China (“**PBOC**”) in the past few years, there is a risk that the PRC government will not continue to liberalise the control over cross-border RMB remittances in the future, that any pilot schemes for Renminbi cross-border utilisation will be discontinued or that new PRC regulations will be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in

Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under the RMB Notes.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the RMB Notes and the Issuer's ability to source Renminbi outside the PRC to service such RMB Notes

As a result of the restrictions imposed by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. In efforts to internationalise the Renminbi, the PBOC has established Renminbi clearing and settlement systems for participating banks in various countries through settlement agreements (the “**Settlement Agreements**”) on the clearing of Renminbi business with financial institutions in a number of financial centres and cities (each, a “**Renminbi Clearing Bank**”) and these RMB Clearing Banks have been permitted to engage in the settlement of Renminbi trade transactions.

However, the current size of Renminbi-denominated financial assets outside the PRC is limited. There are restrictions imposed by the PBOC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as restrictions on the types of transactions for such cross-border Renminbi settlement. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC, although the PBOC has gradually allowed participating banks to access the PRC's onshore inter-bank market for the purchase and sale of Renminbi. The relevant RMB Clearing Bank only has access to its own onshore liquidity support from the PBOC to square open positions of its relevant participating banks for limited types of transactions. The relevant Renminbi Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In cases where the participating banks cannot source sufficient Renminbi through the above channels, they will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is a risk that new PRC regulations will be promulgated in the future or the Settlement Agreements will be terminated or amended in the future which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of the RMB Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its RMB Notes, there is a risk that the Issuer will not be able to source such Renminbi on satisfactory terms, if at all. Should the Issuer resort to using another currency, such as U.S. dollar, to respect its payment obligations under the RMB Notes, the relevant Noteholders may lose part of their investment when converting such currency back into Renminbi, depending on the prevailing exchange rate at that time.

2.4 Risk Factors Relating to the market generally

2.4.1 Market value of the Notes

The market value of the Notes will be affected by the creditworthiness of the Issuer (as of the date of this Base Prospectus, the long-term corporate rating of the Issuer by S&P is A- (stable outlook)), and a number of additional factors, including the volatility of an index, market interest and yield rates and the time remaining to the maturity date. Application will be made in certain circumstances to list and admit the Notes on Euronext Paris or on any other Regulated Market in any Member State of the EEA.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the

issue price or the purchase price paid by such Noteholder and result in losing all or part of their investment in the Notes.

2.4.2 An active trading market for the Notes may not develop

Although particular series of Notes may specify in the relevant Final Terms that they are expected to be admitted to trading on Euronext Paris or on any other Regulated Market in any Member State of the EEA, there is a risk that an active trading market for the Notes will not develop, or, if one does develop, that it will be maintained. If an active trading market for the Notes does not develop or is not maintained, the market or trading price and liquidity of the Notes may be adversely affected. The Issuer and any of its subsidiaries are entitled to buy the Notes, as described in Condition 6(j), and the Issuer may issue further notes, as described in Condition 13. Such transactions may adversely affect the price development of the Notes. If additional and competing products are introduced in the markets, this may adversely affect the value of the Notes. As a consequence, investors may not be able to sell Notes readily or at prices that will enable them to realise their anticipated yield and as a result, investors could lose all or part of their investment in the Notes.

2.4.3 Exchange rate risks and exchange controls

The Programme allows for Notes to be issued in a range of currencies. The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the relevant Final Terms). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, if this risk ever materialises, investors may receive less interest or principal than expected, or no interest or principal at all.

2.4.4 Notes issued as green, social and/or sustainability Notes may not be a suitable investment for all investors

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to issue green, social or sustainability Notes and an amount equal or equivalent to the net proceeds of the issuance of such Notes may be exclusively applied to finance or re-finance, in part or in full, new and/or existing (i) eligible green projects, (ii) eligible social projects or (iii) eligible sustainable projects which may be further described in the Issuer's relevant framework to be published on the Issuer's website on or before the issue of such Notes.

There is currently no market consensus on what precise attributes are required for a particular project to be defined as "green", "social" or "sustainable". The European Union adopted on 18 June 2020 Regulation (EU) No 2020/852 on the establishment of a framework to facilitate sustainable investment (the "**EU Taxonomy**"), establishing the criteria for determining whether an economic activity qualifies as environmentally sustainable for the purposes of establishing the degree to which an investment is environmentally sustainable. The EU Taxonomy establishes a single EU-wide classification system, or "taxonomy", which provides companies and investors with a common language for determining which economic activities can be considered environmentally

sustainable. The Commission Delegated Regulation (EU) 2021/2139 of 4 June 2021 establishing the technical screening criteria for determining which economic activities can be considered as contributing substantially to climate change mitigation or climate change adaptation and for determining whether that economic activity causes no significant harm to any of the other environmental objectives entered into force on 1 January 2022. However, the EU Taxonomy and the Commission Delegated Regulation specified above remain subject to further developments with regard to other specific economic activities. In light of the continuing development of legal, regulatory and market conventions in the green, sustainable and positive social impact markets, there is a risk that the Eligible Projects (as defined in the “Reasons for the offer” paragraph in the relevant Final Terms) will not satisfy, whether in whole or in part, any future legislative or regulatory requirements, or any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply.

While it is the intention of the Issuer to apply an amount equal or equivalent to the net proceeds of such Notes in, or substantially in, the manner described in the Issuer’s relevant framework to be published on the Issuer’s website on or before the issue of such Notes and in the Final Terms, the Eligible Projects (as such term will be defined in the “Reasons for the offer” paragraph in the relevant Final Terms) may not be capable of being implemented in, or substantially in, such manner and/or accordance with any timing schedule.

Any failure to use an amount equal or equivalent to the net proceeds from such Notes on Eligible Projects or to meet or continue to meet the investment requirements of certain environmentally, socially or sustainably focused investors with respect to such Notes may affect the value of the Notes and/or may have adverse consequences for certain investors with portfolio mandates to invest in green, social and/or sustainable assets.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms, shall be applicable to the Notes. In the case of Dematerialised Notes, the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by the relevant Final Terms. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms or (ii) these terms and conditions as so completed (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on Definitive Materialised Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms. Those definitions will be endorsed on the definitive Notes, as the case may be. References in these Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

An amended and restated agency agreement (as amended or supplemented as at the Issue Date, the “**Agency Agreement**”) dated 12 April 2023 has been agreed between Schneider Electric SE (the “**Issuer**”), BNP Paribas as fiscal agent and the other agents named in it. The fiscal agent, the paying agents, and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent), and the “**Calculation Agent(s)**”. Copies of the Agency Agreement are available for inspection at the specified offices of each of the Paying Agents.

For the purposes of these Terms and Conditions, “**Regulated Market**” means any regulated market situated in a Member State of the European Economic Area (“**EEA**”) as defined in the Markets in Financial Instruments Directive 2014/65/EU, as amended.

Terms between square brackets shall apply to Notes guaranteed by Schneider Electric SE when Schneider Electric SE is replaced and substituted by the Substituted Issuer (as defined in Condition 15), as provided in Condition 15. If there is a substitution of the Issuer in accordance with Condition 15, references below to “**Guarantor**” shall mean Schneider Electric SE, in its capacity as guarantor of Notes and any reference in the Conditions to the Issuer shall from then on be deemed to refer to the Substituted Issuer.

References below to “**Conditions**” are, unless the context requires otherwise, to the numbered paragraphs below. References below to “**day**” or “**days**” are to a calendar day or to calendar days, respectively.

Each Fixed Rate Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date (the “**Fixed Rate**”).

If a Fixed Coupon Amount or a Broken Amount is specified in the relevant Final Terms, the amount of interest payable on each Interest Payment Date will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and in the case of the Broken Amount will be payable on the particular Interest Payment Date(s) specified in the relevant Final Terms.

(b) Interest on Floating Rate Notes:

- (i) Interest Payment Dates: Each Floating Rate Note bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date (the “**Floating Rate**”). Such Interest Payment Date(s) is/are either shown in the relevant Final Terms as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown in the relevant Final Terms, Interest Payment Date shall mean each date which falls the number of months or other period shown in the relevant Final Terms as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.
- (ii) Business Day Convention: If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is:
 - (A) the Floating Rate Business Day Convention or “**FRN Convention**”, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment,
 - (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day,
 - (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought to the immediately preceding Business Day, or

- (D) the Preceding Business Day Convention, such date shall be brought to the immediately preceding Business Day.
- (iii) Rate of Interest for Floating Rate Notes: the Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified in the relevant Final Terms and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Final Terms.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Final Terms;
- (y) the Designated Maturity is a period specified in the relevant Final Terms; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period or such other date as specified in the relevant Final Terms.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner according to which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (i) the offered quotation, or
- (ii) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either (i) 11.00 a.m. (Brussels time in the case of EURIBOR) or (ii) if otherwise, the Relevant Screen Page Time on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

- (b) if the Relevant Screen Page is not available or if sub-paragraph (a)(i) applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (a)(ii) applies and fewer than three such offered quotations appear on the Relevant Screen Page, subject as provided below, the Calculation Agent shall request, (i) if the Reference Rate is EURIBOR, the principal

Euro-zone office of each of the Reference Banks or, (ii) if otherwise, each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and

- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in if the Reference Rate is EURIBOR, the Euro-zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is EURIBOR, the Euro zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Rate Multiplier or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).
- (d) Where Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being €STR, the €STR rate of interest determination method, as specified in the relevant Final Terms (the “**€STR Rate of Interest Determination**”), in which the Rate of Interest is to be determined could be either €STR Lookback Compound or €STR Shift Compound as follows:

- (x) if €STR Lookback Compound is specified as applicable in the relevant Final Terms, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be €STR-LOOKBACK-COMPOUND plus or minus (as indicated in the Final Terms) the Margin (if any); or
- (y) if €STR Shift Compound is specified as applicable in the relevant Final Terms, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be €STR-SHIFT-COMPOUND plus or minus (as indicated in the Final Terms) the Margin (if any);

For the purpose of this Condition 5(b)(iii)(B)(d):

“**€STR-LOOKBACK-COMPOUND**” means the rate of return of a daily compounded interest investment (with the daily euro short-term rate as the reference rate for the calculation of interest) which will be calculated by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_{i-p\text{TBD}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

Where:

“**d**” is the number of days in the relevant Interest Accrual Period;

“**d₀**” is the number of TARGET Business Days in the relevant Interest Accrual Period;

“**€STR_{i-pTBD}**” means, in respect of any TARGET Business Day falling in the relevant Interest Accrual Period, the €STR for the TARGET Business Day falling “p” TARGET Business Days prior to the relevant TARGET Business Day “i”;

“**i**” is a series of whole numbers from one to d₀, each representing the relevant TARGET Business Day in chronological order from, and including, the first TARGET Business Day in the relevant Interest Accrual Period to, and including, the last TARGET Business Day in such Interest Accrual Period;

“**n_i**” for any TARGET Business Day “i” is the number of days from, and including, the relevant TARGET Business Day “i” up to, but excluding, the immediately following TARGET Business Day in the relevant Interest Accrual Period;

“**Observation Look-Back Period**” means the period specified in the Final Terms; and

“**p**” means in relation to any Interest Accrual Period, the number of TARGET Business Days included in the Observation Look-Back Period.

“**€STR-SHIFT-COMPOUND**” means the rate of return of a daily compounded interest investment (with the daily euro short-term rate as the reference rate for the calculation of interest) which will be calculated by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest fifth decimal place, with 0.000005 being rounded upwards:

$$\left(\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_i \times n_i}{360} \right) - 1 \right) \times \frac{360}{d}$$

Where:

“**d**” is the number of days in the relevant Observation Period;

“**d₀**” for any Observation Period, means the number of TARGET Business Days in the relevant Observation Period;

“**€STR_i**” means, in respect of any TARGET Business Day falling in the relevant Observation Period, the €STR in respect of that TARGET Business Day “**i**”;

“**i**” is a series of whole numbers from one to **d₀**, each representing the relevant TARGET Business Day in chronological order from (and including) the first TARGET Business Day in the relevant Observation Period to, and including, the last TARGET Business Day in such Interest Accrual Period;

“**n_i**” for any TARGET Business Day “**i**” in the relevant Observation Period, means the number of days from (and including) such day “**i**” up to (but excluding) the following TARGET Business Day (“**i+1**”);

“**Observation Period**” means, in respect of each Interest Accrual Period, the period from (and including) the date falling a number of TARGET Business Days equal to the Observation Shift Days preceding the first day of such Interest Accrual Period to (but excluding) the date falling a number of TARGET Business Days equal to the Observation Shift Days preceding the Interest Payment Date for such Interest Accrual Period; and

“**Observation Shift Days**” means the number of TARGET Business Days specified in the relevant Final Terms.

If the €STR is not published, as specified above, on any particular TARGET Business Day and no €STR Index Cessation Event (as defined below) has occurred, the €STR for such TARGET Business Day shall be the rate equal to €STR in respect of the last TARGET Business Day for which such rate was published on the Website of the European Central Bank (as defined below).

If the €STR is not published, as specified above, on any particular TARGET Business Day and both an €STR Index Cessation Event and an €STR Index Cessation Effective Date have occurred, then the rate of €STR for each relevant TARGET Business Day occurring on or after such €STR Index

Cessation Effective Date will be determined as if references to €STR were to the ECB Recommended Rate.

If no ECB Recommended Rate has been recommended before the end of the first TARGET Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each relevant TARGET Business Day occurring on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate of €STR for each relevant TARGET Business Day occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

Any substitution of the €STR, as specified above (the “**€STR Replacement Rate**”), will remain effective for the remaining term to maturity of the Notes.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms), (i) the Rate of Interest shall be that determined as at the last preceding Interest Determination Date, (ii) if there is no such preceding Interest Determination Date, the Rate of Interest shall be determined as if the rate of €STR for each relevant TARGET Business Day occurring on or after such €STR Index Cessation Effective Date were references to the latest published ECB Recommended Rate or, if EDFR is published on a later date than the latest published ECB Recommended Rate, the Modified EDFR; or (iii) if there is no such preceding Interest Determination Date and there is no published ECB Recommended Rate or Modified EDFR available, as if the rate of €STR for each relevant TARGET Business Day on or after such €STR Index Cessation Effective Date were references to the latest published €STR (though, in each case, substituting, where a different Margin, Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin, Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

If the Notes become due and payable in accordance with the Conditions, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the relevant Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Notes remains outstanding, be that determined on such date.

Any determination, decision or election that may be made by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) pursuant to this

Condition 5(b)(iii)(B)(d), including any determination with respect to a rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, (i) will be conclusive and binding absent manifest error, (ii) will be made in the Calculation Agent's (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) sole discretion, acting in good faith and in a commercial and reasonable manner, and (iii) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the holders of the Notes or any other party.

“**SONIA Compounded Index Rate**” means with respect to an Interest Accrual Period, the rate of return of a daily compound interest investment during the Observation Period corresponding to such Interest Accrual Period (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) on the Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards,

$$\left(\frac{SONIA\ Compounded\ Index_{END}}{SONIA\ Compounded\ Index_{START}} - 1 \right) \times \left(\frac{365}{d} \right)$$

provided, however, that if the SONIA Compounded Index Value is not available in relation to any Interest Accrual Period on the Relevant Screen Page for the determination of either or both of SONIA Compounded Index_{START} and SONIA Compounded Index_{END}, the Rate of Interest shall be calculated for such Interest Accrual Period on the basis of the SONIA Compounded Daily Reference Rate as set out in Condition 5(b)(iii)(B)(g)(y) as if SONIA Compounded Daily Reference Rate with Observation Shift had been specified in the relevant Final Terms and the “Relevant Screen Page” shall be deemed to be the “Relevant Fallback Screen Page” as specified in the relevant Final Terms,

“*p*” means, for any Interest Accrual Period the whole number

specified in the relevant Final Terms (or, if no such number is so specified, five London Business Days) representing a number of London Business Days;

“**SONIA Compounded Index**” means the index known as the SONIA Compounded Index administered by the Bank of England (or any successor administrator thereof);

“**SONIA Compounded Index_{START}**” means, in respect of an Interest Accrual Period, the SONIA Compounded Index Value on the date falling “p” London Business Days prior to (i) the first day of such Interest Accrual Period, or (ii) in the case of the first Interest Accrual Period, the Issue Date;

“**SONIA Compounded Index_{END}**” means the SONIA Compounded Index Value on the date falling “p” London Business Days prior to (i) in respect of an Interest Accrual Period, the Interest Payment Date for such Interest Accrual Period, or (ii) if the Notes become due and payable prior to the end of an Interest Accrual Period, the date on which the Notes become so due and payable; and

“**SONIA Compounded Index Value**” means in relation to any London Business Day, the value of the SONIA Compounded Index as published by authorised distributors on the Relevant Screen Page on such London Business Day or, if the value of the SONIA Compounded Index cannot be obtained from such authorised distributors, as published on the Bank of England’s Website at www.bankofengland.co.uk/boeapps/database/ (or such other page or website as may replace such page for the purposes of publishing the SONIA Compounded Index) on such London Business Day.

(y) SONIA Compounded Daily Reference Rate

If SONIA Compounded Daily Reference Rate is specified in the relevant Final Terms, the Rate of Interest for each Interest Accrual Period will be the SONIA Compounded Daily Reference Rate as follows, plus or minus (as indicated in the relevant Final Terms) the Margin (if any),

“**SONIA Compounded Daily Reference Rate**” means, in respect of an Interest Accrual Period, the rate of return of a daily compound interest investment (with the daily Sterling overnight reference rate as reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or such other independent party with appropriate expertise and/or international repute responsible for the calculation of the Rate of Interest, as specified in the relevant Final Terms) on the Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards,

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_i \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

Where :

“**London Business Day**”, “**Observation Period**” and “*p*” have the meanings set out under Condition 5(b)(iii)(B)(f)(x);

“*d*” is the number of days in the relevant:

“*d_o*” is the number of London Business Days in the relevant:

- (i) Observation Period where Observation Shift is specified in the relevant Final Terms; or
- (ii) Interest Accrual Period where Lag is specified in the relevant Final Terms;

“*i*” is a series of whole numbers from one to *d_o*, each representing the relevant London Business Day in chronological order from, and including, the first London Business Day in the relevant:

- (i) Observation Period where Observation Shift is specified in the relevant Final Terms; or
- (ii) Interest Accrual Period where Lag is specified in the relevant Final Terms;

the “**SONIA reference rate**”, in respect of any London Business Day, is a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Business Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page on the next following London Business Day or, if the Relevant Screen Page is unavailable, as published by authorised distributors on such London Business Day or, if SONIA cannot be obtained from such authorised distributors, as published on the Bank of England’s Website at www.bankofengland.co.uk/boeapps/database/ (or such other page or website as may replace such page for the purposes of publishing the SONIA reference rate).

(z) Where SONIA is specified as the Reference Rate in the relevant Final Terms and either (i) the SONIA Compounded Daily Reference Rate is specified in the relevant Final Terms, or (ii) the SONIA Compounded Index Rate is specified in the relevant Final Terms, if, in respect of any London Business Day, the SONIA reference rate is not available on the Relevant Screen Page or Relevant Fallback Screen Page as applicable, (or as otherwise provided in the relevant definition thereof) , such Reference Rate shall be:

1. (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of business on the relevant London Business Day; plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five days on which the SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate, or
2. if such Bank Rate is not available, the SONIA reference rate published on the Relevant Screen Page (or as otherwise provided in the relevant definition thereof) for the first preceding London Business Day on which the SONIA reference rate was published on the Relevant Screen Page (or as otherwise provided in the relevant definition thereof), and

in each case, SONIA_i shall be interpreted accordingly.

(aa) If the Rate of Interest cannot be determined in accordance with the foregoing provisions, the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Accrual Period).

If the Notes become due and payable in accordance with the Conditions, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so

long as any such Note remains outstanding, be that determined on such date.

(C) Benchmark discontinuation

If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions shall apply and shall prevail over other fallbacks specified in Condition 5(b)(iii)(B) (except in respect of Conditions 5(b)(iii)(B)(d), 5(b)(iii)(B)(e) and 5(b)(iii)(B)(f)).

(a) Independent Adviser

The Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5(b)(iii)(C)(b)) and, in either case, an Adjustment Spread if any (in accordance with Condition 5(b)(iii)(C)(c)) and any Benchmark Amendments (in accordance with Condition 5(b)(iii)(C)(d)).

In making such determination, the Independent Adviser appointed pursuant to this Condition 5(b)(iii)(C) shall act in good faith in a commercially reasonable manner as an independent expert and in consultation with the Issuer. The Issuer will not take any discretionary decision on the basis of such consultation. In the absence of bad faith, manifest error or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Paying Agents, or the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition 5(b)(iii)(C).

If (i) the Issuer is unable to appoint an Independent Adviser; or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(b)(iii)(C)(a) prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest. Where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period. For the avoidance of doubt, this Condition 5(b)(iii)(C)(a) shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5(b)(iii)(C)(a).

(b) Successor Rate or Alternative Rate

If the Independent Adviser, determines that:

- (i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5(b)(iii)(C)(c)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future

payments of interest on the Notes (subject to the operation of this Condition 5(b)(iii)(C)); or

- (ii) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5(b)(iii)(C)(c)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(b)(iii)(C)).

(c) Adjustment Spread

If the Independent Adviser, determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(d) Benchmark Amendments

If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 5(b)(iii)(C) and the Independent Adviser, determines (i) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”) and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(b)(iii)(C)(e), without any requirement for the consent or approval of Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, and in connection with any such variation in accordance with this Condition 5(b)(iii)(C)(d), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(e) Notices

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(b)(iii)(C) will be notified promptly by the Issuer, after receiving such information from the Independent Adviser, to the Fiscal Agent, the Calculation Agent, the Paying Agents, the Representative of the *Masse* and, in accordance with Condition 14, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Noteholders and the Representative of the *Masse* of the same, the Issuer shall deliver to the Fiscal Agent a certificate signed by one authorised signatory of the Issuer:

- (i) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate, (iii) where applicable, any Adjustment Spread and (iv) the specific terms of the Benchmark Amendments (if any), mentioned in (i), (ii) and (iii) and as determined

by the Independent Adviser in accordance with the provisions of this Condition 5(b)(iii)(C); and

- (ii) certifying that the Independent Adviser has confirmed that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread.

The Fiscal Agent shall make such certificate available at its offices, for inspection by the Noteholders at all reasonable times during normal business hours.

The Fiscal Agent shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Fiscal Agent's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agent and the Noteholders.

- (f) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Condition 5(b)(iii)(C) (a), (b), (c) and (d), the Original Reference Rate and the fallback provisions provided for in Condition 5(b)(iii)(B) will continue to apply unless and until a Benchmark Event has occurred.

- (g) New Benchmark Event in respect of the Successor Rate or Alternative Rate

If Benchmark Amendments have been implemented pursuant to this Condition 5(b)(iii)(C) and a new Benchmark Event occurs in respect of the then applicable Successor Rate or Alternative Rate, the provisions of this Condition 5(b)(iii)(C) shall apply as if the Successor Rate or Alternative Rate were the Original Reference Rate.

- (D) Linear Interpolation

Where Linear Interpolation is specified in the relevant Final Terms to be applicable in respect of an Interest Accrual Period, the Rate of Interest for such Interest Accrual Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where "Screen Rate Determination" is specified to be applicable in the relevant Final Terms) or the relevant Floating Rate Option (where "ISDA Determination" is specified to be applicable in the relevant Final Terms), one of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Accrual Period and the other of which shall be determined as if the Applicable Maturity were the period of time for which rates are available the next longer than the length of the relevant Interest Accrual Period, provided however, that if there is no such rate available for a period of time shorter or, as the case may be, longer than the relevant Interest Accrual Period, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

“**Applicable Maturity**” means: (a) in relation to Screen Rate Determination, the period of time designated in the Reference Rate, and (b) in relation to ISDA Determination, the Designated Maturity.

(c) Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that will automatically change from a Fixed Rate to a Floating Rate, or from a Floating Rate to a Fixed Rate on the date set out in the Final Terms.

(d) Zero Coupon Notes

Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as defined in Condition 6(b)(i)).

(e) Accrual of Interest

Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, on such due date or (ii) in the case of Materialised Notes, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgement) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 8).

(f) Margin, Maximum/Minimum Rates of Interest and Redemption Amounts, Rate Multipliers and Rounding

- (i) If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (b) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest or Redemption Amount is specified in the relevant Final Terms, then any Rate of Interest or Redemption Amount shall be subject to such maximum or minimum, as the case may be. In no event shall the amount of interest payable (including, for the sake of clarity, any applicable margin) be less than zero.
- (iii) For the purposes of any calculations required pursuant to these Conditions, (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes “**unit**” means the lowest amount of such currency that is available as legal tender in the country/ies of such currency.

(g) Calculations

The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in respect of such period in the Final Terms, in which case the amount of interest payable in respect

of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

(h) Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts

As soon as practicable after the relevant time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount or any Optional Redemption Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are admitted to trading on a Regulated Market and the rules of such Regulated Market so require, such exchange as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the second Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall, nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

(i) Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

“**Adjustment Spread**” means either a spread (which may be positive or negative), or a formula or a methodology for calculating a spread, in either case, which the Independent Adviser determines and which is required to be applied to the Successor Rate or the Alternative Rate, as the case may be, to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit, as the case may be, to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate, as the case may be, and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate);
- (ii) the Independent Adviser determines, is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions

to produce an industry-accepted replacement rate for the Original Reference Rate; or (if the Independent Adviser determines that no such spread is customarily applied);

- (iii) the Independent Adviser determines and which is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate, as the case may be.

“**Alternative Rate**” means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with Condition 5(b)(iii)(C)(b) and which is customarily applied in international debt capital markets transactions for the purposes of determining rates of interest (or the relevant component part thereof) in the same Specified Currency as the Notes.

“**Benchmark Amendments**” has the meaning given to it in Condition 5(b)(iii)(C)(d).

“**Benchmark Event**” means:

- (i) the Original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing to exist; or
- (ii) a public statement by the administrator of the Original Reference Rate that it has ceased or that it will cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (iii) a public statement by the supervisor of the administrator of the Original Reference Rate, that the Original Reference Rate has been or will be permanently or indefinitely discontinued; or
- (iv) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used either generally, or in respect of the Notes; or
- (v) it has become unlawful for any Paying Agent, the Calculation Agent or the Issuer to calculate any payments due to be made to any Noteholder using the Original Reference Rate,

provided that in the case of sub-paragraphs (ii), (iii) and (iv), the Benchmark Event shall occur on or within the six months preceding the date of the cessation of publication of the Original Reference Rate, the discontinuation of the Original Reference Rate, or the prohibition of use of the Original Reference Rate, as the case may be, and not the date of the relevant public statement.

The occurrence of a Benchmark Event shall be determined by the Issuer and promptly notified to the Fiscal Agent, the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Fiscal Agent, the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination.

“**Business Day**” means:

- (i) in the case of a currency other than Euro or RMB, a day (other than a Saturday, Sunday or a public holiday) on which commercial banks and foreign exchange markets settle payments in the principal financial centre for such currency; and/or

(k) RMB Notes

Notwithstanding the foregoing, each RMB Note which is a Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate per annum equal to the Rate of Interest. Interest will be payable in arrear on each Interest Payment Date.

The Calculation Agent will, as soon as practicable after the Relevant Time as specified in the relevant Final Terms on each Interest Determination Date, calculate the amount of interest payable per Specified Denomination for the relevant Interest Period. The determination of the amount of interest payable per Specified Denomination by the Calculation Agent shall (in the absence of manifest error and after confirmation by the Issuer) be final and binding upon all parties.

The Calculation Agent will cause the amount of interest payable per Specified Denomination for each Interest Period and the relevant Interest Payment Date to be notified to each of the Paying Agents and to be notified to Noteholders as soon as possible after their determination but in no event later than the fourth Business Day thereafter. The amount of interest payable per Specified Denomination and Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an adjustment of the Interest Period, if the Interest Payment Date is not a Business Day. If the Notes become due and payable under Condition 10, the accrued interest per Specified Denomination shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this provision but no publication of the amount of interest payable per Specified Denomination so calculated need be made.

Interest shall be calculated in respect of any period by applying the Rate of Interest to the Specified Denomination, multiplying such product by the actual number of days in the relevant Interest Period or, as applicable, other period concerned and dividing it by 365, and rounding the resulting figure to the nearest RMB sub-unit, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

6 Redemption, Purchase and Options

(a) Final Redemption

Unless previously redeemed or purchased and cancelled as provided below, each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which, unless otherwise provided and/or specified in the relevant Final Terms, is its nominal amount).

(b) Early Redemption:

(i) Zero Coupon Notes:

- (A) The Early Redemption Amount payable in respect of any Zero Coupon Note, the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 6(c) or upon it becoming due and payable as provided in Condition 10 shall be the Amortised Nominal Amount (calculated as provided below) of such Note.
- (B) Subject to the provisions of sub-paragraph (C) below, the “**Amortised Nominal Amount**” of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 6(c) or upon it becoming due and payable as provided in Condition 10 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such

Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Note becomes due and payable were the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgement) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 6(c).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown in the relevant Final Terms.

- (ii) **Other Notes:** The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Conditions 6(c), 6(i) and 6(m) or upon it becoming due and payable as provided in Condition 10, shall be the Final Redemption Amount.

(c) Redemption for Taxation Reasons:

- (i) If, by reason of any change in, or any change in the official application or interpretation of, the law of a Relevant Jurisdiction (as defined below), becoming effective after the Issue Date, the Issuer [or, the Guarantor (in respect of the Guarantee)] would on the occasion of the next payment of principal or interest due in respect of the Notes or Coupons, not be able to make such payment without having to pay additional amounts as specified under Condition 8 below, the Issuer may, at its option, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, subject to having given not more than 45 nor less than 30 days' prior notice to the Noteholders or, if applicable, to the holders of Coupons (the "**Couponholders**") (which notice shall be irrevocable) in accordance with Condition 14, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the Issuer [or, the Guarantor (in respect of the Guarantee)] could make payment of principal and interest without withholding for such additional amounts.
- (ii) If the Issuer [or, the Guarantor (in respect of the Guarantee)] would on the next payment of principal or interest in respect of the Notes or Coupons be prevented by the law of a Relevant Jurisdiction from making payment to the Noteholders or, if applicable, Couponholders of the full amount then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 8 below, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven days' prior notice to the Noteholders or, if applicable, the Couponholders, in accordance with Condition 14, redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount together with any interest accrued to the date set for redemption on (A) the latest practicable Interest Payment Date on which the Issuer [or the Guarantor] could make payment of the full amount then due and payable in respect of the Notes or, if applicable, Coupons, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice of Noteholders or, if applicable, Couponholders, shall be the later of (i) the latest practicable date on which the Issuer could make payment of the full amount then due and payable in respect of the Notes and (ii) 14 days after giving notice to the Fiscal Agent as aforesaid or (B) if so specified in the relevant Final Terms, at any time, provided that the due date for redemption of which notice hereunder shall be given shall be the latest practicable date at which the Issuer could make payment of the full amount

payable in respect of the Notes, or, if applicable, Coupons or, if that date is passed, as soon as practicable thereafter.

“**Relevant Jurisdiction**” means the Republic of France or any other jurisdiction in which the Issuer [or, the Guarantor (in respect of the Guarantee)], or its successor, is or becomes organised or resident for tax purposes, or any political subdivision or taxing authority in, or of, any of the foregoing.

If a Make-Whole Redemption by the Issuer is specified in the relevant Final Terms, in respect of any issue of Notes, the Issuer will, subject to compliance by the Issuer with all relevant laws, regulations and directives and on giving not less than 15 nor more than 30 days’ irrevocable notice (which shall specify the Optional Redemption Date and the Specified Redemption Portion (each as defined below)) in accordance with Condition 14 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms), have the option to redeem the Notes, in whole or in part, at any time or from time to time, prior to their Maturity Date (the “**Optional Redemption Date**”) at their relevant Optional Redemption Amount multiplied by the relevant Specified Redemption Portion.

The “**Optional Redemption Amount**” will be calculated by the Make-Whole Calculation Agent as set out in the relevant Final Terms and will be an amount rounded to the nearest cent (half a cent being rounded upwards) being the greater of (x) 100 per cent. of the nominal amount of the Notes so redeemed and (y) the sum of the then present values of the remaining scheduled payments of principal and interest on such Notes (not including any interest accrued on the Notes to, but excluding, the relevant Optional Redemption Date) discounted to the relevant Optional Redemption Date on an annual basis at the Redemption Rate plus a Redemption Margin (as specified in the relevant Final Terms), plus in each case (x) or (y) above, any interest accrued on the Notes to, but excluding, the Optional Redemption Date.

If a Residual Maturity Call Option is specified in the relevant Final Terms and if the Issuer decides to redeem the Notes pursuant to the Make-Whole Redemption by the Issuer before the Residual Maturity Call Option Date (as specified in the relevant Final Terms) pursuant to Condition 6(g) below, the Optional Redemption Amount in respect of the Make-Whole Redemption by the Issuer will be calculated taking into account the Residual Maturity Call Option Date pursuant to Condition 6(g) below and not the Maturity Date.

The “**Redemption Rate**” is the average of the four quotations (eliminating the highest quotation (or, in the event of equality, one of the highest quotations) and the lowest quotation (or in the event of equality, one of the lowest quotations)) given by the Reference Dealers of the mid-market annual yield to maturity of the Reference Security (as specified in the relevant Final Terms) on the fourth business day preceding the Optional Redemption Date at 11.00 a.m. (Central European time (CET)).

“**Reference Dealers**” means each of the four banks selected by the Make-Whole Calculation Agent which are primary European government security dealers, and their respective successors, or market makers in pricing corporate bond issues or as specified in the relevant Final Terms.

If the Reference Security is no longer outstanding, a Similar Security specified in the Final Terms, will be chosen by the Make-Whole Calculation Agent at 11.00 a.m. (Central European time (CET))

on the third business day in Paris preceding the Optional Redemption Date, quoted in writing by the Make-Whole Calculation Agent to the Issuer and notified in accordance with Condition 14.

The Redemption Rate will be notified by the Issuer in accordance with Condition 14.

The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Make-Whole Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

In the case of a partial redemption of, or a partial exercise of the Issuer's option in respect of, Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances and taking account of prevailing market practices, subject to compliance with any applicable laws and requirements of the Regulated Market on which the Notes are admitted to trading.

In the case of a partial redemption of, or a partial exercise of the Issuer's option in respect of, Dematerialised Notes, the redemption may be effected, at the option of the Issuer, either (i) by reducing the nominal amount of all such Dematerialised Notes in a Series in proportion to the aggregate nominal amount redeemed or (ii) by redeeming in full some only of such Dematerialised Notes and, in such latter case, the choice between those Dematerialised Notes that will be fully redeemed and those Dematerialised Notes of any Series that will not be redeemed shall be made in accordance with Article R.213-16 of the Code, subject to compliance with any other applicable laws and requirements of the Regulated Market on which the Notes are admitted to trading. In no event, the outstanding nominal amount of each Note following such reduction shall be below any amount which would prevent the Issuer from choosing its home Member State (as such term is defined in the Prospectus Regulation).

Any notice given by the Issuer pursuant to this Condition 6(d) shall be deemed void and of no effect in relation to any Note in the event that, prior to the giving of such notice by the Issuer, the relevant Noteholder had already delivered an Exercise Notice in relation to such Note in accordance with Condition 6(f) below.

So long as the Notes are admitted to trading on a Regulated Market and the rules of such Regulated Market so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in accordance with Articles 221-3 and 221-4 of the General Regulation (*Règlement Général*) of the AMF and on the website of any other competent authority and/or Regulated Market where the Notes are admitted to trading, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Definitive Materialised Notes drawn for redemption but not surrendered.

(e) Redemption at the Option of the Issuer and Exercise of Issuer's Options and Partial Redemption

If a Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than 15 nor more than 30 days' irrevocable notice to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem, or exercise any Issuer's option (as may be described in the relevant Final Terms) in relation to, all or, if so provided, some, of the Notes on any Optional Redemption Date or Option Exercise Date, as the case may be. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's option in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the certificate number of the Definitive Materialised Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange requirements.

In the case of a partial redemption of or a partial exercise of an Issuer's option in respect of Dematerialised Notes of any Series, the redemption may be effected, at the option of the Issuer, either (i) by reducing the nominal amount of all such Dematerialised Notes in proportion to the aggregate nominal amount redeemed or (ii) by redeeming in full some only of such Dematerialised Notes and, in such latter case, the choice between those Dematerialised Notes that will be fully redeemed and those Dematerialised Notes that will not be redeemed shall be made in accordance with Article R.213-16 of the Code and the provisions of the relevant Final Terms, subject to compliance with any other applicable laws and stock exchange requirements.

So long as the Notes are admitted to trading on a Regulated Market and the rules of that stock exchange so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in accordance with Articles 221-3 and 221-4 of the General Regulation (*Règlement Général*) of the AMF and on the website of any other competent authority and/or Regulated Market where the Notes are admitted to trading, a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes a list of any Definitive Materialised Notes drawn for redemption but not surrendered.

To exercise such option or any other Noteholders' Option that may be set out in the relevant Final Terms (which must be exercised on an Option Exercise Date) the Noteholder must deposit with any Paying Agent at its specified office a duly completed option exercise notice ("**Exercise Notice**") in the form obtainable from any Paying Agent within the notice period. In the case of Materialised Notes, the Exercise Notice shall have attached to it the relevant Notes (together with all unmatured Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Fiscal Agent or the Paying Agent with a specified office in Paris as specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred, may be withdrawn without the prior consent of the Issuer.

(g) Residual Maturity Call Option

If a Residual Maturity Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than 15 nor more than 30 days' irrevocable notice in accordance with Condition 14 to the Noteholders redeem the Notes, in whole or in part, at par together with interest accrued to, but excluding, the date fixed for redemption, which shall be no earlier than (i) three months before the Maturity Date in respect of Notes having a maturity of not more than seven years or (ii) six months before the Maturity Date in respect of Notes having a maturity of more than seven years, until the

For the purpose of the preceding paragraph, the maturity of not more than seven years or the maturity of more than seven years shall be determined as from the Issue Date of the first Tranche of the relevant Series of Notes.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

(h) Redemption at the Option of Noteholders following a Change of Control

“**Rating Agency**” means S&P or any other rating agency of equivalent international standing requested from time to time by the Issuer [or, the Guarantor] to grant a rating to the Notes and, in each case, their respective successors or affiliates.

A “**Rating Downgrade**” shall be deemed to have occurred in respect of a Change of Control or in respect of a Potential Change of Control if within the Change of Control Period:

(A) the rating previously assigned to the Notes by any Rating Agency is (x) withdrawn or (y) changed from an investment grade rating (BBB-, or its respective equivalents for the time being, or better) to a non-investment grade rating (BB+, or their respective equivalents for the time being, or worse) or (z) if the rating previously assigned to the Notes by any Rating Agency was below an investment grade rating (as described above), lowered by at least one full rating notch, or

(B) the Notes have no credit rating, and no Rating Agency assigns within the Change of Control Period an investment grade credit rating to the Notes, unless Schneider Electric SE has a credit rating from a Rating Agency, in which case paragraph (A) shall apply to the credit rating assigned to Schneider Electric SE by any Rating Agency; and

provided that (i) a Rating Downgrade otherwise arising by virtue of a particular change in rating shall be deemed not to have occurred in respect of a particular Change of Control or Potential Change of Control, as the case may be, if the Rating Agency making the change in rating does not publicly announce or publicly confirm that the reduction was the result of the Change of Control or the Potential Change of Control, as the case may be, and (ii) any Rating Downgrade has to be confirmed in a letter, or other form of written communication, sent to the Issuer [or, the Guarantor] and publicly disclosed. When a substitution of the Issuer in accordance with Condition 15 has occurred, the written confirmation from the relevant Rating Agency shall be promptly notified to the Substituted Issuer by Schneider Electric SE.

“**Potential Change of Control**” means any public announcement or statement by Schneider Electric SE, any actual or potential bidder relating to any potential Change of Control of Schneider Electric SE.

Payment in respect of any Note so transferred will be made in Euro to the holder to the specified Euro-denominated bank account in the Change of Control Put Option Notice on the Optional Redemption Date via the relevant Paying Agent.

(i) Clean-Up Call Option

If a Clean-Up Call Option is specified in the relevant Final Terms and if 75 per cent. or any other percentage above as specified in the relevant Final Terms (the “**Clean-Up Percentage**”) of the initial aggregate nominal amount of Notes of the same Series have been redeemed or purchased and, in each case, cancelled, the Issuer may, on giving not less than 15 nor more than 30 days’ irrevocable notice in accordance with Condition 14 to the Noteholders redeem the Notes, in whole but not in part, at the Early Redemption Amount together with interest accrued to, but excluding, the date fixed for redemption, subject to the operation of the Acquisition Event Call Option as described below.

(j) Redemption on Acquisition Event

If an Acquisition Event Call Option is specified in the relevant Final Terms and an Acquisition Event (as defined below) occurs, the Issuer may, on giving promptly and in any event not more than 60 days after the occurrence of such Acquisition Event and not more than 30 nor less than 15 days before the date set for redemption, irrevocable notice to the Noteholders in accordance with Condition 14, subject to having also given notice to the Fiscal Agent, redeem in whole or in part or, if so specified in the relevant Final Terms, in whole only, the Notes at the Optional Redemption Amount specified in the relevant Final Terms together, if appropriate, with any interest accrued to the date fixed for redemption. The Issuer may waive its right to call the Notes in accordance with this Condition 6(j) by giving notice (which shall be irrevocable) pursuant to Condition 14.

If an Acquisition Event Call Option is specified in the relevant Final Terms, the Issuer shall not be entitled, during a period of twelve (12) months following the exercise by the Issuer of such Acquisition Event Call Option to exercise a Clean-up Call Option in accordance with Condition 6(i) with respect to such Notes.

An “**Acquisition Event**” shall have occurred if:

- (i) on or prior to the Acquisition Event Limit Date specified in the relevant Final Terms, the Issuer has not completed and closed the acquisition of the Targeted Company (as defined in the relevant Final Terms); or
- (ii) the Issuer has publicly stated that it no longer intends to pursue the acquisition of the Targeted Company (as defined in the relevant Final Terms).

In the case of a partial redemption, the relevant provisions of Condition 6(e) shall apply *mutatis mutandis* to this Condition 6(j).

(k) Purchases

The Issuer and any of its Subsidiaries may at any time purchase Notes (provided that, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price. Unless the possibility of holding and reselling is expressly excluded in the Final Terms, all Notes so purchased by the Issuer may be held and resold in accordance with applicable French laws and regulations.

(l) Cancellation

All Notes purchased by or on behalf of the Issuer for cancellation or any of its Subsidiaries will forthwith be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Notes, by surrendering each such Materialised Note together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to

such Dematerialised Notes and, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

(m) Illegality

If, by reason of any change in French law or any change in the official application of such law, becoming effective after the Issue Date, it becomes unlawful for the Issuer to perform or comply with one or more of its obligations under the Notes [or for the Guarantor to perform and comply with one or more of its obligations under the Guarantee], the Issuer will, subject to having given not more than 45 nor less than 30 days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption.

7 Payments and Talons

(a) Dematerialised Notes

Payments of principal and interest in respect of Dematerialised Notes shall be made (i) in the case of Dematerialised Notes in bearer dematerialised form or administered registered dematerialised form, by transfer to the account denominated in the relevant currency of the relevant Account Holders for the benefit of the relevant Noteholder and (ii) in the case of Dematerialised Notes in fully registered form, to an account denominated in the relevant currency with a Bank designated by the relevant Noteholder. All payments validly made to such Account Holders will constitute an effective discharge of the Issuer in respect of such payments.

(b) Materialised Notes

Payments of principal and interest in respect of Materialised Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Materialised Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 7(f)(v)) or Coupons (in the case of interest, save as specified in Condition 7(f)(v)), as the case may be, (i) in the case of a currency other than Renminbi, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with, a Bank and (ii) in the case of Renminbi, by transfer to a Renminbi account maintained by or on behalf of the Noteholder with a Bank. "Bank" means a bank in the principal financial centre for such currency or, in the case of Euro, in a city in which banks have access to T2, or in the case of RMB, in Hong Kong.

(c) Payments in the United States

Notwithstanding the foregoing, if any Materialised Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Materialised Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer [or the Guarantor, if payment is being made under the Guarantee].

(d) Payments Subject to Fiscal Laws

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives, but without prejudice to the provisions of Condition 8. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.

(e) Appointment of Agents

The Fiscal Agent, the Paying Agents, the Calculation Agent(s), the Redenomination Agent, the Consolidation Agent and the Registration Agent initially appointed by the Issuer and their respective specified offices are listed below. The Fiscal Agent, the Paying Agents, the Redenomination Agent, the Registration Agent and the Consolidation Agent act solely as agents of the Issuer and the Calculation Agent(s) act as independent experts and, in each case, do not assume any obligation or relationship of agency or trust for or with any Noteholder or holder of a coupon (a “**Couponholder**”). The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Redenomination Agent, the Registration Agent, the Consolidation Agent and the Calculation Agent(s), and to appoint additional or other Paying Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) Paying Agents having specified offices in at least two major European cities, (v) in the case of Dematerialised Notes in fully registered form, a Registration Agent and, (vi) such other agents as may be required by the rules of any other Regulated Market on which the Notes may be admitted to trading.

In addition, the Issuer [or the Guarantor, if payment is being made under the Guarantee] shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Notes denominated in U.S. dollars in the circumstances described in paragraph (c) above.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 14 below.

(f) Unmatured Coupons and Unexchanged Talons

- (i) Unless Materialised Notes provide that the relative Coupons are to become void upon the due date for redemption of those Notes, Materialised Notes should be surrendered for payment together with all unexpired Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unexpired Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9).
- (ii) If Materialised Notes so provide, upon the due date for redemption of any such Materialised Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Materialised Note, any unexpired Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Where any Materialised Note that provides that the relative unexpired Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unexpired Coupons, and where any such Note is presented for redemption

without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.

- (v) If the due date for redemption of any Materialised Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Note representing it, as the case may be. Interest accrued on a Materialised Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note representing it, as the case may be.

(g) Talons

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 9).

(h) Non-Business Days

If any date for payment in respect of any Note or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, “**business day**” means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France is open for business or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) on which banks and foreign exchange markets are open for business in such jurisdictions as shall be specified as “**Financial Centres**” in the relevant Final Terms and (C) (i) (in the case of a payment in a currency other than Euro and Renminbi) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) (in the case of a payment in Euro) which is a TARGET Business Day, or (iii) (in the case of a payment in Renminbi) on which banks and foreign exchange markets are open for business and settlement of Renminbi payments in Hong Kong.

(i) Payment of US Dollar Equivalent

Notwithstanding any other provision in these Conditions, if an Inconvertibility, Non-Transferability or Illiquidity occurs or if RMB is otherwise not available to the Issuer as a result of circumstances beyond its control and such unavailability has been confirmed by a RMB Dealer, following which the Issuer is unable to satisfy payments of principal or interest (in whole or in part) in respect of RMB Notes, the Issuer on giving not less than five nor more than 30-days irrevocable notice to the Noteholders prior to the due date for payment, may settle any such payment (in whole or in part) in U.S. dollars on the due date at the US Dollar Equivalent of any such RMB denominated amount.

In such event, payments of the US Dollar Equivalent of the relevant principal or interest in respect of the Notes shall be made by transfer to the U.S. dollar account of the relevant Account Holders for the benefit of the Noteholders. For the avoidance of doubt, no such payment of the US Dollar Equivalent shall by itself constitute a default in payment within the meaning of Condition 10.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 7(i) by the RMB Rate Calculation Agent, will (in the absence of manifest error) be binding on the Issuer, the Agents and all Noteholders.

For the purposes of this Condition 7(i):

“**Governmental Authority**” means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong or any other relevant jurisdiction of a Renminbi offshore market.

“**Illiquidity**” means that the general RMB exchange market in Hong Kong or any other relevant jurisdiction of a Renminbi offshore market becomes illiquid, other than as a result of an event of Inconvertibility or Non-Transferability, as determined by the Issuer in good faith and in a commercially reasonable manner following consultation with two RMB Dealers as a result of which event the Issuer cannot, having used its reasonable endeavours, obtain sufficient RMB in order fully to satisfy its obligation to pay interest or principal in respect of the RMB Notes.

“**Inconvertibility**” means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of RMB Notes in the general RMB exchange market in Hong Kong or any other relevant jurisdiction of a Renminbi offshore market, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation).

“**Non-Transferability**” means the occurrence of any event that makes it impossible for the Issuer to deliver RMB between accounts inside Hong Kong or any other relevant jurisdiction of a Renminbi offshore market from an account inside Hong Kong or any other relevant jurisdiction of a Renminbi offshore market or to an account outside Hong Kong or any other relevant jurisdiction of a Renminbi offshore market, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation).

“**RMB Dealer**” means an independent foreign exchange dealer of international repute active in the RMB exchange market in Hong Kong or any other relevant jurisdiction of a Renminbi offshore market reasonably selected by the Issuer.

“**RMB Note**” means a Note denominated in RMB.

“**RMB Rate Calculation Agent**” means the agent appointed from time to time by the Issuer for the determination of the RMB Spot Rate or identified as such in the relevant Final Terms.

“**RMB Rate Calculation Business Day**” means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Hong Kong or any other relevant jurisdiction of a Renminbi offshore market and in New York City.

“**RMB Rate Calculation Date**” means the day which is two RMB Rate Calculation Business Days before the due date for payment of the relevant RMB amount under the Conditions.

“**RMB Spot Rate**” for a RMB Rate Calculation Date means the spot CNY/U.S. dollar exchange rate for the purchase of U.S. dollars with CNY in the over-the-counter CNY exchange market in Hong Kong or any other relevant jurisdiction of a Renminbi offshore market for settlement on the relevant due date for payment, as determined by the RMB Rate Calculation Agent at the Relevant Time as specified in the relevant Final Terms on such RMB Rate Calculation Date, on a deliverable basis by reference to Reuters Screen Page TRADCNY3, or if no such rate is available, on a non-deliverable basis by reference to Reuters Screen Page TRADNDF. If neither such rate is available, the RMB Rate Calculation Agent will determine the RMB Spot Rate at the Relevant Time as specified in the relevant Final Terms on the RMB Rate Calculation Date as the most recently

available CNY/U.S. dollar official fixing rate for settlement on the relevant due date for payment reported by The State Administration of Foreign Exchange of the PRC, which is reported on the Reuters Screen Page CNY=SAEC. Reference to a page on the Reuters Screen means the display page so designated on the Reuter Monitor Money Rates Service (or any successor service) or such other page as may replace that page for the purpose of displaying a comparable currency exchange rate.

“**US Dollar Equivalent**” means the relevant RMB amount converted into U.S. dollars using the RMB Spot Rate for the relevant RMB Rate Calculation Date, as calculated by the RMB Rate Calculation Agent.

8 Taxation

(a) Withholding Tax exemption

All payments of principal, interest and other revenues by or on behalf of the Issuer in respect of the Notes or Coupons [or payments under the Guarantee] shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

(b) Additional Amounts

If the law or regulation of a Relevant Jurisdiction should require that payments of principal, interest or in respect of any Note or Coupon [or payments under the Guarantee] be subject to deduction or withholding in respect of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within any Relevant Jurisdiction or any authority therein or thereof having power to tax, the Issuer will [or, as the case may be, the Guarantor in the case of payments under the Guarantee], to the fullest extent then permitted by law, pay such additional amounts as shall result in receipt by the Noteholders or, if applicable, the Couponholders, as the case may be, of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any Note or Coupon [or payments under the Guarantee], as the case may be:

- (i) **Other connection:** to, or to a third party on behalf of, a Noteholder or, if applicable, a Couponholder, as the case may be, who is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of his having some connection with the Relevant Jurisdiction other than the mere holding of the Note or Coupon; or
- (ii) **Presentation more than 30 days after the Relevant Date:** in the case of Materialised Notes, more than 30 days after the Relevant Date except to the extent that the Noteholder or, if applicable a Couponholder, as the case may be, would have been entitled to such additional amounts on presenting it for payment on the thirtieth such day.

As used in these Conditions, “**Relevant Date**” in respect of any Note or Coupon [or payments under the Guarantee] means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation.

References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Notes, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Nominal Amounts and all other amounts in the nature of principal payable pursuant to Condition 7 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 5 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any additional amounts that may be payable under this Condition.

(c) **Supply of information**

Each Noteholder shall be responsible for supplying to the relevant Paying Agent, in a timely manner, any information as may be required in order to comply with the identification and reporting obligations imposed on it by Article 242 ter of the French *Code général des impôts*.

9 Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

10 Events of Default

The Representative (as defined under Condition 11), upon request of any Noteholder, may, upon written notice to the Issuer and the Fiscal Agent given before all defaults shall have been cured, cause the principal amount of all the Notes (but not some only) held by such Noteholder to become immediately due and payable, together with accrued interest thereon, as of the date on which such notice for payment is received by the Fiscal Agent without further formality, if any of the following events (each an “**Event of Default**”) shall occur:

- (i) in the event of default by the Issuer in the payment of principal and interest on any Note [or the Guarantor defaults in any payment when due under the Guarantee], when and as the same shall become due and payable, if such default shall not have been cured within 7 business days from such due date;
- (ii) in the event of default by the Issuer [or the Guarantor] in the due performance of any other provision of the Notes [or the Guarantee], if such default shall not have been cured within 21 business days after receipt by the Fiscal Agent of written notice of such default given by a Noteholder;
- (iii) any other present or future indebtedness of the Issuer [, the Guarantor] or any Principal Subsidiary for borrowed monies in excess of Euro 200,000,000 (or its equivalent in any other currency), whether individually or in the aggregate, becomes, following, where applicable, the expiry of any originally applicable grace period, due and payable prior to its stated maturity as a result of a default thereunder, or any such indebtedness shall not be paid when due or, as the case may be, within any originally applicable grace period therefor or any steps shall be taken to enforce any security in respect of any such indebtedness or any guarantee or indemnity given by the Issuer [, the Guarantor] or any Principal Subsidiary for, or in respect of, any such indebtedness of others shall not be honoured when due and called upon;
- (iv) a judgement is issued for the judicial liquidation (*liquidation judiciaire*) or for a transfer of the whole of the business (*cession totale de l'entreprise*) of the Issuer [, the Guarantor] or any Principal Subsidiary or, to the extent permitted by law, the Issuer [, the Guarantor] or any Principal Subsidiary is subject to any other insolvency or bankruptcy proceedings or the Issuer [, the Guarantor] or any Principal Subsidiary makes any conveyance, assignment or

other arrangement for the benefit of its creditors or enters into a composition with its creditors;

- (v) in the event that the Issuer [or the Guarantor] or any Principal Subsidiary ceases to carry on all or a material part of its or their business or other operations, except for the purposes of and following a merger or reorganisation (*fusion, scission or apport partiel d'actifs*) (i) in the case of the Issuer, on terms approved by a Collective Decision of the Noteholders if French law were to require such merger or reorganisation to be approved by a Collective Decision of the Noteholders or (ii) or in the case of a Principal Subsidiary, whereby the undertaking and assets of the Principal Subsidiary are vested in the Issuer, another of the Principal Subsidiaries or any other Subsidiary which as a result of such merger or reorganisation becomes a Principal Subsidiary;
- (vi) [the Guarantee is not (or is claimed by Schneider Electric SE not to be) in full force and effect; or]
- (vii) [the Issuer ceases to be a Subsidiary of Schneider Electric SE].

For the purpose paragraphs (iii), (iv) and (v) above, the term “**Principal Subsidiary**” shall have the same meaning as under Condition 4 hereinabove

11 Representation of Noteholders

In respect of the representation of the Noteholders, the following shall apply:

(a) **Masse**

Noteholders will, in respect of all Tranches in any Series, be grouped automatically for the defence of their common interests in a masse (in each case, the “**Masse**”), which will be subject to the below provisions of this Condition 11.

The *Masse* will be governed by the provisions of the French *Code de commerce*, with the exception of Articles L.228-48, L.228-59, L.228-65 I, 1°, 4° and 6°, the second sentence of Article L.228-65 II, L.228-71, R.228-63 and R.228-69 of the French *Code de Commerce* and subject to the following provisions:

- (i) **Legal Personality:** The *Masse* will be a separate legal entity and will act in part through a representative (the “**Representative**”) and in part through a general meeting of the Noteholders (the “**General Meeting**”) or by consent following a Consultation in Writing (as defined and further described in Condition 11 b) below) (together, “**Collective Decisions**”).
- (ii) The *Masse* alone, to the exclusion of all individual Noteholders, shall exercise the common rights, actions and benefits which now or in the future may accrue respectively with respect to the Notes.
- (iii) **Representative:** The office of the Representative may be conferred on a person of any nationality. However, the following persons may not be chosen as Representatives:
 - (a) the Issuer, the members of its Board of Directors (*Conseil d'administration*), its general managers (*directeurs généraux*), its statutory auditors, or its employees as well as their ascendants, descendants and spouses; or
 - (b) companies guaranteeing all or part of the obligations of the Issuer, their respective managers (*gérants*), general managers (*directeurs généraux*), members of their Board of Directors (*Conseil d'administration*), Management Board (*Directoire*) or

Supervisory Board (*Conseil de surveillance*), their statutory auditors, or employees as well as their ascendants, descendants and spouses; or

- (c) companies holding 10 per cent. or more of the share capital of the Issuer or companies having 10 per cent. or more of their share capital held by the Issuer; or
- (d) persons to whom the practice of banker is forbidden or who have been deprived of the right of directing, administering or managing an enterprise in whatever capacity.

The names and addresses of the initial Representative of the *Masse* and its alternate will be set out in the relevant Final Terms. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single *Masse* of all Tranches in such Series.

The Representative will be entitled to such remuneration in connection with its functions or duties as set out in the relevant Final Terms.

In the event of death, retirement, dissolution or revocation of appointment of the Representative, such Representative will be replaced by another Representative. In the event of death, retirement, dissolution or revocation of appointment of the alternate Representative, an alternate will be elected by Collective Decision.

All interested parties will at all times have the right to obtain the names and addresses of the initial Representative and the alternate Representative at the head office of the Issuer and the specified offices of any of the Paying Agents.

- (iv) **Powers of the Representative:** The Representative shall (in the absence of any Collective Decision to the contrary) have the power to take all acts of management necessary in order to defend the common interests of the Noteholders.

All legal proceedings against the Noteholders or initiated by them, must be brought by or against the Representative.

The Representative may not interfere in the management of the affairs of the Issuer.

- (v) **General Meeting:** A General Meeting may be held at any time, on convocation either by the Issuer or by the Representative. One or more Noteholders, holding together at least one-thirtieth of the principal amount of the Notes outstanding, may address to the Issuer and the Representative a demand for convocation of the General Meeting, together with the proposed agenda for such General Meeting. If such General Meeting has not been convened within two months after such demand, the Noteholders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, time, place and agenda of any General Meeting will be published as provided under Condition 14 not less than 15 days prior to the date of such General Meeting on first convocation and 5 days on second convocation.

Each Noteholder has the right to participate in a General Meeting in person, by proxy, correspondence, or, videoconference or any other means of telecommunications allowing the identification of the participating Noteholders as provided *mutatis mutandis* by Article R. 225-97 of the French *Code de commerce*. Each Note carries the right to one vote or, in the case of Notes issued with more than one Specified Denomination, one vote in respect of each multiple of the lowest Specified Denomination comprised in the principal amount of the Specified Denomination of such Note.

- (vi) **Powers of the General Meetings:** The General Meeting is empowered to deliberate on the dismissal and replacement of the Representative and the alternate Representative and also may act with respect to any other matter that relates to the common rights, actions and benefits which now or in the future may accrue with respect to the Notes, including authorising the Representative to act at law as plaintiff or defendant.

The General Meeting may further deliberate on any proposal relating to the modification of the Conditions including any proposal, whether for arbitration or settlement, relating to rights in controversy or which were the subject of judicial decisions, it being specified, however, that the General Meeting may not increase the liabilities (*charges*) of the Noteholders, nor establish any unequal treatment between the Noteholders, nor to decide to convert Notes into shares.

General Meetings may deliberate validly on first convocation only if Noteholders present or represented hold at least a fifth of the principal amount of the Notes then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a two-third majority of votes cast by Noteholders attending such General Meetings or represented thereat.

In accordance with Article R.228-71 of the French *Code de commerce*, the rights of each Noteholder to participate in Collective Decisions will be evidenced by the entries in the books of the relevant Account Holder of the name of such Noteholder on the second business day in Paris preceding the date set for the meeting of the relevant Collective Decision at 0:00, Paris time.

Decisions of General Meetings and Consultations in Writing must be published in accordance with the provisions set forth in Condition 14.

- (b) **Consultation in Writing:** Pursuant to Article L.228-46-1 of the French *Code de commerce*, but in respect of any Series of Dematerialised Notes only, the Issuer shall be entitled in lieu of the holding of a General Meeting to seek approval of a resolution from the Noteholders by way of a Consultation in Writing. Subject to the following sentence a Consultation in Writing may be contained in one document or in several documents in like form, each signed by or on behalf of one or more of the Noteholders. Pursuant to Articles L.228-46-1 and R.225-97 of the French *Code de commerce* approval of a Consultation in Writing may also be given by way of electronic communication allowing the identification of Noteholders (“**Electronic Consent**”).

Notice seeking the approval of a Consultation in Writing (including by way of Electronic Consent) will be published as provided under Condition 14 not less than 10 days prior to the date fixed for the passing of such Consultation in Writing (the “**Consultation Date**”). Notices seeking the approval of a Consultation in Writing will contain the conditions of form and time-limits to be complied with by the Noteholders who wish to express their approval or rejection of such proposed Consultation in Writing. Noteholders expressing their approval or rejection before the Consultation in Writing Date will undertake not to dispose of their Notes until after the Consultation Date.

A “**Consultation in Writing**” means a resolution in writing signed or approved by or on behalf of the Noteholders representing not less than 75 per cent. in nominal amount of the Notes outstanding.

- (c) **Exclusion of certain provisions of the French *Code de commerce*:** The provisions of Article L.228-65 I. 1°, 4° and 6° of the French *Code de commerce* (respectively providing for a prior approval by the General Meeting of the Noteholders (i) of any change in corporate purpose or form of the Issuer, (ii) of an issue of bonds benefiting from a security interest (*sûreté réelle*) or (iii) of any proposal to transfer the registered office of a *societas europaea* to another Member State of the European Union) and the related provisions of the French *Code de commerce* shall not apply to the Notes.

- (d) **Information to Noteholders:** Each Noteholder or Representative thereof will have the right, during the 15- days period preceding the holding of each General Meeting on first convocation and during the 5- days period preceding the holding of each General Meeting on second convocation or the Consultation Date, to consult or make a copy of the text of the resolutions which will be proposed and of the reports prepared in connection with such resolutions, all of which will be available for inspection by the relevant Noteholders at the registered office of the Issuer, at the specified offices of any of the Paying Agents during normal business hours and at any other place specified in the notice of the General Meeting or Consultation in Writing. Any notice to be given to Noteholders in accordance with this Condition 11 shall be given in accordance with Condition 14(e) below.
- (e) **Expenses:** The Issuer will pay all expenses relating to the operation of the *Masse*, including expenses relating to the calling and holding of General Meetings and seeking a Consultation in Writing and, more generally, all administrative expenses resolved upon by the General Meeting or in writing by the Noteholders, it being expressly stipulated that no expenses may be imputed against interest payable under the Notes.
- (f) **Single Masse:** The holders of Notes of the same Series, and the holders of Notes of any other Series which have been assimilated with the Notes of such first mentioned Series in accordance with Condition 13, shall, for the defence of their respective common interests, be grouped in a single *Masse*. The Representative appointed in respect of the first Tranche of any Series of Notes will be the Representative of the single *Masse* of all such Series.
- (g) **One Noteholder:** If and for so long as the Notes of any Series are held by a single Noteholder and unless a Representative has been appointed in relation to such Series, such Noteholder shall exercise all powers, rights and obligations entrusted to the *Masse* by the provisions of Condition 11. The Issuer shall hold a register of the decisions taken by the sole Noteholder and shall make them available, upon request, to any subsequent holder of any of the Notes of such Series.
- (h) **Benchmark Discontinuation:** By subscribing the Notes and solely in the context of a Benchmark Event which leads to the application of a Benchmark Amendment, each Noteholder shall be deemed to have agreed and approved any Benchmark Amendments or such other necessary changes pursuant to Condition 5(b)(iii)(C).

For the avoidance of doubt, in this Condition 11 “**outstanding**” shall not include those Notes subscribed or purchased by the Issuer that are held by it and not cancelled in accordance with applicable French laws and regulations as referred to in Condition 6(j).

12 Replacement of definitive Notes, Coupons and Talons

If, in the case of any Materialised Notes, a Definitive Materialised Note, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange regulations, at the specified office of the Fiscal Agent or such other Paying Agent as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Definitive Materialised Note, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Definitive Materialised Notes, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Definitive Materialised Notes, Coupons or Talons must be surrendered before replacements will be issued.

13 Further Issues and Consolidation

The Issuer may from time to time without the consent of the Noteholders, or Couponholders create and issue further notes to be assimilated (*assimilées*) with the Notes provided such Notes and the further Notes carry rights identical in all respects (or in all respects save for issue date, issue price, the principal amount thereof and the first payment of interest) and that the terms of such Notes provide for such assimilation, and references in these Conditions to “Notes” shall be construed accordingly.

The Issuer may from time to time on any Interest Payment Date occurring on or after the date specified for a redenomination of the notes pursuant to Condition 1(d), on giving not less than 30 days’ prior notice to the Noteholders in accordance with Condition 14, without the consent of the Noteholders or the Couponholders, consolidate the Notes with one or more issues of other notes issued by it, whether or not originally issued in one of the European national currencies or in Euro, provided such other notes have been redenominated in Euro (if not originally denominated in Euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the date of the first publication as provided above. Condition 14(c) is also applicable to such notices, if any such publication under Condition 14(b) is not practicable.

15 Substitution of the Issuer

By subscribing the Notes, each Noteholder has agreed and approved, that, subject to the provisions of this Condition 15, Schneider Electric SE may be replaced and may be substituted by any of its Subsidiaries as principal debtor in respect of the Notes, without further consent from the Noteholders pursuant to Condition 11, provided that no payment in respect of the Notes is at the relevant time overdue. If Schneider Electric SE determines that any of its Subsidiaries will become the principal debtor (in such capacity, the “**Substituted Issuer**”), Schneider Electric SE shall give no less than 30 nor more than 45 days’ notice to the Noteholders of each Note then outstanding of such event and, immediately on the expiry of such notice, the Substituted Issuer shall become the principal debtor in respect of the Notes in place of Schneider Electric SE and Noteholders shall thereupon cease to have any rights or claims whatsoever against Schneider Electric SE as principal debtor. However, no such substitution shall take effect:

- (i) if the effect of such substitution would, at the time of such substitution, be that payments in respect of any Note would be required to be made subject to any withholding or deduction which would not otherwise arise in the absence of such substitution, without such withholding or deduction being borne by the Substituted Issuer through the gross-up mechanism;
- (ii) until Schneider Electric SE has entered into an unconditional and irrevocable first demand guarantee (*garantie autonome à première demande*), which is substantially in the form of the Form of Guarantee, in respect of the obligations of such Substituted Issuer under the Notes (the “**Guarantee**”);
- (iii) in any case, until the Substituted Issuer shall have provided to the Fiscal Agent and the Paying Agents such documents as may be necessary to make each Note and the Agency Agreement legal, valid, binding and enforceable obligations;
- (iv) if the effect of such substitution would, at the time of such substitution, be that the relevant Notes cease to be listed and admitted to trading on the relevant Regulated Market where they are initially or before the substitution admitted for trading;
- (v) if the relevant Notes are rated at the relevant time, the Substituted Issuer has obtained, prior to the substitution date, a written confirmation from the Rating Agency that the substitution will not result in whole or in part in a withdrawal, downgrading, placement in credit-watch or negative outlook of the Notes;
- (vi) until a document describing the Substituted Issuer, the content of which would substantially contain the minimum requirements to be published when securities are admitted to trading under

the Prospectus Regulation; such document shall be published on the website of Schneider Electric SE;

- (vii) until such Substituted Issuer is validly incorporated under the laws of its jurisdiction of incorporation and have obtained all authorisations and approvals necessary for the substitution and the fulfilment of the obligations arising under the Notes;
- (viii) Schneider Electric SE has, prior to the substitution date, delivered to the Representative(s) of the *Masse* of each Series of Notes and to the Fiscal Agent for the benefit of the holders of the relevant Series of Notes and Coupons legal opinion(s) in such form as agreed with the Representative(s) of the *Masse* of each Series of Notes, from an international law firm of good repute in France and, as the case may be, legal opinion(s) from an international law firm of good repute in the jurisdiction of incorporation of the Substituted Issuer, confirming the legality, validity and enforceability of the substitution, the relevant Notes, the Guarantee, the ancillary agreements required to be entered into in relation to the substitution and the obligations of the Substituted Issuer in relation to the substitution; and
- (ix) if such substitution would have a material adverse impact on the interests of the Noteholders.

In the event of such substitution, any reference in the Conditions (with the exception of Condition 6(h)) to the Issuer shall from then on be deemed to refer to the Substituted Issuer and any reference in the Conditions to the Republic of France shall from then on be deemed to refer to the country of incorporation of the Substituted Issuer.

Schneider Electric SE shall inform the AMF of any such substitution.

For the purposes of this Condition:

“**Subsidiary**” means, in relation to any person or entity at any time, a “*filiale*” as defined in Article L.233-1 of the French *Code de commerce* (modified or re-enacted from time to time) or any other person or entity controlled directly or indirectly by such person or entity within the meaning of Article L.233-3 of the French *Code de commerce*.

16 Governing Law and Jurisdiction

(a) Governing Law

The Notes (and, where applicable, the Coupons and the Talons) and all non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, French law.

(b) Jurisdiction

Any claim against the Issuer in connection with any Notes, Coupons or Talons may be brought before any competent court located in Paris.

TEMPORARY GLOBAL CERTIFICATES ISSUED IN RESPECT OF MATERIALIZED NOTES

Temporary Global Certificate

A Temporary Global Certificate, without interest Coupons, will initially be issued in connection with Materialised Notes. Upon the initial deposit of such Temporary Global Certificate with a common depositary for Euroclear and Clearstream (the “**Common Depositary**”), Euroclear or Clearstream will credit each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

The Common Depositary may also (if indicated in the relevant Final Terms) credit the accounts of subscribers with other clearing systems through direct or indirect accounts with Euroclear and Clearstream held by such other clearing systems with a nominal amount of Notes. Conversely, a nominal amount of Notes that is initially deposited with any clearing system other than Euroclear or Clearstream may similarly be credited to the accounts of subscribers with Euroclear or Clearstream.

Exchange

Each Temporary Global Certificate issued in respect of Notes will be exchangeable, free of charge to the holder, on or after its Exchange Date (as defined below):

- (i) if the relevant Final Terms indicates that such Temporary Global Certificate is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (as to which, see “**Subscription and Sale**”), in whole, but not in part, for Definitive Materialised Notes; and
- (ii) otherwise, in whole but not in part, upon certification as to non-US beneficial ownership in the form set out in the Agency Agreement for Definitive Materialised Notes.

A Noteholder must exchange its share of the Temporary Global Certificate for Materialised Notes before interest or any amount payable in respect of the Notes will be paid.

Delivery of Definitive Materialised Notes

On or after its Exchange Date, the holder of the Temporary Global Certificate must surrender such Temporary Global Certificate to or to the order of the Fiscal Agent. In exchange for the Temporary Global Certificate so surrendered, the Issuer will deliver, or procure the delivery of, an equal aggregate nominal amount of duly executed and authenticated Definitive Materialised Notes.

In this Base Prospectus, “Definitive Materialised Notes” means, in relation to any Temporary Global Certificate, the Definitive Materialised Notes for which such Temporary Global Certificate may be exchanged (if appropriate, having attached to them all Coupons that have not already been paid on the Temporary Global Certificate and a Talon). Definitive Materialised Notes will be security printed in accordance with any applicable legal and stock exchange requirements in, or substantially in, the form set out in Schedule 2 Part A to the Agency Agreement.

Exchange Date

“**Exchange Date**” means, in relation to a Temporary Global Certificate, the next day succeeding the day that is 40 days after its issue date, provided that, in the event any further Materialised Notes are issued prior to such day pursuant to Condition 13, the Exchange Date for such Temporary Global Certificate shall be postponed to the day falling after the expiry of 40 days after the issue of such further Materialised Notes.

USE OF PROCEEDS

The net proceeds of the issue of the Notes will be used by the Issuer either:

- for its general corporate purposes; or
- as stated in the relevant Final Terms, in the case of issue of green, social or sustainability Notes, in an amount equal or equivalent to the net proceeds, to finance or re-finance, in part or in full, new and/or existing (i) eligible green projects, (ii) eligible social projects or (iii) eligible sustainable projects; or
- as stated in the relevant Final Terms, in respect of any particular issue of Notes for which there is a particular identified use of proceeds.

In respect of green, social or sustainability Notes, the Issuer will make available the relevant framework on its website on or before the issue of such Notes. Such framework will further describe the above-mentioned projects. The Issuer will apply processes for project evaluation and selection, management of proceeds and reporting consistent with guidelines set out in the Green Bond Principles, the Social Bond Principles and the Sustainability Bond Guidelines published by the International Capital Markets Association (as they may be further updated).

In that context and in relation to green Notes, and as further described in the relevant Final Terms, the Issuer will allocate an amount equal or equivalent to the net proceeds of the issuance of the Notes, directly or indirectly, to finance or refinance, in whole or in part, eligible green projects as defined in the relevant Final Terms with reference to the relevant framework or sections thereof to be published on the Issuer's website.

The framework will describe, in addition to the eligibility criteria, the management of proceeds, the reporting and the external reviews (second party opinion and verification) applicable for the relevant Notes.

In relation to social Notes, and as further described in the relevant Final Terms, the Issuer will allocate an amount equal or equivalent to the net proceeds of the issuance of the Notes, directly or indirectly, to finance or refinance, in whole or in part, eligible social projects as defined in the relevant Final Terms with reference to the relevant framework or sections thereof to be published on the Issuer's website.

The framework will describe, in addition to the eligibility criteria, the management of proceeds, the reporting and the external reviews (second party opinion and verification) applicable for the relevant Notes.

In relation to sustainability Notes, and as further described in the relevant Final Terms, the Issuer will allocate an amount equal or equivalent to the net proceeds of the issuance of the Notes, directly or indirectly, to finance or refinance, in whole or in part, eligible sustainable projects as defined in the relevant Final Terms with reference to the relevant framework or sections thereof to be published on the Issuer's website.

The framework will describe, in addition to the eligibility criteria, the management of proceeds, the reporting and the external reviews (second party opinion and verification) applicable for the relevant Notes.

For the avoidance of doubt, the relevant Final Terms of green, social or sustainability Notes will provide the relevant details such as references to the applicable framework and methodology note (defining *inter alia* the selection criteria for eligible assets or loans) under which such Notes are issued. The Final Terms may direct at a relevant section of the website of the Issuer to provide such information.

The Guarantor hereby declares being fully aware of all the Terms and Conditions of the Notes, the Agreements and the Programme.

The Guarantor hereby irrevocably and unconditionally undertakes [in favour of the Representative (acting for the benefit of the Noteholders),] to pay to the holders of the Notes (the “**Noteholders**”), upon first demand, any sums which [any Noteholder/ the Representative] may claim from time to time under this Guarantee, subject to the terms and conditions set forth therein.

Any claim under the Guarantee shall be made by issuance of a written demand by the [Noteholders/ Representative] upon the Guarantor substantially in the form attached as Appendix 1 (*Form of Demand Certificate*) to this Guarantee (a “**Demand Certificate**”).

Several Demand Certificates may be issued under this Guarantee provided that the maximum aggregate amount which may be claimed under this Guarantee is Euro [●] (or the equivalent therefore in any other currency) (such amount could be increased in the case of issue of further notes in accordance with Condition 13 of the Terms and Conditions of the Notes and the Guarantor [and the Representative] shall sign an amendment to such Guarantee in this respect). This Guarantee is granted in accordance with Article

2321 of the French *Code civil*, is independent (*autonome*) and constitutes an autonomous obligation of the Guarantor towards the Noteholders. Accordingly, the Guarantor may not invoke any defence that the Substituted Issuer could assert against the Noteholders [or the Representative], nor rely on any exceptions arising out of the relationship between the Noteholders [or the Representative] and the Substituted Issuer, in each case for the purpose of deferring or releasing itself from the performance of its obligations under the Guarantee.

The Issuer will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by such Dealer.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

The Notes have not been and will not be registered under the Securities Act or with any securities commission or any regulatory authority of any state or other jurisdiction of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings ascribed to them by Regulation S under the Securities Act (“**Regulation S**”).

Materialised Notes in bearer form having a maturity of more than one year are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and the regulations thereunder.

Each Dealer has agreed that, except as permitted by the Dealer Agreement, it will not offer, sell or, in the case of Materialised Notes in bearer form, deliver the Notes of any identifiable Tranche, (i) as part of their distribution at any time or (ii) otherwise until 40 days after completion of the distribution of such Tranche, as determined, and certified to the Issuer, by the Fiscal Agent, or in the case of Notes issued on a syndicated basis, the Lead Manager, within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells Notes during the distribution compliance period (as defined in Regulation S) a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in the preceding sentence have the meanings given to them by Regulation S.

The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S.

In addition, until 40 days after the commencement of the offering of any identifiable Tranche of Notes, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act and the laws of certain states and jurisdictions of the United States if such offer or sale is made otherwise than in accordance with an exemption from such registration requirements.

⁵ ICMA 1 and ICMA 2 approaches envisage that a negative target market will be unlikely. Note that a programme which only envisages vanilla issuance is unlikely to require a negative target market placeholder. If a negative target market is deemed necessary, wording along the following lines could be included: “The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are fully risk averse/have no risk tolerance or are seeking on-demand full repayment of the amounts invested.”

⁹ The legend may not be necessary if the managers in relation to the Notes are not subject to UK MiFIR and therefore there are no UK MiFIR manufacturers. Depending on the location of the manufacturers, there may be situations where either the MiFID II product governance legend or the UK MiFIR product governance legend or where both are included.
